

Joan: We now present to you Lord Metatron

Lord Metatron: Greetings, Beloveds, it is I, Metatron.

I come to you, today, not as an individual Lord of Light, but in a Quadratic Configuration of myself, Lord Melchizedek, Archangel Uriel, and the White Brotherhood.

We come also in this Quadratic Configuration to amplify the Energetics within your environment, within your bodies, and within your Consciousness.

So, the first thing we would like to discuss with you is the purpose, so you fully understand the purpose of these Quadratic Energetics. The purpose of these beautiful Light Energies is to create a refined Light environment. We will be with you in this Energetic Configuration to support you during each phase of this Service Project, as will the Archangels.

These Quadratic Configurations are just that – it is a refined configuration of Energetics of the 5th, 6th, 7th, and 8th Dimensional sequences. It is sustained by mathematical equations that support it and help bring these Energetics into matter through the Platonic Solids of the Cube and the Octahedron. These Energetics bring a symmetry of refined Light Energies within certain Dimensional sequences. YOU, as Masters, bring electro-magnetic fields of matter as well as an Equilibrium to the 5th, 6th, and 7th Dimensions, through the Light Templates of those Dimensions that you have integrated into your physical body's complexity.

So, as you integrate these Quadratic Configurations more fully into your bodies, you will find them very useful in recouping some of those Memory Codes we have talked to you about repeatedly.

So, it's important that you not get too involved in your rational mind, in what those equations are or what the scientific community has to say about them, because they are much more than that.

Now, take a deep breath.....
Be very present and alert.....

Now, I would like to focus on the Energetics that you chose. This is really important that you understand – you did not choose those Points within the Diamond in last Session, in the last days of this project. You chose those points with the Archangel that oversees those Energetics. You chose them for a number of reasons, but most importantly, you chose them because they represent your Master Codes, where you can be most valuable in transmitting your Energetic Master Codes to help the Earth and Humanity recoup their original state of Christ Consciousness.

[6:09] So, you are needed in those Points to hold those Energetics and your purpose in those Points, just as the Archangel that oversees them.

It is also dependent on what your Prime Directive is and how you will be exemplifying that in that position, the position as we move forward, that position in each phase of this Project.

This phase is most important to set these Energetics within the Consciousness of Earth. These Energetics are an integral part of raising the Consciousness of a Planet that has been in a dense state of consciousness for milleniums.

So, along with that Quadratic Energetic and Master Codes that you carry and your Prime Directive, if you chose the South Point with Archangel Michael, you did so for purpose and intention to add to what Fire Dragons bring, what the Elements bring. You, as the human, bring a most valuable Equilibrium and state of matter, because Earth is one of the few physical Planets of Christ Consciousness, and yet has a great service that it performs for all Planetary Systems and Galaxies that have any [?] whatsoever.

So, if you chose the West with Gabriel, you carry the codes of inspiration and awareness. You carry a Prime Directive that will help you perform your duty.....

If you chose the North with Archangel Uriel, you have knowledge, Master Codes of knowledge to share.

If you chose the East with Archangel Raphael, that says great healing abilities to alter the frequencies and bringing them into alignment, coherence, into Equilibrium, into a state where the individual heals.

So, you have purpose here in each of those Points. And as you are drawn into the Center of the Pink Diamond, you bring those Codes, those Master Imprints, those Prime Directives, your physical expression as a Divine Being of Light into that Center with Yeshua and Mary Magdalene. You bring in that Love and Unity Template that is so missing in the consciousness of Earth and Humanity at this time.

So, as each one of you has been present in this last year, integrating the Energetics of this Template and also transmitting the Element of Love and Unity throughout Humanity, we call on you again as that Master in a body to perform the next phase of this Service. And that phase will be to accelerate very slowly the Pink Diamond, the rotation of that Pink Diamond.

[11:48] So, this is the duty at hand. Not only do you increase the rotation of the Pink Diamond, it will enable the basic Cube to increase its rotation and its ability to use the Light Codes that you are presenting in the creation of matter.

It takes an accelerated rotation to move on to the next phase of this Project, because the Energetics are required to be amplified. And this is what this new rotation will do, the position it will perform. Follow our directions, this is all about precision here – and do not go above the desired rotation. We are still very concerned about the welfare of Humans still playing in 3rd and 4th dimension. We do not want to interrupt the neurology of their brain or their body. We do not want to cause undue stress on Mother Earth, who is at this time in stress already. So, our gift/your gift to the Planet are these Codes and these rotations in precision that will be helpful but not destructive.
