

Ascending Masters of Light Level 3 Session 2d March 24, 2024  
Council of 12 Light Packets, DNA, and Triads

Joan:

We are the Council of 12. This council is composed of 12 streams of massive Collective consciousness. We have gathered to present a unique Ascension process. You are requested to bring forth a specific memory code of yourself as an important, unique stream of Collective consciousness that makes up this council.

Lord Metatron asked you to review and bring into the present time previous information on the 1st three Light packets and the 4th 5th and 6th DNA strands that make up your physical body. These Light packets and DNA strands reflect your memory of yourself as a Soul.

This memory is of great value to you in understanding and experiencing yourself as an individual Soul who manifested the form of a physical body. The DNA strands support your consciousness that you are a Soul using a sacred vessel of form.

Everything changes when you embrace this state of consciousness and begin viewing yourself from your Soul's perspective. Your experiences and state of consciousness are altered for eternity.

The Soul begins to alter the function of the first three chakras. These chakras are Earth chakras. They help you create and experience life on Earth from a much different Light frequency and state of consciousness.

We want to lead you in an exercise that helps you experience your Unified field from a different state of consciousness. This also expands the wisdom and knowledge of your Soul that will be used in other lifetimes.

4:07

Process:

Take a deep breath. Get centered. Another breath.

Draw in the Christos Light from the Creative realms of the Source of your being. Bring this Light in through your entire 3rd Triad. Bring this Light down through your center channel, down through your legs and feet into your Earth star, into the center of the Earth where the Luminary community surrounds the Original Christed matrix of the Earth when it was first created as a Christed physical planet.

Draw the Christos Light from this Original matrix, bringing it up through your Earth star, feet, and legs into your 1st chakra. With your intention, begin to spin your first chakra in Christos light. Spinning and spinning this chakra. With every rotation your Light frequency increases.

Now bring this Christos light into your 2nd chakra and begin to spin it and spin it. With every rotation your Light frequency increases.

Bring the Christos light into your 3rd chakra and spin it in Christos light. Spinning and spinning this chakra. With every rotation, your Light frequency increases.

Your increasing Light frequency alters your state of consciousness and makes it a valuable asset to your Soul.

Now bring the 1st 2nd and 3rd spinning chakras into your 4th chakra; which is in the 1st Triad. The spinning first three chakras merge with your 4th chakra, which is filled with your love and appreciation for what Prime Creator created in you as a Soul-Spirit.

The Sacred Heart chakra opens wide. Your Sacred Heart center has been substantially upgraded since you first were taught about it. It contains your Original personal Christed matrix. Your Sacred Heart center is filled with the wisdom of your unique original master imprints of your Soul-Spirit.

Your 5th chakra opens and begins to spin in unison with your first four chakras. The frequency of Light is brilliant as the entire 1st Triad is completely altered by the frequency of Light that continually emanates from this center.

It has truly become a unified magnificent base Triad. It has become a massive spinning vortex of Christos consciousness. The other 4 Triads will merge with this 1st Triad and become one Unified field of Christos light and consciousness that continually flows throughout your Unified field, within you and far beyond the extremities of your physical body.

The Triadic system now becomes one coherent unified spinning vortex that contains your entire chakra system in a coherent massive vortex of Creative light.

You didn't have a state of consciousness to understand the Triads at this level. This consciousness will continue to grow and grow as you practice this process.

Take a deep breath and let this all begin to integrate into your field.

Everything about you is being altered. When you start viewing it all from your Soul's perspective and wisdom, everything you previously knew and understood ceases to exist. You are beginning to overcome a huge 3rd-dimensional hurdle. That hurdle is a state of consciousness that tells you every aspect of you operates separately.

Now you can realize that no aspect of you is separate from your entirety. Your physical, mental, spiritual, and emotional bodies are all intertwined and function as a unit of Christos consciousness.

This is another level of seating the wisdom and Light frequency of your Soul. As we continue throughout this year's teaching and energetic transmissions, your evolvment and state of consciousness will grow and move from the mental understanding of the chakras, the Light packets, and the Triadic system. Your state of consciousness has increased. You will know and experience your Unified field of Light quite differently.

You will know these things from your Soul's perspective, which manifests in your physicalness.

You are becoming the Master that you were created to be.

Take a deep breath.

Let's pause a moment to let all of the concepts and energetics settle into you.
