

**JOAN ANNOUNCEMENTS:**

Well, Welcome everyone, to the new Session of Ascending Masters Level 3!  
Dates for upcoming classes: March 24, April 14, May 5.

**MELAINAH: OPENING DAY INTO TEMPLE**

Gathering outside the temple.

Along the pathway leading to the light temple, we will form 2 equal lines, with half of us on each side. Creating a wide corridor between us.

Joan will be at the beginning of one line and I will be at the other.

When you are in place turn so that we are facing each other across the pathway.

Other members of the council will extend our lines, and many other members will file in behind us.

We, the physical members of the council, along with the entire non-physical contingency, have asked Metatron to lead the procession into the light temple on this our final opening day, of this 3-year segment.

We wish to honor Metatron as the orchestrator and coordinator of this incredible 8-year journey that began with Seating of the Divine Image.

Take a breath and we shall begin.

Our beautiful Cosmic Crystalline temple of radiant light is shimmering with a mystical extraordinarily beautiful brilliance.

Even the pathway to the light temple appears alive and dancing with sparkling lights.

Let us welcome each of these honored and treasured beings of magnificent light as they come into view and pass by us.

Moving up the pathway, Metatron in his most brilliant robes of golden light begins the procession to our temple of light.

He is escorted by a white lion and lioness from Sirius and a lioness and lion from Lyra.

As he acknowledges our collective and passes on by, you see he is followed by the Elder Councils, who are escorted by the remaining 12 lionesses and lions.

~An-Ra-Ta accompanies the Sirian High Council of Elders.

~Sa-Ra-Zon accompanies the Arcturian High Council of Elders.

~To-A-Ma accompanies the Pleiadian High Council of Elders.

~Mei-Q accompanies the light beings of Andromeda.

~We are meeting for the first time, Nee-Ah, who is known throughout the cosmos as the keeper of the mysteries, and she accompanies the esteemed Elder Council of Lyra.

Take a breath.....

Following the elders are Yeshua, Mary Magdalene, Mother Mary, and Anna who requested to be here today.

Next, Archangels Michael, Gabriel, Uriel, and Raphael lead all the Archangels of Earth and those from the star systems we know and beyond.

They are followed by all of the Ascending Masters who are being led by Master Kuthumi, Lord Melchizedek and so many who have worked with us and supported this entire project from its inception.

After the Ascended Masters have passed us, both of our lines will now step onto the pathway and join the procession.

All of the other many, many members of the council will file in behind us.

As Metatron enters the gathering chamber he goes to a raised platform in the center of the light temple.

All of the lionesses and lions encircle the round platform.

The elder councils have chosen to fill the seats to the right of our section.

The Archangels and Ascended Masters will be to our left.

We will take our seats in our center section of the temple to be followed by all the other special beings joining us today.

With everyone now seated, take a breath.

Let us say hello to John who is present and has now joined the non-physical members of the council.

Also, send hello to Pat Austin as she acclimates to her new environment.

Tune in to the frequencies of our magnificent light temple, which have increased substantially since we last gathered here as a collective.

Feel the pulse of these vibrations surrounding you and moving through you as you come into coherence with these elevated frequencies.

These frequencies will increase with each session of this entire year, in order to support us to open and receive the most advanced and accelerated encoded energetics yet.

Take a breath.....

Take a moment and look around this sacred space.

This chamber is filled to capacity with the most brilliant, most honored, and respected beings of light in the cosmos.

Every single one is here because you are.

Receive it and breathe it all in.

Let's turn our attention to Metatron, who will open our session.
