

Session 1 & Session 2:

We opened the 2023 series back in March.

We opened the session in the year by entering the Crystalline Temple of Light together as a Collective.

The Council of Twelve delivered an opening message to us on that day.

The first two Sessions were the group presentations.

Group 1 presented in the 1st Session

about quantum entanglement and the Quantum Field.

And group 2 presented in the 2nd Session about quantum singularity and fractals.

And we all learned so much about these topics
through the mastery of these presentations.

And we can now see how vital these topics were in setting the foundation for this year,
and how they continue to be integral to our understanding of all
that has been transmitted in each of these high-frequency Sessions that followed.

Session 3:

So, in Session 3, we had a community call to discuss those presentations.

And that was followed by a message from the Council of Twelve.

And in that message, the Council began transmitting

that we are not separate from the Council,
but each of us is entangled with the Council.

The Council spoke of the twelve Streams of Consciousness

and how they are all unified within us
in fulfilling the Prime Directive of this Collective.

And that we, the human Members,

are each a massive individual Stream of Consciousness,
that is perfectly entwined and entangled
within the Quantum Field of the Council of Twelve.

This was very significant!

[1:59] **Session 4:**

In Session 4, we were introduced to the new seating configuration within our Temple.
And with this change, the Council let us know
 that we are now working Members of the Council.
So, many things were set in place as we gathered.

The Council began by transmitting
 that we had entered the beginning levels of a 5th Dimensional Body
 and that the Energetic Template was now in place.

They spoke of the 7th Dimensional Light Prism
 affecting the Plasmic molecular composition of the physical body
 and the function of the Seed Crystals, which in turn affects the brain.

It was then transmitted about the various Streams of Consciousness,
 and the many levels of Prime Directives
 that you concurrently participate in and are part of.

And it's important that we bring the following portion of this Session's Transmission
 into the present moment:

Neither the many Streams of Consciousness of the Council,
 nor the multiple states of the Prime Directives merge into one.
But they become coherent in a unified state.

So, what began to occur in our Fields, when we received this original Transmission,
 was that these many Streams of Consciousness begin to weave together,
 but they maintain their singularity.

And this was also the case with the multiple states of the Prime Directives.....

 They are inter-woven, they become entwined,
 but you maintain your singular Prime Directive, as the Soul-Spirit you ARE.

And through that Transmission,
 we now understand the significance of why the Council requested
 the presentations on singularity and entanglement.

Another Transmission that happened in this Session
 was that our cosmic Temple of Light is also an acoustical Chamber for Sound.
So, this Chamber, if you remember, by Quantum Alchemical means
 now separates and transforms Sound frequencies from the words
 which results in you receiving the fullness of the energetic frequencies.

This was a massive energetic Session
 and we do encourage you to review it in full during your quiet time.

[4:53] Session 5:

Then we moved on to Session 5.

And this was another huge energetic Session.

We began that Session by bringing the Energetics from Session 4 into present time.

We learned that the Sound Waves

containing the frequencies and the Codes in these Transmissions
are further enhanced by the 9th Ray of Creation,
emanating from Source,
and that these Sound Waves operate outside of time in the Quantum Field.

We then received an energetically powerful Activation and Transmission
of the 3rd Eye Center,
Which created a major impact on the entire 2nd Triad.

We then spoke about the changes that have occurred since the 2022 Conference
in our Unified Field and body.

We also discussed the impact of opening the 8th Dimensional Time Lock
and our personal 8th Dimensional Luminous Field of Light.
We are forever changed with the opening of that 8th Dimensional Time Lock.

So that was followed by the 8-8 Infinity Template activation.

And next, we discussed the Electro-Magnetic, Epi-Kinetic, and Eka Bodies.

We closed this Session with the Ajna Center activation.

Again, this is another Session we encourage you to review in its fullness.

Session 6:

And Session 6 was a community call

where we did discuss the previous Sessions.

And we talked about how we were experiencing the new Temple
and how we now experience the non-physical Members of the Council.
