

Ascending Masters of Light Level 2 Session 1 03-19-2023
C: Council of Twelve – Through Joan

Greetings, We ARE the Council of Twelve, of which each of you are an integral member. Each of you represent a Stream of Consciousness that is invaluable in these times of change.

We come to you on this auspicious day of your year in the Energetics of your Spring Equinox. And this is an important state of Energies that you are embraced by.

And as you allow yourself this embrace, be aware of opportunities now open to you for your Ascension Path, in direct ways that you have not been aware of previously.

These next few meetings are very important to you as an Ascending Master, to all participants in this massive Crucible that are here to support and participate in this year's presentations.

We are very excited to be a part of the presentations of the human participants that have volunteered to participate as directors and sharing their Mastery of certain Energetics that are invaluable as we move forward and will be built upon, as we move forward.

This will not be the only presentations the membership will be asked to participate in, because *now* you are *fully* immersed, as an Ascending Master, in the presentations that you will be invited to participate in, as a group and some as individual Streams.

So, we also would like to draw your attention to the many Transmissions that have occurred since the first of your year -- most importantly, this last month. These Planetary alignments are very important for you to recognize and make use of, because they are filled with Energetics that will help you as we move along in this year's Teaching and Energetic Transmissions.

There are planetary Prime Directives, that you will be introduced to, that are unique to the Planet. But they are also unique in that they are Streams of the Twelve Streams of Consciousness of these Ascending Teachings.

So, we want to make you aware of that, because we are going to build upon that. And we are going to build on the Energetics to show you how YOU are an integral part, one with these massive Collective Energetics that this group has agreed to bring forth into the physical realms of a Christed Planet.

So, with that, we just want to make you aware of possibilities that are open to you as a Great Being of Light, as an Ascending Master, and most important, as an integral part of the Collective Consciousness of the Council of Twelve.

And, with that, we invite the participants of today's session to begin their Presentations.
