Clearing Unified Field Technique

Melainah:

Now let's cross the crystalline bridge to the wide doors in the center.

Take a moment and draw your Unified field in close around you, so that your entire field will fit inside the chamber. Now the chambers are not small. They may be 15-20 feet wide, where your field is now miles wide. And because it is so large, draw in all that you can, and then wrap the remainder around you like you would your angel wings.

Take a breath and set your intention.

The doors of the first chamber slide open in front of you. Step inside, and they close behind you. Now that you're inside this first chamber, you can relax your field a bit.

So, this first chamber is a Frequency chamber. Crystalline plasmic mists begin filling the chamber, spiraling around, up and down and through your entire field.

You may become aware of the movement and vibrations of the clearing frequencies increasing around you. And as the frequencies build, this chamber neutralizes any frequencies that are not supporting you, and that are not equal to the range of frequencies you now operate within.

So, breathe, receive and release.

As the process finishes, the vibrations decrease and the chamber clears.

In front of you, the wall slides open. So, drawing your field back in close, step out and into the open doors of the next chamber.

And as the doors close behind you, relax your field.

This is a Sound bath chamber.

As it activates, a full octave of, specific to you, high frequency, sacred, ancient sounds fills the space. You may hear tones and or feel the vibrations of these divine Sound codes as they move throughout your entire Unified field.

The full multi-frequency octave of your unique prime Sound codes begin to now permanently interweave with the ancient Sound frequencies.

And these ancient frequencies are very familiar to the higher aspects of you. These codes and sounds are beyond Quantum level, and they emit from those highest aspects of you of who you are as a divine being of Light.

Your personal Sound codes have now been elevated into master Sound codes, and they are neutralizing all discordant frequencies that are no longer resident or aligned with your unique individualized harmonic octaves.

So, allow yourself to be bathed in these Sound codes.
As this clearing completes, again, draw your field in.

The wall in front of you slides open.
Step out and into the open doors of the third chamber.
Relax your field as the door closes behind you.

This is a Color bath chamber.

A full spectrum of magnificent cosmic Colors fills the entire chamber, moving around and throughout your entire field.

The frequencies of these cosmic Colors are neutralizing all that is not in residence with your prime frequency range.

Coming into the chamber now is the full multi-level luminous spectrum of your personal prime Color codes. As they intertwine with the cosmic Color codes, your personal primary Color codes are forever transformed.

This transformation is not only occurring throughout your Unified field, but also at the highest aspects of you, as you now begin to truly reflect and radiate the Image of Source that you are.

Continue allowing yourself to be bathed in these transcendent frequencies.
As the clearing in this chamber completes, once again draw in your Unified field.

When the door opens in front of you, step out, and then into the final chamber.
Relax your field as the doors close behind you.

This final chamber is a Harmonization chamber.

And it has been designed to bring all of these now transformed and elevated aspects of your divine Signature codes, which include your Frequency range, your prime Sound octaves, and your prime Color spectrum into a state of ultimate balance and harmonic resonance.

Take another deep breath and remain quietly here for a moment while the codes and frequencies from each of these chambers are synchronized and harmonized.

Now, this brief process as you use it, will clear, refresh, and keep your Unified field operating at its optimum.

The Council will continue to recalibrate the chambers to support you as your frequencies and state of being continually elevate and expand.

And as this clearing process completes, please join me in expressing our deep gratitude to the Council for this extraordinary gift.

When the doors open, you will exit the clearing center through a different set of doors than those you used to enter.

And as you step out, you may fully expand your Unified field. Fluff it out.

In front of you is another crystalline bridge leading you to a path that will take you to the Light temple. But before we proceed, the Council also wishes for you to know that when you return here, you may also immerse yourself or float in these sacred liquid waters surrounding the center and the island. This water of liquid Light holds unique and magical qualities.

Now follow the path to the Light temple. Enter quietly and take your seat where the full Council awaits to address us.
