

Logistics: Next classes are July 17 and July 31, 1pm CT.

Please spend the week after this 6-26 class integrating today's concepts & Energetics.

Please spend the following 2 weeks before the July 17 class

reviewing the 3rd & 4th Triads from the SDI materials.

Joan may be posting some Triad materials on the website or on the Facebook page.

Our Virtual Conference begins 11-11-22.

About 2 weeks after that, we'll have a review of the Conference

which will be the final session of AML Level 1.

We will then go into down time, during which time we will work on a group project.

[Note: the following announcements are slightly edited for efficiency in reading.]

Joan: Before we open it up to everyone, Melainah and I want to do some basic upgrades on things that are coming up and things that you need to know about.

First of all, the next session will be in three weeks this time, because the Council feels like we need that time to integrate these massive Energetics and concepts. They are quite layered. They were layered last time. They only gave us two weeks to integrate, which some of you had some difficulty with.

They would like you to really put forth the effort to integrate what you can within the next week. And then spend the next two weeks reviewing what went on when we activated the 4th Triad and what is in the 3rd Triad, because that was not discussed.

So, if you would please review those, you will find most of that information in the Seating of the Divine recordings. I'm going to go through some things and if I think something is valuable for you to review, I'll either post it on the Facebook or I will have Jason post it on your private page, so that you have a place to start. I'm not going to put all of it up there, because that would take me too long. But I will put some key points that I think would be informative for you to review.

We'll meet on July 17 at the same time. And that will give us three weeks: a week to integrate and then one to review and continue to integrate as you review, because these Energetics are quite something!

Then, we'll meet again two weeks after the 17th on the 31st of July.

[2:40] Joan, cont'd: So, just be flexible, because it's very dependent on the Energetics that they're asking us to take in and integrate and the level of concepts that we're having to get our mind around.

This is something that your rational mind is not going to serve you here. So, we ask that you just try to get into the Energetics and into the processes, as best you can, and not try to rationalize it in any way. Just do the best you can.

Melainah:

This morning I sent another test email from ascendinglightmasters@gmail.com. This is the second one. The first one I sent, and we then we posted it on the Facebook page. There was not a response from a number of you, so we still had a lot of holes in the email list. So, I sent it a couple of hours ago, so it should be in your inbox. If you do not have an email from me, from the ascendinglightmasters@gmail account, let me know.

This email list is very important that it's up to date. And it's important that we have an email address that you check frequently, because in the upcoming months, we're going to be relying on this to communicate with you, because we have some big projects coming. And they're going to require 2-way communication.

So, please look at that. I'll post that on Facebook again tonight to bring in anybody that did not receive that email. But, if you're on this call and you did not receive that email, you need to let me know.

A little preview of things to come:

We have tentatively set our Conference dates. And our Conference will begin, as of now, on 11-11-22. We think that is a most auspicious date for many, many reasons. Unless unforeseen circumstances show up, that's what we are planning on at the moment.

Now, you may remember, when we began this session, we said that participating in the Conference is mandatory if you choose to move on to the 2023 Session. So, know that it will be required. We have set a cost at \$400 for that. And you will receive an email probably sometime about the end of July, first of August, I think, with that there. But I just wanted to give you a heads-up, so you know what to plan on.

What we're thinking our schedule will look like – we'll do that Conference on that weekend. And then a week or two, probably a couple of weeks later, we will do a summary class. And that will be the end of our 2022 Session.

[6:08] Melainah, cont'd:

So, the Council has been talking for the last couple of weeks. They have a project they want to give to all of you. And that will be conducted during our down time after the end of the 2022 Session.

It's going to take a lot of coordination for this. I'm mentioning it now, so you can be prepared. It's going to require something of you.

And they're going to divide our group up into two separate groups. Each group is going to be given a topic. Each group will come together, pull together whatever you can. And when we begin our 2023 Sessions, you will be presenting it as a Teaching. YOU will.

So, it is time to step up into your Mastery.

There will be a lot more instructions for that.

But, again, just planting the seed, because of the coordination involved.

By September by the latest, I hope to have the teams in place.

We will need a minimum of four, maybe six, coordinators.

If anybody is interested in volunteering,

send me an email at ascendinglightmasters@gmail.com.

And, then, if nobody volunteers, I'll be contacting YOU.

And you won't know what your topic's going to be. You won't know that until we complete the 2022 Session, because they don't want you distracted by that.

But, it's the first of the Teachings Sessions that they want to turn over to you guys.

So, we're excited about all the things to come. I hope you are, too.

So, with that, we're going to move into talking with you about, open our discussion about some of the things that we did last time.

And if you have any questions when we get to that point, we're happy to take those.
