

Valuable Reference Points of the 7 Light Packets and the Activated 10 DNA Strands. AML L2 S12

The continual upgrades in the Light Packets enhance and change the function of the DNA Strands and bring them into a refined sequence.

The unequalled opening from the Cosmic Creative Realms provides concurrent energetic upgrades that transform all of the DNA Strands into transcendent Strands that continually influence all of the Light Packets, all of the Light Prisms, and your Light Body.

The recurring activations and upgrades of the DNA Strands make it possible for the cellular and molecular composition of the physical body to be altered. A stable 5th-dimensional physical vehicle is necessary to continue the evolutionary Ascension Path. This is one of the roles of your DNA.

Each of the 12 DNA Strands represents one of the twelve aspects of multi-Dimensional Consciousness.

You currently have 10 DNA strands activated and upgraded. We will now weave the 7 Light Packets and the 10 DNA strands into the activated Master Light Packet.

The 1st Light Packet was placed in the Heart chakra. It augments your self-love. Unified with the Undifferentiated Light it holds the Element of Love and provides stability.

The 4th strand of DNA stimulates your self-love, eliminating the 3D patterns of unworthiness, judgment, and guilt, which keep you in 3rd dimension. It stimulates our Christed Soul/Spirit memory codes and the Wisdom of our Soul.

The 2nd Light Packet is where your unity consciousness begins and forms a base for your broader perspective of Unity Consciousness. The 5th Strand of DNA changes your magnetic field so that like attracts like. It allows the body to realize that, at a soul level, we are a Christos vehicle.

The 3rd Light Packet continually transmits the Consciousness of the 5th, 6th, and 7th Dimensional Light Templates into the 3rd, 4th, and 5th chakras, assisting you to create through the right use of Will and Power, using the Element of Love. This directly affects your conscious creative Intention as you use your mental-emotional body to manifest your creations.

The 3rd strand of DNA contains your soul as the individual expression of the Divine. In its upgraded version, it allows access to the Wisdom of the Will of Source when your Spirit was created. It helps your ego transform its limitations so it can clearly see and choose to follow your Soul-Spirit. It allows stability and equilibrium in your energetic field.

The upgraded 6th strand of DNA alters the magnetic field of the body, clears the heart chakra, and dissolves any filters in it. The upgraded 6th DNA strand also gives you access to your 3rd Eye and draws to yourself your likeness as a Christos Being.

This 4th Light Packet begins to allow you to see yourselves as the wise being that benefits from the wisdom acquired from eons of experiences in various Realms of Creation. It allows you to experience the wisdom that comes from your Spirit that never leaves Prime Creator's Creative Energy that is part of the Collective Consciousness of Source.

The 7th upgraded strand of DNA dissolves a 6th-dimensional light filter on the Heart of the Sacred Heart that has been there since the Time Locks were put in place. This filter obstructed you from living life fully in the state of Love and Unity and from creating with the Element of Love. This results in the ability of the 3rd Eye to receive and process information and energy accurately. Creative action is taken through the Element of Love.

This 5th Light Packet emanates from the Quantum field. It affects the DNA strands, the chakra system, human consciousness, and your Soul/Spirit. The 5th Light packet resides in your Soul Star where it continually informs the body's chakra system, as well as the upper chakras that relate to your Light Body.

The activated 8th Strand of DNA relates to your Spirit, not so much to your physicality. But now we are going into the Spirit of you, that unlimited expression

of the Divine of the All That Is. Your Spirit is a vital communication with your Soul. The Soul Star begins to awaken your memory codes more extensively and begins to inform your chakras, upper and lower chakras, from the perfection and wisdom of your Spirit

The 9th strand of DNA starts the communication that unifies the Soul/Spirit so it can transmit your soul's purpose in this life. Through the unified expression of Soul/Spirit, your Spirit can guide your soul from its wisdom and perfection. The 9th strand of DNA is a very important Strand because it has not been a viable strand since the fall of Consciousness.

The 6th Light Packet is essential to create and manifest your 5th-dimensional physical body that can hold a fuller expression of your Light Body.

The 9th strand of DNA was not been available to you since you have been incarnating in a 3rd or 4th-dimensional physical body. The 9th strand of DNA significantly changes the state of Consciousness in an energetic frequency range that each individual carries in their 5th-dimensional body.

The 7th Light Packet emanates from the Quantum Field and has the capacity to bring all of the previous 6 Light Packets into the Quantum Field.

The 10th strand of DNA has a golden hue and carries the Wisdom of Christos Consciousness as well as the Wisdom of your Soul-Spirit. It continually influences you to remember that you are a Christos Being of Light, who creates Light as well as creates form.

The continual activations and upgrades of the DNA Strands make it possible for the cellular and molecular composition of the physical body to be altered. A stable 5th-dimensional physical vehicle is necessary to continue the evolutionary Ascension Path. This is one of the roles of your DNA.

Each of the 12 DNA Strands represents one of the twelve aspects of multi-Dimensional Consciousness.
