

## **Ascending Masters of Light Level 3 Session 6e July 7, 2024**

### **Joan and Council of Twelve: 11<sup>th</sup> and 12 Strands of DNA**

Greetings. We are the Council of Twelve, of which you are an integral part.

You are the vehicles for the expression of this valuable pathway that is being presented to you at this time. Now that you have received the clearing process and upgrades to your Unified field, we will proceed with the Master energetic frequencies that are required.

As you move forward to attain the full ascension process that we agreed upon when you volunteered for this enormous ascension mission of the Earth and humanity.

In a previous teaching session, we transmitted to you energetically and conceptually, the 11th strand of DNA, that you previously thought was part of your DNA of your physical body and state of consciousness.

And you also understood that it was not part of your physicality at all. You assumed this because it seemed to be the rational progression of more DNA activations. You now know that this strand is not a DNA strand of your physical makeup, but immense, pure, creative strand of Light that is part of your Spirit. And we have been preparing you for a few weeks previously, as you explored the more fuller aspect of you as a Soul in a human form.

This 11th strand brings a refinement of consciousness relating to your mastery as well as to your Spirit. It is drawn from the Quantum field, brought through your Soul star, and through your Master light packet.

All of the remaining segments of your ascension activations while you are in a human body will follow this progression.

Previously, you made assumptions from fallen states of consciousness when you were not able to find your awakened pathway. Assumptions were made from your mental emotional body that was fractured.

You assume that because there were seven Earth chakras and they were united in the third Triad, that there must be another seven chakras and more triads that you didn't know about. Then you made another rational assumption that there were another seven

chakras above your head. And yes there are seven more chakras, but they are drawn from the Quantum field of creation, integrated into your Unified field where they are drawn into the physical body and used through your magnificent Light body.

You still have some difficulty fully comprehending the extensiveness of these energetics. You will not comprehend the completeness of these energetics until you have experienced the fullness of the fifth Triad.

So, there is a correction that has to be made in the mental emotional body regarding the psyche of separation.

Even though we have talked about separation and a fall of consciousness, it did not really make it true for you. This is the belief that has to be changed, so that you can assume your role as a creator of Light that just happens to have a body. You took a huge step when you realized that you were the Soul that was held within your human form.

Now, we would like to continue to communicate with you about the extensiveness of the 11th strand of creative Light of your Spirit that is always unified with the Source of your being. When you activated the 11th strand of Light of your Spirit, you placed it in your 11th chakra where you could draw from the Undifferentiated Light of Prime Creator.

Whether you realized it or not, that was a massive energetic activation. You have never really been able to access the fullness of that Undifferentiated Light of Source. You have drawn from it, and differentiated small portions of it in ways that were productive for setting you on this ascension path.

It is our duty to you now, to start to make corrections in the assumptions that were created through fallen states of consciousness and taught to the masses of humanity.

We now stimulate your consciousness to rise above the assumptions that were made. It is now time for you to receive and use creative Light of Source and walk the Ascension Path of Illumination.

The 11th strand and the 11th chakra hold complete balance and harmony, in the Undifferentiated creative Love, Light, and Unity consciousness of Prime Creator. You understand this to be the Fifth Element. It is the Prime element of all Source creations.

The basic activation is in play and will take the rest of this year to begin to manifest more fully. It opens the pathway for you now, to bring forth the 12th creative Light strand

from the Quantum realms of Source.

Take a deep breath.

You have just received not only a lot of information, but massive ascension energetics.

The 12th strand of creative Light encompasses the complete energetic of the consciousness of your Similitude with Prime Creator. You have the same energetic creative abilities as the Source of your being for as long as you choose to stay in that Unified state.

Remember, Source also gave you Free Will to choose how you create. And you do realize errors that were made along the way as you created outside of that Unified state.

A complete activation of the 11th and 12th creative Light strands of Prime Creator is so important.

They will solidify within this group the Soul Spirit merging at a multi-dimensional level. This complete merging at the quantum level could not manifest since the fall of consciousness when you could no longer access the eighth dimensional Light template.

A great fracture occurred in your mental emotional body when you could no longer use the eighth dimensional Light template. This hindered humans from actually knowing themselves in Unity with the All That Is.

There was also a fracture between your Soul and your Spirit. You as a Soul, could no longer receive direct communication from the wisdom and perfection of your Spirit.

It is through the activation of the 11th and 12th strands of creative Light that that Unity is established.

You could not experience the fullness of your mental emotional body, your everlasting presence within your Source, or your Similitude with Prime Creator. You are always present within the Source energy. You possess the same energetic ability to create Light as Prime Creator.

We are so excited not only for you, but with you, as you express this through your Soul Spirit as creators of Light in the Unity and Similitude of your Source.

You are now capable of establishing unity within your mental emotional body.

You are launching your Unity with Source of your being through the activated presence of the 11th and the 12th creative Light strands. You begin to recognize that you possess the same creative ability to create Light as you were intended.

Now, we will energetically and conceptually begin to activate the 12th creative strand of Light of your Spirit.

Take a deep breath.

Be conscious and aware.   Pause.

In the last two years of your time, you were prepared for this day. Many Light upgrades in your chakra system and triadic system were made. And you took those upgrades in and made them usable by your Soul. This has given you a state of consciousness that you had only dreamed of.

You are able to hold rarefied frequencies of Light, that only enhance the new activations relating to your Spirit and to your Soul Spirit merge.

Take a deep breath.

Feel the all-encompassing Light as it emanates from your Spirit, filling your entire Triadic system and your Unified field.

Your Soul floods your awareness with your original memory codes of yourself as a creator of Light.

Your Soul recognizes the massive creative Light of the 11th and 12th strands of Source creative Light that holds an immense Light energy that is unlimited in its expression.

The 12th strand of creative Light continually informs you at a Soul level that you are a creator of Light. You are a creator that was created in the Similitude of your Source.

You have the same energetic ability to create Light.

Take this in now.   Pause.

Comprehend this and hold it consciously within your Soul memory codes.

Your Spirit begins to communicate with you through its merged state with your ascending Soul. Your Soul has reached an evolutionary state where it moves. It ascends, so that that communication with Spirit happens and never ceases.

There is a knowing that begins to flood your consciousness, and stream through your energetic human system.

You now know without any doubt that you have never left the Source of your being.

You are completely united with your Source, because this is the intention that Prime Creator had when your Spirit was created.

Take this in and embrace it at every level of your being.   Pause.

You are aware of your Soul Spirit being fully unified in that complete Similitude of your Source.

You are the full expression of creativeness as a creator of Light. And you clearly know that is exactly who you are. You also know that you are a creator of form within form.

Your Spirit and now your Soul expression comes into complete Unity and Similitude with your Source as it was Originally intended.

Take a breath.

Another breath.

Be conscious and aware.

Take in the fullness of your creative Light.

Breathe it in.   Pause.

Now, we ask you to say the words that Master Kuthumi asked you to say at the end of his I AM Light prayer.

I am a Creator of Light. Repeat that after us.

I am a Creator of Light.

Created in the Image and Similitude of my Source.

I am a Creator of form within form.

Feel the difference in how you now experience these words.

This experience will grow exponentially throughout the next days and weeks and months of this Ascension process.

Remember Master Kuthumi's words. It is in experiencing it that you will know it intimately.

Remember this as this integration, this massive integration of these creative Light begins to integrate within your Soul and unified with your Spirit.

We will close this session.

Continue to be filled with the creative Light, knowing yourself as you awaken to the fullness of who you are.

Joan: Thank you all for joining us today. It takes all of us to bring this forth into the reality. Blessings, everyone. Blessings.

Melainah: Blessings, everyone.
