

Joan: Thank you, DiAna and every member of your community that has researched and come together in a presentation that was a magnificent presentation. And the way in which you drew it together in the end was perfect! -- as a perfect representative of this Journey that we are on together as a Collective Consciousness and a co-participant in the Council of Twelve.

So, in closing, I don't want to disrupt this wonderful Energy.
But we have a few announcements.

First of all, Katriana is working on the transcripts. And it would be soooooo helpful to her if those of you that presented last time and haven't yet sent your transcripts that you used in that presentation – that if you would send them. And those that presented this time, if you would send those to Katriana, it would hasten the process. And she has said that in this way not only are you part of this magnificent Collective Consciousness of the group, but you put in your own Individuality, Master Individuality, in the Energies of what you have co-created here today.

So, I ask you that you just pay a little attention, take a little time, if you haven't sent it (and of course this time you haven't sent it yet!), if you do that, it would be so helpful to get these transcripts up there in a much quicker fashion.

DiAna: Joan, can I just say a little bit. For those in my group, why don't you send it to me, and I will put it in the order of the presentations, so it will be easier for Katriana to make the transcripts.

Joan: Oh, thank you so much, DiAna. That's just a magnificent thing that you're doing here. Thanks!

Katriana: And this is Katriana. Thank you, Joan, for mentioning this, and DiAna for that very generous offer. Joan, you presented beautifully my reasons for this. I'd like to say just a little more to both groups here. In listening to each presentation, I was blown away by the power of the Individual Streams of Consciousness that everyone was presenting and emanating – just like our Teachers said we would be speaking from our own Individual Streams of Consciousness.

And so I found, in starting to work with this, that if I just took what you had actually produced and copied it and compiled it, that maintains the Beauty of what you guys have done, rather than have me put my formatting, my energetics into it. So, that's why I'm requesting that we do it this way. And I very much would appreciate it if you could send it to me. So, thank you! I appreciate that!

Joan: Thanks, Katriana.

Melainah: First off, what another fantastic presentation! You did an outstanding, excellent job. Both of these groups together have been just beyond any expectation that I had. Kudos again to every single one of you! Beautiful, beautiful job! Your Mastery of everyone in Group 1 and 2 has just come through in flying colors! So, thank you for that.

The only other thing we want to say – if any other questions have come up for anyone through either last week's presentation or today's, do write them down.

Next week we will gather again for Session 3, which will be April 2.

And we will have a discussion and Q&A about these two segments. So, write your questions down and we will see if we can have them addressed then.

Joan: OK.

Well, with that, I think we will close this Session.

Thank you ALL for being part of it.

Blessings!

Melainah: Blessings, Everyone!

Group Members: Blessings, Thank you everyone.....
