

So, everyone be comfortable..... Take a deep breath.....  
And let's take the next step on our Ascension Journey.....

As the Soul-Spirit that you ARE with your unique and individualized awareness, place yourself in the single seat in the center floor area of our magnificent Temple of Light.

This is your personal Journey. You are the only one present.

Consciously set your Intention to receive the expanded and upgraded frequencies we will bring in today, with ease and grace.

See your Toroidal Field of Light, radiating with your unique and specialized Color Codes surrounding you and filling this space.

Take a breath.....

Our beautiful Temple of Light begins spinning around you, creating a spiraling Vortex.

Feel the frequencies increasing with each revolution, as it spins and spins.....

As the momentum increases, the Temple disappears and is transformed into particles of brilliant, radiant Light.....

Place your awareness on the 8<sup>th</sup>-dimensional aspect of your Sacred Crystalline Diamond Heart Center, sitting in front of and around you.....

At the same time, place your attention on your Sacred Heart Center, including your Heart Chakra that is held within your physicality.

From your personal 8<sup>th</sup> Dimensional Luminous Field of Light, call forth your Primary Color and Sound Codes into your 8<sup>th</sup> Dimensional Sacred Crystalline Heart.....

With this next step, you will be *permanently* expanding and reconfiguring the entirety of your beautiful Crystalline Sacred Heart Center.

Take another breath.....

Allow those 8<sup>th</sup> Dimensional Light and Sound Codes to begin to spiral outward, entering and then filling the entire Sacred Heart Center within your physicality, as it swirls and spirals.....

[4:24] As the Light and Sound Codes spiral into and through your physical Heart Center, allow the spiral to flow back to the 8<sup>th</sup> Dimensional aspect of your Sacred Heart, creating an infinity loop as it spirals back and forth, becoming permanently entangled for the duration of this incarnation.....

As this spiraling flow continues, the frequency of your radiant Primary Color Codes and your personal Sound Codes are increasing to new and never before experienced levels.

Your Primary Color Code, as it is drawn into your 8<sup>th</sup> Dimensional Sacred Heart is now being infused with the Luminosity of your 8<sup>th</sup> Dimensional Field of Light.....

This infusion raises the frequency and the vibrational rate of your Primary Color Code.....

Your 8<sup>th</sup> Dimensional Luminous Field of Light holds at the Soul-Spirit level your personal and unique-to-you, amplified Light Codes, Light Language, frequencies and hyper-geometries – Again, these are specific to you.....

But that 8<sup>th</sup> Dimensional Field of Light is also so much more.....

This beautiful Luminous Field of rarified Light is a highly refined state of Consciousness that you left in that 8<sup>th</sup> Dimensional Time Lock for safekeeping.....

It is accessible now only through the state of Consciousness that is held in the higher iterations of *your* Soul-Spirit.

Take a breath..... These are very powerful Energetics.....

This process and this series of transmissions are designed to raise your state of Consciousness and the frequencies of your physicality to not only hold more of your Soul-Spirit, but to open communication channels that were lost long, long ago.....

As your Luminous Primary Color Codes fill your Sacred Heart Center, this allows your Primary Sound Code to be elevated now to a new and higher octave.....

This new octave will assist in harmonizing the ever-increasing Light and Codes you are now capable of receiving and utilizing.....

We will sit quietly for just a moment in these new waves of frequencies, as the spirals interweave both aspects of your Sacred Heart Centers, so they can begin to function in a coherent unified state.....

[10:47] We will now bring the newly enhanced Color and Sound Codes through all of our systems, physical and non-physical.

We are forever altering our physicality and our entire Unified Field.....

Take another breath, as you are receiving these extremely high frequency Light Codes.....these changes are massive.....

Allow the Luminous Color-filled Codes and the new higher refined octave held in this Stream of Light to fill your entire Sacred Heart Center, including the Heart Chakra.....

See your Heart Chakra spin and spin as it is filled with these Luminous frequencies of Light and Sound that represent your unique Energy Signature as the Soul-Spirit that you ARE.....

Now allow your physical Heart to receive these magnificent Codes of Color and Sound....

In this moment, know yourself in your full Sovereignty, operating within the frequency of your original Divine Blueprints.....

Your entire Unified Field is recalibrating to the frequencies of the enhanced Luminous color Codes and the new octave of your Sound Code, as you bring them through each Energy Center and Triad.....

Visualize your Light-filled Stream of Color as Liquid Crystalline Plasma that has increased in its radiance over these past few weeks.....

From your Sacred Heart Center and Heart Chakra, allow your enhanced Primary Color and Sound Codes to spiral down into your 3<sup>rd</sup> Chakra, filling it completely as these Codes are permanently seated.....

See this Energy Center extending in front of you and behind you, connecting you to your Etheric Light Bodies.....

Watch this Chakra spin like a gyroscope within the core of you. The spin increases in velocity as it is infused with your enhanced beautiful Luminous Color of Light and Sound frequencies.....

With your Intention, the power of transformation becomes the base Energetic of this revitalized Energy Center.

[16:08] Take a breath.....

Next, allow your Primary Color Code to flow into your 2<sup>nd</sup> Chakra, filling it completely as it becomes permanently anchored.....

As this Energy Center fills with your enhanced radiant Color and Sound Codes, watch it spin like that gyroscope, spinning faster and faster.....

This Energy Center extends in front of and behind you, connecting you to your Etheric Bodies.....

Set your Intention for this Energy Center to hold the power of discernment and choice, bringing a new creative aspect to all of your creations.....

And breathe.....

Continuing, allow the Light of your Luminous Color Codes to flow into your Root Chakra.

As this Chakra continues to fill, it spins and spins like a gyroscope, increasing in momentum as your Color and Sound Codes are permanently anchored.....

This Energy Center also extends in front of and behind you, connecting you to your Etheric Light Bodies.

Your Light Bodies are also infused through these Chakras with the upgraded Light and Sound frequencies. They, too, are permanently enhanced and are changed with your attention, each time you do this process.....

Let us set the power of this Energy Center to courage and support, in all things that you do.....

Let's also create the Intention for this Energy Center to stably ground for your body the Energetics that you are currently receiving and for all future iterations.....

And allow your Luminous Primary Color Code to continue the flow into your legs, into your feet, and into your toes.....

As your Luminous Color of Liquid Crystalline Plasma continues to spiral into your Earth Star, which is also known as “the daughter of the earth”, your Primary Color and Sound Codes are anchored here permanently.....

[20:23] These Codes assist in raising the vibration of your Earth Star Chakra and increases your connection to Mother Earth.....

Your Earth Star also serves as a powerful grounding point for your entire Chakra system and will help you to ground into and help the present moment.....

From the perspective of your Earth Star, see your 1<sup>st</sup> Triad increasing in velocity as it spins and spins in coherence with your Heart Chakra.....

As the spin continues, your enhanced Luminous Primary Color and Sound Codes are raising the frequencies of each of these three Chakras. The increase in velocity creates compression in the entire Triad.....

Take another breath.....

From the Earth Star, the coded frequency of Light from your Primary Color spirals and blends into your Toroidal Field, where it is picked up and carried upward to the apex of your 4<sup>th</sup> Triad. This is the 11<sup>th</sup> Chakra, which holds the complete Undifferentiated Love and Light of Source.....

With the changes you are implementing, you will be able to access and draw a higher Iteration of the Undifferentiated Love and Light from the All That Is.....

The flow continues to spiral into your Central Column and into the 10<sup>th</sup> Chakra.....

With the frequency enhancements, the Magnetics held in this Energy Center will begin to impact your Magnetic Field, creating changes in the body and also in your creative process.....

The 10<sup>th</sup> Chakra also provides access to a higher and more refined level of the Mind of Source.....

Continue the spiral now to the 9<sup>th</sup> Chakra. This Energy Center is about the Consciousness of the Sacred Heart. It is now expanding to a new level with the frequency enhancements of our Color and Sound Codes, the entanglement of the 8<sup>th</sup> Dimensional Sacred Heart, and the influence of your 8<sup>th</sup> Dimensional Field of Light.....

The velocity of the spin of the 4<sup>th</sup> Triad now increases to new levels.....

The 4<sup>th</sup> Triad is about Unity Consciousness. Our understanding of Unity Consciousness will change dramatically with the increase in frequencies we now hold.....

[25:35] We will have access to higher and higher aspects of our Soul-Spirit, as well as the higher Realms, all of which will impact our perspective about everything we encounter and experience.....

As the 4<sup>th</sup> Triad spins and spins, let's continue the flow of the spiral into the 3rd Triad, which is being infused with your upgraded Primary Color-Sound Codes as it enters the 8<sup>th</sup> Chakra.....

The 8<sup>th</sup> Chakra is another aspect of the Universal Mind. It is here that *your* Divine Image is held within your Soul-Spirit, with the Wisdom and Knowledge that you have gained from all of your experiences in the Creative Realm.....

From the 8<sup>th</sup> Energy Center, your brilliant Color of Light flows into your magnificent and radiating Sacred Soul Star.....

Your Soul Star is a spinning Vortex of pure Light that holds your state of Consciousness. This is where your Soul-Spirit can interface and communicate with the true Essence of who you ARE with the physical Being you are.....

Held here is your Blueprint for this incarnation and that includes your Prime Directive, which was seated here for you to access, as you consciously began your Ascension Journey.....

Your Soul Star is your Gateway to transcend to the highest Realms.....

The Sanskrit name of the Soul Star is Sutara, which translates to “Holy Star”, the doorway of Enlightenment and Ascension.....

And take a deep breath.....

Now move your attention point to the base of your skull, where the Alta Major Center, the Medulla Oblongata, is located.....

Place that beautiful Golden Chalice at the base of your skull. Allow it to fill with the enhanced Crystalline Plasmic Light of your Color and Sound Codes, as it is drawn from your magnificent Soul Star.

[29:27] Once the Chalice is full, the high frequency Codes contained in your Stream of Color and Sound are drawn up into your Medulla, and with the brilliant flash of Light angles up through your head to your Pineal gland, increasing its vibration as it is bathed in these new frequencies.....

As that flow continues, place your attention again on the 3<sup>rd</sup> Triad.....

Allow the Color and Sound frequencies to continue to spiral downward.....

Observe the Magenta Thousand-Petal Crystalline Lotus, as the Crystalline Plasmic Color and Sound Codes penetrate and pass through the Lotus at your Crown Chakra, the 7<sup>th</sup> Energy Center.

Observe the increase in the velocity of the Spin of the entire 3<sup>rd</sup> Triad.....

With the enhanced Codes of the Plasmic-infused Color, notice the brilliance of the Flame that is held within the Lotus, as the flow continues into the 2<sup>nd</sup> Triad.....

See your Pineal Gland vibrate and spin with the expanded Sound and Color Codes as the entire 2<sup>nd</sup> Triad is filled.....

Observe the 6<sup>th</sup> Chakra as it opens your Spiritual Vision more fully and is becoming multi-faceted.

This is also occurring with the Seed Crystals and the 8-8 Infinity Template.....

Many layers will begin to open for you, and much that has been hidden or forgotten will be revealed, as you continue to expand your state of Consciousness.....

Watch the 2<sup>nd</sup> Triad as it spins and spins and is continually infused with the Liquid Crystalline Color that is you.....

Allow the Stream of Color to flow into your entire skull, throughout all parts of your brain, through all of the neural pathways, into and around your eyes, into your cheekbones, your ears, around your mouth, and your chin.....

As the flow continues to move into your neck, pay close attention to your Throat Chakra as it fills with the enhanced Plasmic Color Codes.....

Allow the new octave to permanently sit within the 5<sup>th</sup> Energy Center, raising your Spiritual Voice and expression to the highest levels possible..... [Short Pause]  
Allow that chakra to spin and spin..... [Short Pause]

[35:55] Your specific and unique Sound Codes will now activate the new octave throughout your entire Unified Field and in your physical body.....

Notice if you can feel the vibration as your unique harmonic reverberates throughout every aspect of your Being.....

Understand that you are permanently anchoring your very unique and specific Sound Codes into all that you ARE.....

And breathe.....

Continuing, bring the Color Stream down into your upper body, allowing it to flow across your shoulders, into your upper arms, your elbows, your lower arms, into your hands, into each finger, and out of the Chakras in the palms of your hands.....

Return your attention to your chest area as the new frequencies of Color and Sound continue to flow down your Central Column and expand into every aspect of your upper body, filling all of your organs, your bloodstream, and your central nervous system.....

Completing the flow, the Stream of Color flows back into your now expanded Sacred Heart Center, down your back, down your spine, filling your abdomen as it moves again from your Heart Chakra through the 1<sup>st</sup> Triad, infusing the first three Chakras with even more Light.....

Continue the flow returning to the Earth Star, where the cycle begins again as the beautiful, magnificent Color flows into your Toroidal Field and back to the 4<sup>th</sup> Triad.....

Observe your entire Unified Field and Light Bodies enveloped with the brilliance of the Crystalline Light frequency of your unique signature Color and Sound Codes.....

As you continue using this process, it will assist you in further establishing and understanding your Sovereignty as a body, as a Soul and as a Spirit.....

You are also creating and setting in place a new Template, not only for yourself to operate within for the duration of your time in this body on the Earth Plane, but for all humanity to follow in the future.....

This is a major aspect of the Prime Directive for our Ascending Masters of Light Collective.

[41:01 And another breath.....

With this upgraded process, you have again implemented massive changes in your entire Unified Field, which will result in massive changes in your physical, mental and emotional bodies.....

So, take care of yourself over these next three weeks, as you integrate and acclimate these heightened levels of Light and frequencies, returning to this process frequently.

Let us close this Session, with being in appreciation for all you are becoming and have accomplished on this amazing Journey Home.

Blessings!
