

## Ascending Masters of Light Level 3 Session 6a July 7, 2024

### Intro and discussion of 7-7

Joan: Well, hello everyone. Welcome to session six of Ascending Masters level three. I am very happy to be here with everyone. Melainah?

Melainah: Hi. Happy to see you all.

Joan: Well, as you just talked about, this is a very special day. It's 7-7, and it is even more special because it has great significance to us as a group, as Ascending Masters. It is setting the frequencies for us to receive at 8-8 in very specific ways. Melainah, you want to add to that?

Melainah: Sure. So, I mean, I think all of you know, the 7-7 which is today, and so 7-7 portal peaks today. So, Sirius began its morning ascent with our sun on 7-3. And this yearly alignment of the Earth, our Sun, and Sirius opens that Sirian gateway and supposedly makes the veils thinner, although for us the veils have been very thin with Sirius for a very long time.

But with Sirius being our spiritual sun, it is infusing our sun with the highest frequency of Light codes yet. So, our sun then emits those codes to the Earth and humanity. So, it has been said that this year's alignment is about, amongst other things: liberation, freedom, and illumination.

So, all of these are powerful, and of course will be of great benefit to the Earth and humanity, particularly at this time. So, these incoming Light codes and frequencies, as Joan just said, are of course leading us to the 8-8-8 Lions Gate portal, which we are being told will be unprecedented. And as we've talked about on the community call also, these codes will be especially relevant to our AML community. So, expect to receive some major downloads during this time. Of course, we will have another meeting before 8-8-8 on July the 28th. And this meeting on July 28th will prepare us even more for the 8-11 meeting.
