

Welcome, Everyone, to our 2022 pre-Light Conference Gathering.  
So here we go!

I know many of you are already feeling the Energies building around this Conference.  
And, they're quite intense already.

These Energies are being enhanced, by the way,  
by what is being called an Eclipse Passageway that we are currently immersed in.  
This Passageway began with the Solar Eclipse on October 25  
and will culminate with the Lunar Eclipse on November 8.

All of these incoming frequencies are ushering us into the opening of the 11-11 Portal.  
So, there's a lot of movement happening at this time.

So, to assist you preparing for our 3-day Conference, here are a few suggestions:  
Some you've heard before and some will be a little new and different.

So first, of course

(1) Prepare your Sacred Space ahead of time.

Gather everything you will need to be comfortable:

your blankets, your pillows, your tissues, water, etc.

Have whatever Crystals with you that you want nearby.

(2) We suggest that you consider your food needs  
and have meals prepped or prepared ahead of time.

(3) To the extent possible, do what you can to insulate yourself for these three days.

(4) And on the Evening of 11-10,  
begin setting your Light Quotient at the 5<sup>th</sup> Dimensional level.

(5) And, as we gather at the steps on the morning of 11-11,  
arrive fully in your Light Garments.

(6) And that morning as you are preparing,  
begin increasing that Light Quotient to the 6<sup>th</sup> & 7<sup>th</sup> Dimensional rate.

(7) Set your intentions for this three-day Journey.

(8) So, each year we seem to say that this Conference will be unlike any others.  
This is doubly true this year.

The frequencies we will be experiencing are powerful and expansive  
and will be accelerated with each segment and each day.  
These Energetics will be the strongest we have encountered to date.

So, due to the dynamics of these Light Codes, the Energetics,  
and the multi-Dimensional frequencies, some of the segments may not be very long.  
So, John just gave you our tentative schedule, but we will be flexible.  
Some may run a little longer. Some may be a lot shorter.

(9) But you will require time between each segment and each day,  
to begin acclimating and stabilizing the Energetics before we proceed to the next step.  
You will need quiet time to process.

The acclimations will continue during your sleep time  
to better prepare you for the upcoming day, so you can begin in a state of stability.

(10) Drink lots and lots of water to stay hydrated over the course of this Conference.

(11) And we strongly suggest that, when we begin the Friday afternoon process  
and all those that follow during the next two days,  
that you set your computer monitor to “speaker view”.

Now, when we open each day and each segment, “gallery view” is fine,  
so you can see and say hi to everyone.

And we will try to remind you to switch to “speaker view” before we begin.  
And the reason for this is this will help to assist you in not being distracted  
by the movement of others when we are in deep process.

(12) So, I asked DiAna if she would create for us an 11-11 Light Code Graphic for our  
Conference. She has done that and it is amazing and I know every one of you will love it!  
A few days before the Conference, we will post it on the facebook page for you,  
and I will also email it to you from [ascendinglightmasters@gmail.com](mailto:ascendinglightmasters@gmail.com)  
Now, when I send a group email, sometimes depending on what your setups are,  
it will send it to spam.

Once you see it on facebook, check your spam folder if you don't see that email.  
But it's amazing, and once you get it, you can download it, and  
please use it if you want to for your background on Friday morning. It is awesome!  
And I encourage you to sit with it when you receive it, because it is emitting Codes.  
And she totally nailed it!

She totally channeled the Energies of this Conference in these Graphics.  
So, thank you so much, DiAna, for your intuitive and creative Creation and contribution!

[5:12] Journey to our Light Temple.....

Take a breath..... Be comfortable.....  
Be in the present moment....  
Be aware of yourself sitting in your chair.....

We have been taking this Journey to our Light Temple Vortex for the last seven months.  
We continue to follow the protocols that were given when we were first introduced to it.  
It is our hope that by now you realize that when we travel together to our Light Temple,  
that this Journey, itself, is a meditation.  
So, with that in mind, we will begin.

Place your awareness on your Light Body,  
within your Merkaba Vehicle of Light.....  
Be aware of it spinning.....

So, travel now to the place of our Light Temple Vortex.....  
This part of the Journey is when you let go of and release the noise of 3<sup>rd</sup> dimension.....  
Release all distractions.....  
Place your focus on the destination.....

As you arrive and make your way to the Crystalline Stairway,  
begin considering your Intentions for yourself.....

The stairway was designed to assist in raising your vibration with each ascending steps.  
So, place your awareness on the first step.....  
and on this step be sure you are vibrating in the frequency of the 5<sup>th</sup> Dimension.....  
Ascend to the next step.....  
Increase your Unified Field to the 6<sup>th</sup> Dimensional frequency.....  
And ascend to the next step.....  
continue raising your vibration to be fully engaged in the 7<sup>th</sup> Dimensional frequencies....  
Ascend to the next step.....  
and set *firmly* in place your Intentions for today.....

Now ascend to the top.....  
and as you walk the Pathway to our Light Temple,  
today you may notice a lot of activity occurring,  
all in preparation for our Light Conference.

[9:13] Continue on into the Light Temple,  
crossing the Crystalline Bridge.....  
into our Gathering Chamber,  
and take your seat.....

As you settle, tune in.....  
Can you feel the electricity as the excitement is building for this Light Conference?

Once today's Session is complete, preparations will begin in this Grand Hall,  
in order to accommodate the multitude who will be in attendance on 11-11.

Invitations were sent months ago.  
Response has been tremendous,  
as these are the most sought-after invitations in the Cosmos at this time.  
There is much attention on us.

Our immediate Circle of Teachers and Guides have been queried often by those from afar  
asking, "Can they do it, can this small group of humans *really* do this?"  
Well.....  
Our entire Council of Light has responded with a resounding "Yes! Come and be amazed!"

So, with a smile on your face and in your Heart, let's proceed with today's Session.  
And please welcome Joan.
