

## Ascending Masters of Light Level 3 Session 4 May 5, 2024

### 12th Dimensional Magenta Diamond and Ascension Pathway Session 4f

Melainah: Take another breath, as these major transformations are taking place.

In session 3, with the reconfiguration and recalibrations, we transformed the 4th Triad into the Pathway of Prismatic Light. As you are incorporating and receiving the frequencies of the additional energetic changes that you have just done, we will continue building this pathway.

As was previously mentioned, all four Triads function as a unified spinning vortex of Light.

And with the basic understanding of the hypercube and the new hypergeometries now coming into play, we will dive into those hypergeometries and become laser focused on certain internal layers of the matrix being created.

And we will begin with what we have known as the 3rd and 4th Triads. With the 9th, 10th, and 11th DNA strands reconnected through the corresponding energy centers, this has enabled the 3rd and 4th Triads to now function as one vast and fused unified Path of Light. So we will no longer speak of them as separate triads, other than as reference points.

The functioning as one Unified field of massive Light; observe now as this merged segments lights up, and the Pathway of Prismatic light is expanded. You have, in fact, lit up for the first time, the Pathway of Ascension for yourself and within the Ascension template. This is monumental.

From this point forward, it will remain permanently lit until it is no longer needed. And as you continue your Ascension journey in this body, you will only need to place your attention here; even in those times, and maybe especially in those times when your vibrations may temporarily fall; look for this Pathway of Light. It is a part of you. You are always on it, and you will be always on it, unless you choose to step off.

So let us begin now referring to this as the Ascension Pathway of Illumination.  
Take a breath.

Now, from the center of your 8th dimensional crystalline Sacred Heart, place your attention on your 8th dimensional field of Light, which is anchored at the apex of the Ascension Pathway of Illumination. Now, the 8th dimensional field of Light is further enhancing the Pathway of Illumination with the luminous Light of the 8th dimension.

Your personal 8th dimensional field of Light surrounds your entire toroidal Unified field.

And this field of Light has been holding the 8th dimensional frequency stably and coherently for you since you opened the Time lock and anchored it at our 2022 Light conference.

You are already aware that it is your personal portal that your Soul will utilize when you are ready to disengage from the physicality of this Earth. But, it is also your gateway to everything that lies beyond the physical realm. It functions beyond any limits and has many applications that will continually assist you on this Ascension journey.

Now allow me to reiterate a couple of points, to be certain that they are imprinted in your awareness and in your field. With the changes that you have made in the first 3 sessions of this year, along with those that you have put in play today, the 12th dimensional Christed matrix has been completely transformed with new and highly enhanced energetics. Those energetics, as you have been told, will be available to you in a stepped down version through the 8th dimensional Light template.

Your 8th dimensional field of Light will continue to stably and coherently hold the most rarified and beyond any concepts of dimensional realms and usable frequencies, that will continually adjust as your state of consciousness and being elevates.

So take another breath, and ground these energetic Light frequencies in your field. They must be grounded before they can be utilized.

The following transmissions are going to elevate your Light energetics to yet another level; the most rarified to date. So be sure your Unified field of Cosmic light is still anchored to your Earth star. Set your intention to remain conscious and aware, as all of these new energetics continue to flow and activate.

From the center of your being, let's begin to journey on this Ascension Pathway of Illumination, leading you to the 8th dimensional field of Light.

Looking through and beyond it, coming into you, is the most brilliant, swirling, radiant Light that you can imagine. A portion of this Light moves through the 8th dimensional field and anchors at the apex of the Ascension Path of Illumination.

As the mist surrounding the swirling Light clears, prepare to welcome and receive the next multi-faceted, deeply hued, and luminescent iteration of the 12th dimensional Magenta Diamond.

It is glorious, and the Light is other-worldly and ethereal.  
Take a breath and experience this level of Light.

The most magnificent golden Light is radiating from the center of this 12th dimensional Magenta Diamond. This level of golden Light is now being infused with the next frequency iteration of the Platinum Ray of Ascension.

The combined brilliance of the luminescence of the 12th dimensional Magenta Diamond, the Golden Light, and the Platinum Ray is beyond our human ability to comprehend.
