

Ascending Masters Level 3
Spring Council Meeting, March 23, 2025
Review

Before the Council comes forth to speak to you, I would like to give you a review of some of the activations that took place in the last few sessions of Segment 3 of Ascending Masters of Light.

You were introduced to the crystalline Light chambers that helped you transform any residual anomalies that might have arisen to be cleared from your field. Any anomalies are cleared instantly when you are in these chambers. These refined crystalline chambers also assist you to upgrade and refine your Light frequencies.

You might remember that before these enormous activations took place, the Council told us that there were some negative rogue interferences that intended to short circuit these activations. So, the Council re-arranged the itinerary and placed the most significant activations forward. This caused the sequence of teachings to somewhat be disrupted. This minor disruption is being corrected at this time because the major energetics that are presented and activated today will be put into their proper sequence. As we move forward, they will forever be aligned in their proper sequence of Ascending Masters, Level 3 sessions.

This must be done now before the 2025 Sirian Stargate gathering in August. The energetic Light infusions of the 8-8 activations will build upon the sequence of Light energetics that were activated in our last 8-8-8 gathering of 2024. All of the activations that took place during the remaining 2024 sessions of Ascending Masters, including today's activation, contributes to the accelerated 2025 8-8 infusions.

Now, take a deep breath, relax, and set your Light frequency in the most refined state of your being. Pause

Let us invite the Ascension Council of Light to speak to us.

Ascending Masters of Light Level 3

March 23, 2025 Spring Equinox

Closing Council Transmission

Greetings, it is I Metatron who comes to the forefront of this meeting. We council members who have facilitated the presentations of the concepts and energetic infusions to our beloved physical Ascending Masters members, now want to present an addendum to the last session of Level 3.

In the last few sessions, we helped you activate an acceleration of the Pathway to Illumination, the 5th Triad and the massive golden Light infusions that are beyond human thought or feeling. A massive Light Pinnacle was also activated.

We want to present now, the concepts of this important addendum.

The Light Prism which you now recognize, was upgraded and contains the energetics of no time, no space, or dimension. It came directly from Source. The Light Prism is an integral part of a bridging energetic. This Light Prism activates a Quantum Crystalline Bridge because it is composed of sound, color, and Source creative Light. The Light Prism infuses the bridge and changes the electromagnetic field of the entire Triadic system as well as every chakra in that system.

This is not a physical bridge. It's an energetic bridge. It enables the Fifth Triad and the accelerated Path of Illumination to function at a much greater level. When the Pinnacle was activated, it was placed above the activated 5th Triad which opened an accelerated Path of Illumination. This Pathway of Illumination provides a continual infusion of a massive golden Light that helps to bring about a complete Transfiguration integration.

The Quantum Crystalline Bridge provides very specific Source Light infusions that brings stability, coherence, and a protective mechanism that

nothing that is unlike this massive Pinnacle can penetrate it. The negative rogue interference was completely stopped when the Pinnacle was activated.

We will now activate the out of sequence energetics of the Light Prism. Take a deep breath and get centered within the Ascension Council of Light members who have physical bodies. Now, place your attention on your unified field of Light that contains a spinning vortex of creative Source Light. All 5 Triad are spinning at an accelerated level of Light frequencies. Every chakra is open and rotating in this massive vortex of spinning Light. Notice how your Light Body has almost transitioned into a complete Crystalline Light Body.

Take a breath, Calm, present and aware.

Notice how the Pinnacle shines above the Spinning vortex of the accelerated Pathway of Illumination of the Triadic System.

With your intention that is merged with the intention of the entire Ascension Council membership, activate all of the addendum energetics of the Sound, Color, and Light Prism.

Take a breath.....

Because the Light Prism accelerated a specific presence within the Pinnacle vortex, the electromagnetic field immediately changes and is unified in a refined sequence.

This is important for you to recognize because a refined unified electromagnetic field is necessary for the ascension energetics to catapult the changes within the brain so it can process all of the energetic complexities of Spiritual thought and the energetics of this massive ascension process of the Earth and all those physically embodied.

The placement of this addendum energy is essential to the escalation of an accelerated integration of a transfigured physical body. You will have five months of extreme integration time that will put you in a refined, and illumined state of being before our next Council meeting where you will receive the new infusions from the Sirian High Council.

We now close this Council Meeting,
Blessings
