

Joan: Take a deep breath..... Present in this moment.....

We will now close with a further activation of the Ajna Center,
an Energetic Transmission emanating from the entire Council.

Another deep breath.....

Visualize your Ajna Center and where it is sitting in front of your eyes and forehead.
Notice where the three aspects of your 3rd Eye are placed within your Ajna Center.....

Watch, as the three Seed Crystals have begun to light up.....
Their Light continues to brighten like you have never seen them before.....
They have become so bright that you can now see that they are actually Orbs of Light.

Notice how the whole Ajna Center is radiating a brilliant Light
that fills the interior of the multidimensional Triangular Configuration.
You can see the Dimensional Frequency has changed,
and it is vibrating a Frequency of Light of the 5th, 6th, and 7th Dimensions.

Witness as the Hemispheres of the Brain unite.....
The massive Frequencies of Light explode into the Pineal Chakra.
The Pineal Center activates into the new Frequencies of Light.....

Take a breath..... *Much* is happening.....

Be aware of the radiating Light of the Seed Crystals
as they transmit the Light Frequencies into the Lobes of the Brain.
Another Breath.....

As the Pineal Chakra Light flows into the Medulla Oblongata,
notice how open and vibrating the Medulla already is.
It unites with the Light flowing from the Pineal.
The Light then flows back into the Pineal Center.....

As the Light now enters the Pineal... you begin to have a distinct Knowing of yourself
as a Creator of Light that is created in the Image and Similitude of Prime Creator.
Notice how that *feels* at this very moment.....

These are no longer just words or concepts.
You now know with certainty that your Brain is gradually being rewired.....

Sit with the Entire Council in our magnificent Chamber of Light,
in the Crystalline Temple of Light.
Feel the comfort of the Love and Unity in our Crystalline Temple. [Pause]

Blessings! We will now close our Session.....
