

Ascending Masters of Light Level 1 Session 9 6-26-2022
C-Part 1 of the Discussion: Special Dispensation Clearing Dark Implants

Melainah:

When we did the process to remove those dark implants, it was said during the Session that we had been given a special dispensation. So, I just wanted to give you a little more information about that, because we weren't able to receive a whole lot of detail about it, because we were in process.

But the process was, the dispensation was a) to remove these things now. And then we were given the opportunity to go into the future.

And, without this dispensation, however far into the future you had to go, whether it be one year or ten years or ten lifetimes, that's how far into your future you would have had to travel in order to be beyond the point where you were being affected by those dark implants. So, with this dispensation, those are now all removed now.

So that is a tremendous gift that we all received!

And they did that because of our commitment to do this work.

And we were gifted this opportunity to transmute, transform and rewrite our narrative for all time.

Also, they did this now, because we are on a really fast track to try to get in everything they want to get in over these next few years. And they are hoping by helping us now remove those, that level-those blockages won't be interfering in our ability to move on.

And they will continue to monitor these, because, as we continue on this Journey and keep increasing our Light Quotient, there will be a point in time in the future when we will hit another level of those. And they'll let us know. And we'll be invited to gather again and to release those.

So, just to let you know that it's a very far-reaching gift that we were given with that.
