

**Council of Twelve – through Joan:**

Greetings!

We ARE the Council of Twelve.

**This morning, we will begin with some historical information about who you ARE and the Energetic Signature that was woven into your beautiful energetic Field of Light.**

It was a magnificent era where there was no time, no space.

You existed as pure creative Light.

It was an era where you existed in perfection, before you were human.

With our assistance and the assistance of the Luminous Ones,  
let us give you a glimpse of you.

It is beyond your imagination but can be felt in the Heart Center of your Light Body.  
So, be very present now in your Light Body,  
aware of your Light Garment  
glowing with the Radiant Fire Letters of Yod Heh Vav Heh.....

**Allow yourself to feel the magnificence of this Creative Realm..... [Short Pause]**

You were able to create at will because you were pure Spirit  
that was created in the Image and Similitude of Source.  
You were created in Source Light as an individual Light Being that created Light.  
You were given a Blueprint and Three Rays of Creation  
to guide you in anything that you created.  
You used magnificent Colors of Radiant Light throughout this Realm.

Take a breath..... stay conscious..... but **REMEMBER!** [Short Pause]

You and many other Spirits known now as creator gods  
created many different Light emanations.  
You began to create a little denser emanation of Light known as gases  
that could carry multiples of varied Colors.  
As you created more and more colored gases,  
you and other Creator Spirits decided to make these gases more solid.

So you did.....

[5:19] You were never designed to be anything but a Creator of Light.  
This was your *original* design.

But you and other creator Spirits continued your experiments  
and you created stars, planets, galaxies, and so on.  
Some of the stars and planets you decided to populate with a level of creators.  
These creators did not always follow the protocols that were set out for their creations.  
So, as you know the energetics creations began to unravel.

**After eons of these defective creations, there was a need to create a Christed Planet**  
that would model how to create as it was intended.  
Under the Prime Creator's Guidance,  
a beautiful Planet of Light was created.  
It was the Diamond in the Eye of Prime Creator.

Soon, many creators, such as yourself, desired to come to Earth  
and experience this radiant environment.  
As these creators started to create more matter,  
they got caught in the density that they created  
and had to become creators of form within form.

This type of creation continued for eons  
until such matter became more solid  
and could no longer hold the original Light of each creator.

So, they often got stuck in the solidness of the matter.  
**This is when miscreations began that led to the final fall of consciousness.**

The Christed Matrix was removed from the Earth.  
There were no guidelines for the fallen creators to follow,  
and everything was in a state of collapse,  
until Sanat Kumara intervened before the final destruction could totally destroy the Earth.

The Earth was then placed in a 3<sup>rd</sup> dimensional suspension for many thousands of years.  
And you are familiar with the rest of this story.

Many things have happened since those dark times.  
Many Beings of Light incarnated again and again into human bodies.  
This began the Resurrection process of a Christed Planet  
and the human Christ Consciousness.

[8:33]

**You are those Beings who came with purpose and dedication  
to correct the fallen consciousness.**

It has been a long difficult journey for most of you,  
so we want to help you recover some of the beautiful memories  
of who you really ARE.

**We ask you to reflect often on the presentation that we gave you  
in the beginning of this dialog,**  
so there's no doubt in your Consciousness  
of what a beautiful Being of Light that you ARE.

**You are not only a creator of form in form,  
but you are a Master Creator of Light  
in your true Essence of your Source Image and Similitude:  
The Diamond in the Eye of your Creator.**

Take a deep breath.....  
Feel your Heart open wide to receive that!  
You never considered that you were the Diamond in the Eye of your Creator!

A deep breath!..... And another breath.....

When you are tired and weary,  
reflect on the Image that we have just given to you.  
It can happen in a second,  
by just placing your attention on Your Soul Star and those memorable times.

Take a deep breath..... **REMEMBER!**.....

[Short Pause]

These memories stimulate and open you up to receive more fully the activations  
that have taken place in the first two days of this Conference.

When you are aware of a fuller spectrum of yourself,  
you create reference points based in your original State of Being.....
