

Melainah: Universe's Response to our Morning Prayer and History of the Divine Feminine

[0:34] **Melainah on the Universe's response to our Prayer in Segment #15 Sunday AM:**

Of course, Joan started that last session saying she was guided to share Kuthumi's Prayer and then also share her personal prayer.

And then she invited us to join her.

So, it became our Collective Prayer.

So, I love it when we are in the flow of things and Divine timing is just so... something shows up that kind of validates and supports what we just did.

So, through lunch I picked up my phone to look at my newsfeed and this was sitting at the top of my newsfeed.

I wanted to share it with you because it was just perfect, and it was almost as if this was the Universe's response to our Prayer.

So, it says:

*Your Prayer carries a powerful frequency
similar to the way waves of music play out,
moving through time and space.*

*The words that boldly rolled off your tongue
creating an echo chamber of explosive Light,
radiating out from your Field,
attracting towards you life experiences
that match the vibration of the words you speak
from a place of Hope, Love, and Gratitude,
that can be heard and received by the entire Universe.*

*Utilize the Energy influxes of Source frequency,
all pulsating through your human vessel,
assisting in your healing,
and becoming a potent Force associated with this special 11-11 Portal
that your Soul has chosen to move through.*

So, I thought that was perfect.

But wasn't that like a perfect response from the Universe!

So, I Love Divine Timing.

[See Melainah's 11-13-22 Facebook post with this Prayer.]

Melainah: Universe's Response to our Morning Prayer and History of the Divine Feminine

[2:42] **Melainah Comments on this final segment of the Conference and what is to come:**

Alright. So, let's get started.

Everybody take a breath.....

Be centered.....

Be aware of yourself in our beautiful, beautiful Light Temple Vortex.....

As Joan mentioned,

 this will be the final segment of this 2022 Path to Mastery Light Conference.

And what an incredible three days it has been!

You are absolutely not the same Being who began this Journey on Friday morning.

We will have a post Conference Summary Session

 and it is scheduled for December 4.

And you will receive an email confirmation beforehand.

Now, in these upcoming weeks, between now and then,

 even though it is a busy time of the year,

Please carve out some time for yourself to reflect.

And most definitely sit in the Radiance of your 8th Dimensional Luminous Field of Light.

You have received massive downloads of Energetics and Activations

 in each segment of this Conference.

And you will be integrating all of these well into next year.

So take a breath.....

So, be aware of being surrounded by all those in our Community

 that we share this Journey with.

And we are grateful for each and every one of you.

And be aware of the many, many Master Beings

 who have been with us throughout these three days.

[4:39] Melainah on the Earth History of the Divine Feminine:

So, Joan began the earlier segment [#16] by giving you some historical information about the beginning of who you ARE as Spirit.

So, we're going begin this segment by briefly looking back 35,000 years to see if we can shed some Light on how humankind has ended up where we are today.

Archaeologists have found evidence that ancient people in many cultures worshiped a female deity. The living goddess was honored and revered as the source of all things.

The very word "goddess" is triggering for many when used in the context of being the Creator of all things. Why is that?

So, throughout human history, the goddess has had many names and manifestations, but ultimately was considered one supreme reality.

The earliest evidence found shows the belief of the goddess existed for over 30,000 years, beginning in the ice age.

The ancient goddess cultures were Earth-centered, not Heaven-centered. The goddess was alive and existed within every human being and within all of nature. She was the life force embracing the whole.

All life was and is Sacred. All is part of the larger web of life.

The demise of the goddess and the fracture of her identity can be traced back to the patriarchal Indo-Europeans' invasion and overthrow of the cultures of the goddess, and the imposition of the worship of their sky gods, who ruled ruthlessly from the heavens.

The goddess, women, and their values began to be suppressed by a culture of domination ruled by men. And the status of women became inferior to that of men.

[6:53] Now, let's fast forward in time to approximately 4000 years ago,
when the concept of monotheism was first brought forth by the ancient Hebrews,
who waged continuous battles against the worship of the goddess.

Monotheistic faith delivered a huge blow to the goddess cultures,
by replacing the goddess with one male, all powerful, and absolute god,
who ruled both the heaven and earth.

In western culture, the exclusive authority of one universal male god
goes back less than 1700 years,
to the Roman Emperor Constantine,
who imposed Christianity as the state religion.

The power of the feminine was seen as a threat to the emerging social order.

Even with the suppression and the violence that followed,
the last of the known goddess temples was not closed until the 5th Century in Gaul.
Some survived and went underground
to preserve and continue the Sacred Teachings in secret.

After confiscating what the new order found useful,
the history of the goddess was rewritten
and systematically downgraded to that of mythology.

With the demise of the goddess and the suppression of the feminine,
much has been lost to humankind.

The extreme violence throughout history
and the attempt to eradicate women and all they held sacred
was deeply imprinted into the memory codes and psyche of women
and those who attempted to protect them.

Take a breath.....

So, here we are today.

We have returned, seeking understanding.

We are ready to recover what we can of what has been lost
and replace it with something that can return all of us to a place of healing,
creating balance between all humans and the natural world.
