

Ascending Masters of Light Level 3 Session 2 March 24, 2024

Welcome and Astro Events Session 2a

Joan: Well welcome everyone to Ascending Masters, level 3, session 2. There is a lot that we have to talk about today. First thing. We really don't have any announcements other than our next session will be April 14th. And hopefully, you already have that on your calendar.

But the thing that I want to remind you about is there has been some changes in the back end. It's no longer from joanandjohnwalker. Your emails come from ascending masters. And so please do not wait to contact us Sunday morning, because I don't check my emails Sunday morning. Melainah and I are doing what we have suggested to you, to sit quietly, increase your light frequency, create a sacred space, and prepare yourself for the upcoming session. So with that said, I'm going to turn it over to Kimberly for a moment to give you some suggestions on how. On Friday morning that email is sent out with the Zoom link. So if you do not receive it by Friday afternoon, then that is when you need to contact us. So Kimberly, do you want to give them some suggestions or talk about what has transpired since the last meeting.

Kimberly: The email is coming from the Ascending Masters of Light. And the email address is: ascendinglightmasters@gmail.com

So my suggestion would be to add ascending light masters at gmail.com to your contact list. And that way it'll go to your inbox. If you don't get it, check your spam mail because you don't generally get emails from that email address, so it most likely will go to spam.

So you can just right-click on it and say not spam, and it will move it into your inbox. And then any time you get something from Ascending Light Masters@ gmail you should get it. But be sure to go to your spam, right-click on it, and say not spam. And it usually goes out at around, I schedule it for around 5 or 5:15 in the morning on Friday mornings.

So you should get it in the mornings, and if you don't, I may be a little late in responding to emails. Joan: You can email me, but just know I'm not going to respond Sunday morning. That's out of the question. But I think everybody else should have gotten theirs

and everybody's here so I think everybody got it, so that's a good thing.

Joan: Yes. Okay, I guess we're ready to get started. So let's all gather together. Melainah, do you want to get it started?

4:10

Melainah: Everybody mute yourself please, and let us all gather within our temple.

Now, one of the things that was said in our opening session was that each time we gather as a community, the frequencies in the temple would be increasing. And they have, just ever so slightly. So with your awareness, just match your frequencies to that of our Light temple.

Another thing that's a little different this year; that all of the grand Beings that were with us on opening day have elected to be with us on every session this year. So say hello to all these grand Beings.

And we want to set our protocols in place. And those protocols, as you remember, is that we are each invited to open and receive all that will be offered to us today.

Take a breath.

Now I guess as all of us recognize, there is a lot going on. Planetary energies are kind of off the chart. We've had these major solar flares this week. We are still in the throes in the openings of the energetics of the equinox. Tomorrow is the partial lunar eclipse. Next week is Easter. And then on April the 8th is that solar eclipse.

So there's a lot going on beyond the energetics of what we are receiving in this group. So we had not intended to talk about these things much beyond what I've just said to you. But that kind of all changed in the last two and a half, three hours.

So, the equinox of course, is about new beginnings. Easter is about ascension. And then we have this partial lunar, and then that full solar eclipse coming, which has a whole different energy I think, that we will talk about as we go on. So the cumulative effect of all of these things has created a significant energetic.

8:13

Today is also Palm Sunday, which set in motion events that have been impacting humanity for two thousand years.

The Magdalene has been very present with me over the past six months. And as I was

thinking about, considering about whether I would say anything about today being Palm Sunday, I became aware of how the human aspect of her might have felt on this day, in this upcoming week that we now call Holy week, leading to the events of Easter.

So Yeshua showed up this morning and said; if you decide to talk about today and this week, I would like you to convey a few things from the perspective that this group can understand in your present time.

First, he said, it was his decision of course, to ride into Jerusalem on the donkey with the palms in place. This demonstrated several things:
It fulfilled any ancient Jewish prophecy.

But importantly, he wanted us to know, it allowed him to publicly declare his I AM presence. And the depth and the meaning of that of course was lost on so many at that time because they did not have the consciousness to know what he was saying. You do. And he also said this was his destiny.

So, the upcoming April 8th solar eclipse; the path of the eclipse is called the path of totality. And for some reason when I first learned about the eclipse a year ago, over a year ago, I kept referring to it as the pathway of destiny. And I still do that.

So, we in this community, have a collective destiny to continue what Yeshua and the Magdalene began so long ago. So can you see, from the state of consciousness that we in this group hold, the entwining of the threads of these; at first glance, unconnected threads?

So there are precious gifts that are being offered to each of us to be discovered. And they are wrapped in an ethereal stream of Light wisdom coming forth from the highest realms. So this is what Yeshua wanted you to be aware of.
So with that, let us welcome Archangel Gabriel.
