

**Joan:** Welcome, Everyone, for our Friday afternoon Session of our 2022 Conference

Before I turn this segment over to Melainah, I would like to mention to everyone –  
Since this is a recurring morning-afternoon, day-to-day meeting,  
you need to be aware of when you were led into our Cosmic Crucible of Light,  
with all the Beings that were present to support us in this Conference,  
that that never changes.

So, in the centering meditations every day,  
we will not be leading you into the Crucible.  
You already are in it and will remain in that Energetic flow for the entire three days.

So, notice that your Field is really accelerated and rarified.

So, take advantage of it, because you may notice a difference on Monday morning!!!  
[Laughter]

But you can always go there, take yourself into that Crucible.  
But it will not be in the Energetic format that this is at this present time.

[1:45] **Melainah:** OK  
We're going to begin with just a couple of graphics.

*[Please see the Session #05 Melainah Image Collection PDF posted with the transcriptions, that Peg created for us, showing the graphics Melainah talks about. You can print them or look at them online while you listen to and/or read this Segment.]*

[Image #1 from above document:]  
In this next process, we're going to go places we've never been.  
And you're going to hear me use the word "luminous" often.

So, the graphic behind me, this is kind of our entryway.

And there will be a point where you will begin your Journey alone  
and you will be going into a different Vortex.  
For me, I'm a very visual person. This is kind of what I see when I go into that.

And then we're going to end up at a place.  
I'll show you a couple of different graphics here.  
I wanted to give you something for your rational mind to understand,  
so when you're going through it,  
you're not trying to create a picture in your own mind.

*[Image #2 from above document:]*

So, we're going into a very luminous Realm.  
And when I say luminous, it IS luminous.

In this graphic, you can see the luminosity of these colors.  
And this is similar to what I see.  
Now, it's not fixed like this;  
it doesn't have the structure of this.  
But it's the luminosity of these colors.  
It's moving very gently, very slowly. It's constantly swirling.

*[Image #3:]*

And here's kind of a little different view. But it's just all the colors – actually you can't imagine! We've never seen these colors where we're going. But just imagine it like this graphic, if it was in movement, and it was more like shattered glass in its composition.

*[Image #4:]*

Let me show one more or two before we go.  
This kind of depicts what I see when we're in there, as well as this [below].

*[Image #5:]*

So, I'm going to leave this graphic up as we go through this process.

So, take a breath.....  
In fact, take several.....

And be aware of yourself sitting in your Seat  
in the Grand Chamber of our Light Temple Vortex.  
Kind of look around.....  
Take a look at the others in our Community.....
