

[From end of Session #17 audio] Be present..... alert..... conscious.....  
Take a deep breath.....

**We want you to be very present now to receive  
some basic information on the Master Light Packet.**

Yesterday, we briefly dropped a pinpoint of a concept,  
and we left it in your Field to be expanded upon today.  
And that pinpoint will bring you into an awareness of a massive Light Packet  
that you have yet to discover or be able to use.

This Master Light Packet is much more than a Light Packet.  
It has no dimensional limit.

As the Light Body comes into full use as the KA body,  
it transmits continually the completed Christed Energetic Matrix  
through the Master Light Packet, which contains all 7 Light Packets.

This Master Light Packet cannot be activated in this current time sequence, but  
we would like to inform you of its existence and  
will begin to *imprint* it into your Unified Field several times, in many Iterations.

Take a deep breath.....  
Let this knowledge be absorbed by your Higher Mind.....

Deep Breath.....

The awareness of the Master Light Packet  
lies within the Memory Codes of your Soul Star, because it is part of your original Spirit.

When some of the Memory Codes get transmitted through your 3<sup>rd</sup> Triad  
and processed through Universal Mind and your Higher Mind,  
a memory of the Imprint that we will gift to you today will light up.

This particular Memory Code contains the memory of your Spirit  
when it was created from the Light that it was.

The visual [computer screen] images that we gave you earlier in this session are present,  
so this provides the perfect Energetic Field  
to feel the massiveness of your Spirit and the Imprint of the Master Light Packet.

[3:43]

When you allow this Memory Code to be present in the Consciousness of your Higher Mind  
a familiar Path opens that will continually bring these memories to you  
just by placing your attention on them in your Soul Star.

Once this Path is set, there is *nothing* that you need do.

It will open when you direct your attention with Intention to your Soul Star.

This is how you begin to familiarize yourself with  
who you ARE as Spirit, using a human body.

You will be aware of the Master Light Packet Imprint that we presented to you today.

When the time is right,

we will present to you other Iterations of Imprints of the Master Packet.....

Now take a deep breath..... Be present and aware.....

Be centered in the Heart Center of your Light Body.....

Take three deep breaths with long exhales.....

**Be still now and receive the 1st Imprint of the Master Light Packet..... [Pause]**

Know that this Imprint is within the Heart of your Light Body  
and also within your Spirit.

Access is given to your Spirit and the Master Light Packet Imprint  
through the Memory Code that is within the Vortex of your Soul Star.....

Rest in this awareness..... [Pause]

Sit in this awareness for as long as necessary  
for you to receive what is needed for you.....

We will now close this morning Session.

And we will return.... to continue with more information and activations.....

Blessings!
