

Joan: Take a deep breath.....

Council of Twelve – through Joan:

Before we close, we, as the complete Council of Twelve, would like to bring forth
a Transmission that conveys a few more energetic concepts.

When the entire Council of Twelve meets in the Quantum Cosmic Crucible
and within the Light Temple, a continual upgrade within the Consciousness
of the entire Council is created through the entire Membership...

When creative thought occurs in this Sacred Temple,
something happens alchemically that changes the thoughts that are communicated
into frequencies of Light.

The frequencies are how the non-physical part of the Council communicates
with all of you.

This communication presents itself on the frequencies of Sound Waves.
It is within these frequencies where the Knowing and the Wisdom is held.
That's where the Understanding becomes available.

When the communication is occurring, it is occurring through the entire Temple.
The Temple then becomes an acoustic Chamber.
The Sound Codes, the Light Codes are held in the words.
It separates the noise of the words into frequencies and Sound Codes.
This is what happens in the Light Temple
and also when you are in communication with the Council
during times of meditation and contemplation.

We want you to understand how we are communicating to you
and how to receive it on these frequency waves.

It is so important that you pay attention to your specific Light Signature of who you ARE.
This is how you are recognized in the non-physical Realms by your Energy Signature.
Now you are given the opportunity to really experience that.
The more refined your Signature becomes,
the more that you are able to communicate to other Realms,
because you are not limited by the body or dimensions.

This is why we have often encouraged you to increase your Light frequencies
and hold them in specific ranges.
When you do this, your entire Energetic Field is affected.

Now that your Light Body has become a viable and important body that you can use,
it begins to imprint your physical body with States of Consciousness
beyond the 5th Dimension.

It becomes a valuable asset
as well as a useful way to bring levels of Consciousness into your creative reality.

Each one of these understandings and recognitions expands your personal frequency,
which is your Energy Signature.

That allows you to really know yourself
as part of the Collective Consciousness of non-physical Beings of Light.

You are only using the physical body temporarily.

Before you came into that embodiment,
you operated in the manner that we have just described to you.

And when you leave, you will then return to the way in which you communicate,
the way in which you are recognized by your personal Light Signature.

So, these are very important concepts that we want you to know
at a very conscious level.

Not only that – we want you to recognize that you are receiving many frequencies
of Light, Sound, and Color in every transmission, every communication,
that we share with you.

So, take a deep breath, and let us close this Session now, as we sit together,
in our magnificent Crystalline Light Temple that continually emits
refined, brilliant Creative Light, Luminous Colors, acoustic Sounds.

We are a unit of creative frequencies emanating Light.....

We are Streams of Collective Consciousness,
created in the Image and Similitude of our Source.

We follow our Prime Directives to the fullest expression of our purpose.....

We are Light, Light, Light.

Let us sit together in this full awareness.....
