

Ascending Masters of Light Level 3 Session 2b March 24, 2024

Gabriel Message

Joan:

Greetings. It is I, Gabriel. I come from the Council of 12 and the stream of Collective consciousness of the Angelic realm, specifically the Archangelic realm. And I come to bring a precursor of Light energy, which is my duty as the carrier of Prime Creator's creative light. It has been my duty for many, many centuries of your time, to be the messenger. And before I delivered my message, I always imparted to all of humanity a Light frequency of the Divine that would help them receive my messages.

So I do that today because it is very significant, these dates that you have been marking on your present-day calendar, to not only celebrate but to draw your attention to their significance.

So my message today is that this path that you presently have been engaged in, are significant time. And you are building an Ascension template, as you well know. This template is for you individually, but it is also, there is a Light template that you are creating and laying down for those who come after you; those beings who enter this realm in a more refined state of consciousness, having bodies of the 5th dimension.

And it is very important that you recognize that this template is a living template.

And it is the second iteration of a Light template that Mary Magdalene and Yeshua laid down two thousand years ago; because that also was their destiny to impart, so that you, in this present time, could be firmly set on your Ascension path.

It was held in a quadratic Magenta diamond, which you are familiar with, to be used by all humans who could have the state of being, consciousness, and frequency range to draw from it.

These are times of new beginnings, new opportunities, and you as Ascending masters are laying down this second iteration of this template that Yeshua and Mary Magdalene laid down two thousand years ago.

All of this council is indebted to you for the service that you have agreed to come here to do. Many of you came from very refined realms. And as Metatron has told you previously, at great danger to you to enter such dense realms of reality on planet Earth.

But you all agreed and took on this task. And it continues and will continue when you have far left your human body.

So we wanted you to be aware of this, and be aware that the archangels are forever, as long as you are in body and thereafter, are here for you to bring Light frequencies that help you in your evolverment and in your project of, and duty that you have agreed to perform in this lifetime.

So we are constantly providing Light frequencies that you can draw from regularly. You can draw from them and help yourself create frequencies of light that are uplifting and sustaining, and help you remember who you are as these teachings progress.

So I am honored to come forth and represent all of the Angelic realm because we are very dedicated to you as you ascend into your mastery and remember the beautiful Spirit that you are.

So with that, I will withdraw from this conversation, but remember we Archangels are forever dedicated to you.
