

Joan:

Melainah and I would like to start having a discussion with you
about the uniqueness of you.

And I don't think we've really, I mean we've mentioned it,
but we haven't really talked about it.

So, we thought this would be a really important time
to bring that into your full attention.

We've spent a lot of time building our Consciousness around the fact that
we are Collective Beings of Light and that we have a Collective Consciousness.

Now, we must address

how important we are as unique individuals, aspects of Creator.

We are Creator Beings created in the Image of our Source.

It's personal to you, and no one else has that energetic arrangement of Soul-Spirit
as each of you personally do.

For it's very distinctive to you.

And so, when you come to the Council, you bring that with you.

You bring it into the Quantum Field of Creation.

And it's important that you make that distinction of you as unique,
as you sit in this physical body.

It has a bearing on how you achieve your Prime Directive,
use your primary Color, Sound Codes, and Symbols.

Your individual State of Consciousness is so important

because when you become intertwined

with a Stream of Consciousness within the Council of Twelve,

you bring that uniqueness into that Stream that no other part of that Stream provides.

Melainah, your comments.....

[2:06] Melainah:

Your unique Light Essence as a Soul-Spirit
is expressed in the Singularity of your specific Stream of Consciousness.

You now understand that
your Stream of Consciousness is also entangled with many other Streams,
such as our Ascending Masters' Collective.

So, you are simultaneously expressing yourself as a singularity
while also being entangled at all levels of who you ARE.

So that means there's a lot going on in your Field at all times.

So, with the reclaiming of your Sovereignty within your physical body and Unified Field,
you can consciously discern and choose
who and/or what you wish to be entangled with,
as that applies to how you interact with the world around you.

So, some entanglements of course occur organically,
because you are Soul-Spirit in a human form.
You contribute to and are entangled with the Earth, the Universe,
multiple Star Systems, and the Quantum Field.

So, at that Soul-Spirit level, your Light frequencies actually ripple
into each level of Creation.

So, we are now being asked to embrace the multiplicity of who we ARE.
