

## **Ascending Masters of Light Level 3**

### **Session 12**

**October 13, 2024**

### **Session 12b Final Presentations**

#### **Inner Earth**

**Melainah:** All right. Welcome everyone. So, surrounded by all of these magnificent beings of Light who are here to support us in these final sessions, be aware of yourself seated together on the floor level of our Temple of Light.

Let's greet and acknowledge one another as the Ascended beings that we are. The frequencies are highly elevated in this hallowed chamber. So, allow yourself to move into harmony and coherence with them.

So, today's transmissions will be offered in segments. Some of the segments will be brief, but do not be mistaken by the brevity of them, that they're any less powerful than the longer ones.

There's a lot of energetics that we will put in play today, and the frequencies will build as we move from one segment to the next.

So, throughout the years we have participated in many service projects regarding the Earth. In recent years, we have been asked to leave things undisturbed. But the blessings of the 12th dimensional Elemental beings, the inner Earth Luminaries, and those beings of Light who oversee the balance of Earth, we have been given the honor of facilitating the next steps for the Earth.

While we could accomplish this here in our Temple of Light, in recognition of our past service and contributions, we have been invited to complete this segment of our mission, from within the Crystalline core of the planet.

So take a breath and we will begin.

As our Light Temple starts to slowly spin, the environment surrounding us is changing. We are being infused and showered with beautiful streams of translucent Light particles; each stream a different color and frequency.

The spin is now increasing, and is increasing a bit more. Together we will journey to the matrix in the center of the Earth, where we placed the Ascension template. We have not visited inner Earth as a collective in some time.

The various Inner Earth communities who were made aware that we would be passing through, have gathered in support. Send hellos to those we have met and who have assisted us in the past.

Arriving in the Crystalline core in the Earth, step out of the spinning vortex of Light that transported us. We are greeted by the Inner Earth Luminaries and many Elemental beings. It is wonderful to reunite with these old friends and precious ones.

Some years ago, we co-created with Yeshua and the Magdalene, the massive Love and Unity template, and placed it within the Christed matrix. As you can see, it is still beautifully radiating into the consciousness and Sacred heart of every human, with the frequencies of cooperation, community, respect, collaboration, harmony and peace.

And if you will remember, the Love and Unity template was created in the 5th, 6th and 7th dimensional frequency range. This has been maintained and kept in perfect balance for these ensuing years. With the Ascension template now seated here in the matrix, and as co-creators of both the Love and Unity template and the Ascension template, we have been asked to implement the next steps.

With our collective intention, allow a stream of Light frequencies, brought from the Love and Unity template, begin to interweave into the Ascension template.

Next, with our collective intention, let us consciously direct a stream of Light frequencies from the Ascension template, which has no limitations of any kind, dimensional or otherwise, to infuse the 5th, 6th and 7th dimensional frequencies of the Love and Unity template; very slowly and precisely. This will initiate an enhancement and alteration of the dynamics of the Love and Unity template for the Earth and human consciousness.

The Inner Earth Luminaries along with the Elemental kingdoms will oversee the long-term regulation of this infusion. This infusion will also have a profound effect on the Inner Earth communities and the entire realms of the Elementals.

Also here, in the Crystalline matrix of the Earth, is the Aquamarine Ray of Light of the sacred Feminine, brought forth by the SHE, that we placed in the 2022 Light

conference. So, with your attention on that beautiful Ray of Light, consciously direct the Light frequencies of the Aquamarine Ray, which is also infinite and limitless, to infuse the Ascension template.

With these refinements, we have provided another huge benefit to planet Earth and all who call her home.

Before we take our leave, please convey your love and gratitude to the Luminaries, and all of the many iterations of Elementals, for they do in service to mother Earth and humanity.

Returning to the vortex of Light, we will be transported back to our Crystalline Light Temple.

As you settle and re-focus, be pleased with the contributions we have made to the Ascension process of mother Earth, and the numerous lifeforms that exist within the inner and surface worlds.

### **2nd Activation of 8-8-8 Template**

Take a couple of centering breaths, and we will move into the next segment. As we sit here together, be aware of yourself in your illustrious golden Garments of Light, and also our beautiful collective.

Follow your Pathway of Illumination from your multi-dimensional Sacred heart to the Golden vortex of the Hyper-Quantum diamond, and sit inside. Each time you consciously travel along your Pathway of Illumination, it allows the pathway to strengthen and become even more illumined.

In session eight, we received three layers of the 8-8-8 template. The first layer was activated as you received it, in a brilliant eruption of supreme Golden Light particles that were permanently enmeshed in your Unified field. That activation forever altered your frequency to the purest essence of divine Golden Light, which you now emit with each breath you take and with every beat of your Sacred heart.

Place your focus on your now glorious Unified field, where the second iteration was placed. By bringing in the massive Light configuration in session ten, completing the Ascension template and placing it in the Christed matrix, along with what you just facilitated, the second iteration of the Golden 8-8-8 Infinity template is now moving

forward.

In a brilliant flash of blazing Golden Light, the second iteration of the infinity symbol activates, filling all aspects of you with even more refined particles of Light, increasing your Golden essence to an even higher state.

This activation will awaken a broader and deeper unveiling and remembering of your infinite and eternal Soul Spirit essence and wisdom, by dissolving deeper layers of the veil of forgetfulness.

There are endless intricate layers to be discovered in each of these iterations. All three of these iterations are extremely powerful, and will impact all previous iterations in everything you do in the future. Every activation creates a cascading sequence of changes in all aspects of you.

Take a breath as the frequencies are flowing through your entire Unified field. And remember to ground them in your Earth Star. And let us continue.

### **The Pinnacle of Diamondline Eternal Light**

In session ten, what we had previously thought would be the 5th Triad, was a huge configuration of Light that is now connected to the apex of our Quantum- Hyper diamond. It was described as a massive transcendent, hyper luminous, hyper intelligent, hyper creative fusion of the most pristine Quantum Eternal Light.

That description is filled with frequencies and codes, but is only a shadow representation of the sheer magnitude of this immeasurable Light configuration. The depth of it is truly undefinable and beyond physical description.

After spending many hours over the past several weeks contemplating a simple but distinctive way to reference it, this is what I came up with. In these final two sessions, we will refer to it as the Pinnacle; the Pinnacle of Diamondline Eternal Light.

It is the pinnacle of our Pathway of Illumination and of the Ascension template, and everything we have done that has brought us to this present moment. This Pinnacle of Light radiates and illuminates massive, infinite and unlimited Light frequencies, the extent of which are beyond anything we can imagine.

There is however, one brilliant stream that over lights all that we are currently capable of accessing and understanding about this pinnacle. And that is a massively immense,

beyond luminous iteration of the Diamond Ray of Light, which is the most refined and purest expression of Light that exists from our Creative realms of Source. Within the fire and brilliance of the Diamond Ray, exists all of the other Rays of Light in their highest iterations.

So just what is a diamond? It is the ultimate Prismatic crystal; hence, the crystalline frequency and the descriptor of Diamondline.

Nearly ten years ago we began with the Crystal conference. In this alone, you can see our progression, and we have now come full circle.

The Council has asked that we clarify so there is no confusion for anyone, that the Pinnacle is not a place we go to. While all aspects of us are now continually being infused by it, we receive the ultra-powerful Light frequencies from it, within the Golden vortex of our Quantum Hyper- Diamond.

This fusion of Creative Light has no limitations, and is beyond any concept of dimensional realms. It is Eternal Light.

Take a breath. With your focus again of yourself, sitting within the center vortex of Golden Rays of Light in the Hyper- Quantum Diamond, we will continue.

Take a couple of deep breaths, and prepare to open as you have never opened before.

### **The Template of Original Intent**

This next segment only came in in the last 24 hours, and the extent of it was totally unexpected. So, take another breath. Set your attention to remain conscious and aware, and listen carefully.

Beyond the Pinnacle of Eternal Light, there is a highly refined and long hoped for Template of Light. It is not actually a template, but that will be the reference we use. This template pulses at frequencies that we have never experienced before in any iteration.

As the Ascended Light Masters that we are, call forth the epic template of Original Intent. With your command, direct it to light up and activate through the matrix of the Pinnacle of Eternal Light.

Continue to breathe.

This extraordinary and unprecedented template is being gifted in this sequence of time, to re-establish the Original Intentions from the Source of Eternal Light, to this beautiful planet and humankind.

The template of Original Intent is being gifted to Mother Earth now, for her to prepare for her long overdue Ascension.

This template is pristine, and vibrates at frequencies and in realms that are far beyond the confines of the Earth plane, to remain free of distortions and interference. This template contains infinite intentions and possibilities.

One of the first being activated is to remove all vestiges of dualism from the Earthly realm.

Earth was created to function at 12th dimensional frequencies of Light. It was not created, nor was it ever intended to be a planet of duality.

Take deep breaths. Be very conscious and aware.

From the center of the Hyper-Diamond, with the conscious knowledge and realization that you are the very first humans to experience this, allow the frequencies from the template of Original Intent to flow through the Pinnacle of Eternal Light, and be received within the Hyper-Diamond by your multi-dimensional Sacred heart center, through your Pathway of Illumination to your Unified field; in every aspect of Who You Are. And BE THAT.

When it has been determined that the time is appropriate, the template of Original Intent will then activate within the Ascension template and the Crystalline matrix of the Earth.

Continue taking deep breaths. And consider the implications of what we have just done, and that it has taken tens, maybe hundreds of thousands of years and countless lifetimes to accomplish.

Take another conscious breath; and we will continue.

### **3rd Iteration of the 8-8-8 Template**

This next segment may feel anticlimactic in light of what we have just set in motion, but it too is very important and significant.

So re-focus on the Master being that you are, within the Golden vortex of the Hyper-Diamond. With this unparalleled accomplishment, we are now prepared to activate the third level of the 8-8-8 Infinity template.

In the 8-8-8 session, what we received at that time was a Holographic imprint of the 3rd iteration of the Infinity symbol and template. And that is because the 3rd iteration is contained within the light of the Pinnacle.

So from the Golden vortex of the diamond, place your attention once again on the Pinnacle of Eternal Light.

As the Light being of mastery that you are, draw this massive iteration of the Golden Infinity template into view.

Direct it to activate within the hyper voluminous fusion of Light of the Pinnacle.

With your intention, allow the super luminescent Light particles of this iteration of the Infinity template, along with the Diamond Ray of Light, to be received by every aspect of your Golden luminous essence and beingness.

This third and final iteration of the 8-8-8 template is the mechanism that unites every frequency and aspect of your entire being, your Soul and your Spirit to flow in harmony and resonance with the Infinite and Eternal Creative Light that we are, that was encoded in our Original blueprint.

The magnitude of all of these energetics we have experienced so far today, has pushed us beyond what was ever thought possible.

There is still one more important segment. But let's take a two minute break to just assimilate, just a bit, before we continue. Two minutes.

Is everyone ready? Take a couple of centering breaths.

### **The Golden Chalice**

So with your conscious awareness, be within the Golden vortex of our Hyper-Quantum diamond. In the fullest expression of your Golden presence, which has been elevated by several octaves today, again call forth the Golden essence of your Soul and Spirit.

Some time ago, you placed a Golden Chalice at the base of your medulla oblongata, and there it will remain. There are in fact many iterations of the Golden Chalice.

One iteration has always come forth with you, with each incarnation, and has been a part of the function of your Sacred heart center.

Today we are focusing on a different iteration that is within the massive fusion of Eternal Light of the Pinnacle, at the apex of the Hyper-Diamond.

With the sacred authority of your magnificent Soul and Spirit, direct your uniquely exquisite and cherished Golden Chalice of the Grail, to emerge from the depths of the Diamondline Pinnacle of Eternal Light.

Your chalice is gleaming and beautiful. It may present as very ornate or have a quiet elegance. It is as you designed it. Emblazoned somewhere on your chalice will be your ancient symbol that you discovered in the crystal grotto during our 2020 Light conference.

Your Golden chalice symbolizes your Ascended self, and allows that aspect of you to come forward. Again, with your sacred authority, call forth your glorious and luminous Ascended self, to emerge from the depths of the Eternal Light of the Pinnacle.

Take a breath.

This is what you have so diligently and tirelessly been working toward throughout eons of time. Your mystical chalice is filled with the Golden elixir of your Divine eternalness.

Following the protocols of this ancient ritual, your illumined Ascended self raises the Golden chalice, and with the ancient sound EPHPHATHA, pours the Golden elixir of liquid Light, anointing your entire beingness.

By receiving this sacred anointing, you have achieved your Divine Ascension and reclaimed your Gnosis. Breathe.

You have fulfilled the true message of the Magdalene and Yeshua of Anthropos, which means becoming a Divine human while still embodied.

You are complete.

Love and blessings, beloved Ones.

Joan: Blessings everyone. Our session is now complete.
