

## AML Community Call Session 4b Council of 12 Service Project

We are a stream of consciousness from the Master realm. We are one of the many vast streams of consciousness within the Council of 12. We are part of this community and we wish to share with you and help you to realize how you have served the Earth and humanity in the last two to three years of your time.

First of all, the unlocking of the 5th 6th 7th dimensional Light templates was no easy thing. It had to be done so far in three iterations.

Prior to that, moving into a 5th dimensional stable state of being was almost impossible for many humans in the collective consciousness. It was very difficult for the Elemental communities and the Inner Earth communities because of the locking of these Light templates that took place as the Earth and humanity fell in consciousness.

Since that has been accomplished, it provided a pathway for your stream of vast energy to come forth to serve the Earth and humanity in the ways that you have served them. It was through the stableness that you were asked to hold in the 5th dimension, and the electro-magnetic field that was changed and altered through the various iterations of this 5th 6th 7th dimensional Light template.

And as you carry that within yourself, within your body, within your Light body, and you have shared it and you have transmitted it monthly for months and months, we want you to recognize what has happened. Yes, there is great turmoil on Earth at this time. Many are suffering. Many are afraid. Many are concerned.

Hearts worldwide are opening. But look what is happening outside of any media influence. Look how the majority of countries of this Earth have come together in Unity and Love and said, 'we do not want war. Stop. There are sanctions that have been put in play that are non-violent sanctions, to help persuade a dictator who desires power. This cannot be because the Earth itself will not accept it.

And because of the templates that you have laid down in these many, many months that you have participated in Grid Masters. All of that was seated. And yes, it wasn't functioning at the same rate of consciousness that you function at. And it vacillated at between one and two percent light, but it was enough that many stood up, got out of their fear, got out of their concern, got out of their daily life and said, 'no more'.

And this can continue, because what you have done today is increase that light frequency within the Earth and within all human hearts, so that these non-violent approaches to stop a dictator who is wanting power, cannot succeed.

And it is one of the prime directives that this group shares - service to Earth, to bring the Light, to bring the Element of Love, that creative element from which all humans, all Souls, all Spirits were created in the Image and likeness of the Source of All That Is.

This is important for you to recognize - what you have accomplished as a group. Yes, for some the beginnings have been rough in this time, but you were chosen and you volunteered to do this service, and you have accomplished more than you know.

So yes, we will be continuing this service project, and those who wish to transmit the 5th 6th 7th dimensional Light templates as well as the Element of Love, please do so in your quiet time often. You are powerful beyond your awareness.

So let us together, as streams of a vast consciousness of Ascending masters, sit together and transmit the 5th 6th 7th dimensional Light templates from the center of our Sacred heart, from the center of our being, transmit the Element of Love and Unity into the Earth, into the Inner Earth communities, into the Elemental communities so the Earth itself might support an enlightened consciousness of a Christed planet.

All humanity who are willing to accept these Light templates and the Element of Love are changed, and can stand with courage, and move non-violently to create a world of Peace and Unity and Love beyond what we recognize today.

So we will close in silence and transmit these energetics for the benefit of the Earth and humanity. Blessings.
