

Ascending Masters of Light Level 3 Session 7

July 28, 2024

Session 7a Announcement Lion's Gate

Joan: Hello everyone. Welcome to session seven of the Ascending Masters Level 3. We are happy to have so many with us today. This is a really big session. It's an important session because it is prepping us for the 8-8-8; the fullness of that incoming energy, which is so important to our group.

Anyway, we will meet again in two weeks on the 11th of August. It will be a full complement of, not only the Council and us, which we are a part of, but it will also be a full complement of the Sirians.

So it was important that we have this meeting to set the energetics. And of course, every meeting the energetics and the information has been amplified. And that is not going to cease. But this session and next session are big sessions. At any rate, we wanted to make you aware of that.

So we will get started. We are already gathered together in our Light Temple. And I am going to turn this over to Melainah.

Melainah: Okay. All right, so as you are sitting in the frequencies of our magnificent Temple of Light, everyone take a deep breath; center. And if you recall, we were told earlier in the year, that with each session this year, the frequencies of our Light temple would increase. So come into resonance with the latest increase within our temple.

And as with every session this year, the temple is filled to capacity.

We have many, many beings of Light witnessing this Ascension journey that we have undertaken. So, take another breath, say hello to everyone, and we will begin.

As Joan just mentioned to you, we are already in the energetic opening of the Lions Gate Temple. And in fact, opened two days ago on the 26th, following the day out of time, which was the day before. So, it's been a really interesting and energy potent week, definitely in my space. And I'm sure most of you are feeling it too.

You do know that, as we have said before, this 8-8-8 is one of the most significant to date, particularly for our group.

So that, along with what will be happening this week, not excuse me, this week, but in today's sessions with the energetics that will be set in play, you're gonna be in the midst of a lot of energetics over these next two weeks.

So we do want you to be aware of that, take care of yourself, just know that there is so much coming into your already intensified and magnified field. So just keep that in mind and definitely take care of yourselves.
