

Melainah: A couple of things before we really get into our process today.

You know we are entering the time of the Winter Solstice and the winter season. And in the past years, we've kind of gone into retreat and silent time the first three months of the year. And even though we will be beginning our new Ascending Masters of Light program, it's still, we want to remind you, it's still that time to reflect and to go deep within yourself over these next few months, and particularly these next few weeks until we do gather together in January, 2022. So, just keep that in mind and prepare yourself in these next few weeks, between now and January 9, to set the Energies and set yourself in a place where you can receive and help create what is yet to come.

So, I want to remind you where we were last year, when we left. When we gathered on 12-31-2020 of last year, we ended with all of us being drawn to the center of the Unity Template with Yeshua and the Magdalene. And we were drawn there by the Platinum Rays, which are now radiating to each pillar at the four points of the Diamond. And just a reminder, we were instructed to only transmit the 5th Dimensional frequencies to Humanity.

So, now it is time to begin the next phase of this multi-step Service Project. But before we really get into it, I have some visual aids for you, to explain what we will be doing later in the process this morning. And that way, once we get started in your meditative space, you won't have to jump into your rational minds and say, "What is she telling us to do!?" So, bear with me here, so I can get this on the screen.

So, we have our Pink Diamond [in an upright, vertical orientation]. And later in the program... we will be asked to take this Pink Diamond to the Earth. So, here's the Earth [below the Pink Diamond] and we'll bring the Pink Diamond over the Earth. And, then when instructed, you will take that Pink Diamond and rotate it [until it's flat] and then bring it down and set it at the equator [of the Earth]. Everybody good with me there?

And then we will be directed then to bring the Unity Template to the Earth. And we will do that by bringing it through all the Iterations, down through the North Pole, through the center of the Earth all the way down, and then anchor it at the South Pole...

So, that's just to give you an idea, letting you know what we'll do, so you don't have to worry about which way I'm telling you to rotate the Diamond.

Anybody have any questions about that before we move on, because it's really important that you have that understanding in place, because precision is the word of the day!

[3:37] Question 1: It's a Diamond. Does it matter where the points are on the equator?
Melainah: Don't get in your rational mind about it – but, no, it doesn't... Just know.....

Question 2: Do we need to envision the elongated Diamond or is it OK the [regular Diamond with all sides equal]?

Melainah: Whatever that Pink Diamond looks like to you. To me it looks like [a regular Diamond]. It's not a fixed thing. It's something that is Energies and Light, so it is always changing and moving, depending on what needs to be done. And as we get these next pieces in place, there will be more fluidity to come. But, for right now, this is how it's going to be set, because we are actually going to take the Pink Diamond to the Earth today.

And this is a REALLY big deal.

Melainah: OK, now, once we start, we're going to go through each segment, segment to segment, without any breaks in between. So, make sure you're comfortable. Be sure you have no distractions around you, have what you need. Everybody's muted, I believe.

So, let's take a breath.....
