

Joan Introductory Remarks: Hello everybody, welcome back to our afternoon session of the 2020 Light Conference. We had a most expansive first session this morning, and this one will be not any less.

Metatron has told us and asked us to relay to you how each day's activations build on the previous ones, enhance it, and magnify it. So, these Energetics will be escalating each and every day, each and every session. So you need to be aware of that.

And you're not going to integrate them all today, tomorrow, or even Sunday. It's going to take a while, just as they said in the last Conference that it was going to take a full year. There are some parts of this Conference that will take three months, some parts of it that will take a year, some parts of it that will take three years. So, it's exciting times and opportunities and Blessings that have been bestowed on all of us.

[1:40] Melainah takes us back to the Convergence Point in Hawaii:

Everybody get comfortable.... Settle into your space...

Take a deep breath..... Center.....

Be in your Sacred Heart.....

Be aware of yourself in our expanded Crucible.....

Be in your Light Body... and your Merkaba.....

Now, allow the speed of your Merkaba to return to that 130%

that you were in this morning....

Bring it up.... Bring it up.....

And allow your internal vibration to equal the speed, the vibration
of that Merkaba Light Vehicle.....

So, we will Journey back to Hawaii to the Convergence Point
of all time, space and Dimensions.....

Take yourself there now.....

Our Crucible is already there.....

As you come near, you will see it now floating on the water,
and it is surrounded by that Ring of Fire.....

Feel the warm sun shining on you.....

the soft gentle ocean breezes moving gently....

You can see the white sandy ocean floor through the crystal clear aqua blue water.....

These beautiful blue healing waters of Ancient Lemuria.....

[5:00] **Melainah – Convergence Point:**

Our beloved Whales and Dolphins are here to greet us.....

So, join me in saying hello to them and to all the Ancient Ones,
who continue to oversee this sacred space.....

Take just a moment and feel the increase in the vibration that exists here now, also.....

Have appreciation for all the Beauty that surrounds you.....

As you look again towards our Crucible,
you now see that our Pink Diamond configuration is also here.....

Go now to the Crucible.... quietly take your seat.....
And be aware of yourself in the Quantum Field.....

Take another deep breath... Breathe it all in...
Now, please prepare to receive Yeshua and the Magdalene.....

[7:30] **Yeshua retrieval of the final Iteration of the 7th Dimensional Light Template:**

Greetings, it is I, Yeshua.

I come at this auspicious time to greet you with my partner Ma'riam [accent on last syllable], the Magdalene. Together we represent the balanced HE-SHE Energetic, in the unified expression of our Divinity.

We are here today to be with you to unlock that final Iteration of the 7th Dimensional Time Lock, that most important Time Lock of Unity and Love....

We come forth to greet you with great Love in our Hearts.....

And now we go to the Center of this Diamond Configuration, from whence we emerged.

Go forth into the Center of this Diamond Configuration

to retrieve that final Iteration of the 7th Dimensional Time Lock and unlock it.

We bring it forth into the full expression of that Diamond Iteration,

in the fullness of Unity and Love,

so that Iteration, this sacred Geometry, holds in its many, many facets

every part of the complete 7th Dimensional Light Template.

We now present it to you, to members of the Crucible, but especially to the physical members of our Community.

[10:25] **Yeshua:**

So, Ma'riam and I now present the full Iteration of the 7th Dimensional Light Template.

Please receive it.

Hold it in your Sacred Heart.

And we will pause a take a moment here for you to receive it fully
and to feel its Presence now within your Sacred Heart center,
but most importantly within your body...

[Pause]

Be very present in this moment... in your body... aware... conscious...
filled with Unity and Love...

The expression of you at this moment is quite rarified and beautiful to view...

[17:04] **The Magdalene:** [through Melainah]

Dear Ones, I am delighted to be here as the Magdalene, with Yeshua in full Unity within that Element of Love.

The Unity that is being now established could not have occurred without the merging of the 6th Dimensional Time Lock you retrieved earlier today and the 7th Dimensional Time Lock that you have just opened and received.

2000 years ago, my Beloved and I were so unified in our relationship that we were able to achieve the seeding of what Unity Consciousness should look like. However, it could not come into full manifestation until the rising of the "SHE" aspect of creation, which you were so beautifully able to bring forth and embrace last year.

Now *all* things can become unified within you, with no expectations of how others express themselves in Unity.

The Beauty of this final opening of the 7th Dimensional Iteration is that you now have the full use of that 7th Dimensional Light Template, which is the Element of Love in all its complexity.

Now, I will turn you back over to my Beloved, Yeshua.
Blessings!

[19:27] **Yeshua:** I would like to speak to you, now, about a few things relating to this massive 7th Dimensional Light Template.

First of all, I want to talk about how it changes your relationship with the Source of your Being. It changes the way in which you view and communicate with the All That Is. Because of this Light Template, you communicate through the Element of Love, not from the emotional reaction to that Element, but in the Power of that Element, creating a field of communication between you as SoulSpirit in a body and that massive creative Collective Consciousness of the All That Is.

And you begin to realize in this communication that there never was any division between you or the Source of your Being. You were always united in that Element of Love, because that Element is how you were created – how your Spirit was created, how your Soul was created, and then your body emanated from that: the need of the Soul to experience itself as unique and individual in some type of form. Many of you have used many forms in the course of that exploration.

So that is number one – how that relationship has changed.

The relationship between humans is now changed because of this Element of Love, because of the fact that now the 7th Dimensional Light Template completely, in its completeness and wholeness, is merged with the 6th Dimensional Light Template, which brings an Equilibrium to this massive Field of 6th & 7th Dimensional Light Templates.

This Equilibrium was of prime importance to be established in that Field, because it unites not only the Electro-Magnetic Field, but it tempers it, so that that Field is equally manifested through the Magnetics as well as through the Electrical charges.

So this enables you to solidly come into a creative venue in any relationship – whether it be an intimate one, a one of deep friendship, a one of parent and child, or a casual social relationship. It comes into an equal expression, where you do not have unrealistic or undue reactions in that relationship. You have no expectations between you and that, either/whether a singular person or a group.

You approach it from the Heart, from the Sacred Heart, from that Element of Love that is an expression of your emotions. And you do not have any charge in what you are thinking or what you are bringing into that relationship, because of this merged state of the 6th&7th Dimensional Light Templates.

[24:35] **Yeshua**: You are establishing – this is really important for you to understand – you are establishing a new Electro-Magnetic Field, with all components of that 6th&7th Light Templates in Equilibrium and Love. And it affects your Electro-Magnetic Field, bringing it up to a new level of expression and a new vibratory level – your personal Electro-Magnetic Field, which operates within and around you.

But the most important part here – we have waited for so long to see this begin to occur!!! – and that is the Electro-Magnetic Field around your Earth that creates that balanced plane for you to experience not only the Earthly plane but yourself as SoulSpirit in a body.

The relationship to Self, to you in a body, has changed. And you begin to know yourself, that yes you do have a body that you love – it helps you navigate the Earthly realm. And this environment is established through the Electro-Magnetic Fields of the Earth and through your individual bodies.

So, what that does, then, is it allows you to operate and create in a balanced unified way of your mental-emotional body. There are no reactive, unrealistic reactive charges that emanate that are distorted versions of your emotions. Those don't come into play, because the Electrical Field is also operating in Equilibrium and in Unity, so you don't have these reactions in your thought that magnifies and stimulates your emotions. It is all functioning very calmly in this Unified Field, in the Element of Love, In Unity.

It allows you to feel deeply, but in a balanced way. Your Heart remains open. All of the distortions are gradually healed.

Now, this will not happen overnight. This is one of those things, that, as you experience it, most importantly in the Quantum Field, and as you experience it and familiarize yourself with it in your body, in your Heart, in your Sacred Heart, this will have gradual effects on you and your Consciousness within the next three weeks. It will continually grow and grow and grow in the next year, and within the next two years and the next three years.

When we meet each year, more will be integrated. You have reached a pinnacle in these Teachings now, where we have completed, at the end of this year, have completed a segment of Teachings and opened the Time Locks necessary to support that as a human Divine Image. All the Initiations were given, received, integrated. And in the coming years we enter a new era, a new level of Mastery.

This was your foundation to discover the fullness of who you are as a Divine Being of Light. Acknowledge it, know it, and express it. And this piece in the Light Template activation was very crucial to this process.

[30:12] **Yeshua**: Not only was the 6th & 7th Dimensional Light Templates merged. But now that 5th Dimensional Light Template of stability begins to be added to the mix. And there is a complete merging of the use and expression of the 5th,6th&7th Dimensional Light Templates.

Now, let us go back to our discussion about relationships. And we've talked about how they affect relationships differently and how you utilize that expression through your Heart center. These things aren't really spoken about in different relationships. But you will now have the freedom to express through your words, through your emotions, not overly so, but in an equilibrium state of harmony. There is calm and there is harmony in this field that you haven't experienced before.

Even in the most casual of relationships, you may not agree with their position or even how they're expressing themselves, because it certainly would not be the way you express itself. But you accept it and your Heart remains open. It doesn't close. There's no judgment, because of the viability of that Element of Love. It's a very powerful creative Element. It overshadows any reaction. It overshadows the judgment. It allows each individual to be who they are. And they are more receptive to you, because of what you have the ability to transmit in precision and stability.

This is the value of you, each one of you who are embodied in a body: a Master who has volunteered to do this service without any reservation how it's received, how it's used. You just hold it, express it, and be it.....

[33:10] So now, take a deep breath.....

And if you will join Ma'riam and myself as we lead you into the Quantum Field of Energy, where the rest of the Crucible is already present and waiting for you.....
