

Ascending Masters of Light Level 3 Session 7 July 28, 2024

Session 7d Path of Illumination and More

Joan: Melainah, I'll turn it over to you.

Melainah: Thank you so much. Everyone take a breath.

Now as you're sitting in all of these energetics that you have just brought into present time, know yourself as the center, as the Divine center of your magnificent Unified field.

In session four, we expanded the Pathway of illumination. We also permanently activated and lit the first segment of the Ascension Pathway and Template.

This was a major accomplishment; not only for each of us as individual expressions of Source, but for the Earth and for those who will follow us.

As you are well aware, things are moving very quickly now. All timelines have been accelerated. You are recognizing it within yourself as these energetics are coming in at unprecedented rates.

You can also see the broader effects on the planet playing out before you.

This is in no small way in response to what this Ascending Masters of Light group has been able to create.

As discussed earlier, our job is to remain focused on both our individual and collective ascensions by completing this Pathway of Illumination, thereby fulfilling the collective Prime Directive of this Council, of which we are active working members.

In session four, we also received a supremely elevated and illuminated iteration of the Quantum multi-dimensional diamond. This iteration is beyond description and way beyond what we perceive as being 12th dimensional.

As such, we will no longer refer to it as the 12th dimensional diamond.

So, we were met in the center of this magnificent iteration of the diamond by the Magdalene and Yeshua, who were illuminating the highest iterations that we were capable of perceiving.

Subsequently, we each were invited to return as often as possible and sit with them in the radiating Light within the sacred center of the luminescent diamond.

So, during those visits, they began working with us individually. And much of what occurred there was specific to your Soul Spirit and Prime Directive. They were also preparing us for the remaining steps of our ascension process, but also for what lies beyond.

So, take another deep breath; be present, be aware.

So, from the center of your being, let's journey together along the Ascension Pathway of Illumination to the brilliantly radiating multi-faceted Quantum diamond of Light.

The Magdalene and Yeshua are again there to greet you.

Allow yourself to feel their embrace as their beautiful divine Light wraps around you.

During your visits with the Magdalene and Yeshua, in this sacred space over the past two months, something unexpected occurred. This something was not anticipated or to be offered to us until after the completion of the series.

However, Yeshua and Miriam were so moved and surprised by what did occur in those private sessions, that they convened the entire non-physical members of the Council.

Together, they presented what they discovered and why they were requesting that what will be offered to us in the next few minutes be given now, because it is not part of the ascension sequence or template.

So, after days of discussions, the Council, Yeshua and the Magdalene settled on a plan, that a portion could be presented and set in place now. However, no details were to be given at this time.

So, take another deep breath and prepare.

The Magdalene and Yeshua are inviting you to enter into the brilliant Golden Light in the center of this magnificent Quantum diamond.

With Yeshua and the Magdalene standing on either side of you, the Golden Light of the diamond begins to intensify.

Now, place your awareness on your multidimensional, crystalline Sacred heart center.

From your Sacred heart, call forth the fullest spectrum possible of your multi-faceted luminous Soul essence.

The Light filaments of your Soul essence and your cosmic Sacred heart are entwining and interweaving in a swirling vortex of immeasurable radiance.

Yeshua and the Magdalene now begin infusing and amplifying that swirling vortex with the specific stream of their joint Light essences emanating from their divine Sacred heart to yours.

Open that Heart center even wider.
The frequency continues escalating.

As their Light essence and your Light essence from your Soul intertwined within your Sacred heart, an explosion of pure Light occurs.

Breath. From this entwinement of their sacred Light essences with your Sacred heart and the pure Light of your Soul essence, emerges a brilliant, radiant, prismatic sacred Rose of crystalline diamond Light.

Sit for a moment in the brilliance of this stunning creation.

The emergence of this crystalline, prismatic sacred Rose will allow very different streams of pure Creative Light from Source to begin flowing through the entirety of your Unified field.

At this time there is nothing for us to do with this; only to receive and be aware that this amazing gift is now a part of our Divine fields of Light.

As I have been given to understand it, there are many intricate layers to this gift, and why it was important to be presented now. So more will be revealed in future sessions.

So be conscious and aware. And please express your gratitude to the Magdalene and Yeshua as they step back.

Remaining here in the center of this luminous Sacred diamond, let's pause for a moment or so of silence, as you begin assimilating what has just occurred.

We do still have more to do before we complete the session.

Be present.

So, before we continue, the Council wishes you to have a full understanding of these two things. First, each divine step that we now take is massive, and the frequency and vibration of every aspect of us is changing in response to each increase.

Second, it also alters the frequencies of everything that came before the very moment in which the latest change, addition, or iteration occurs.

There are no more small steps. So let us proceed.

So, return your awareness of being in the center of the Golden Light of the Quantum luminous diamond.

Take a deep conscious breath, and be in excitement for what has just occurred, and for the incoming 8-8-8 frequencies and this next expansion of the Ascension Pathway of Illumination.

Allow the Light frequencies from the latest iteration of the luminous Platinum rays to infuse the fullness of your Soul, your Spirit and your Divine fields of Light. As you receive the frequencies of these luminous Platinum rays, this results in opening your spiritual vision to never before experienced levels.

You are invited to journey now more deeply into the brilliant Golden Light of the Quantum luminous diamond.

Going deeper, and deeper still.

The Pathway of Illumination is expanding with each step forward. You are activating and lighting up the next segment of the ascension pathway and template. The frequencies at this level of Light are extreme.

With your enhanced spiritual vision, look beyond the diamond into the vast expanse of the deep Void.

Out in the fertile darkness of the Creative realm, you will see an almost imperceptible point of Light. As your spiritual vision adjusts and the point of Light comes into focus, it may present as a star.

This point of Light, although still very, very, very far away, but due to its sheer volume and potency, is emitting the next cosmic and quantum iteration of pure Creative light and ultra frequencies.

Take a sacred breath.

What is happening here is monumental.

You most likely will become aware of these massive frequencies long before they actually arrive on 8-11. You are and have been preparing for this for years.

So, what is this mysterious, brilliant Light iteration?

Could it possibly be the long-awaited fifth Triad?

Inhale deeply and release.

Bask in the magnificence that is you.

So, we will leave you here and close our session.

Blessings.

Blessings everyone.
