

Melainah:

So, remaining in this state and this frequency that you're now in,
take another deep breath.....

And in your Light Body and your Merkaba Light Vehicle,
let us return to the Hawaii Convergence Point for one last time in this Conference...

So remember we're now traveling and operating in that Quantum Field.....

And once again, our Crucible is already there, floating on the surface of the water,
surrounded by the Ring of Fire.....

And as you look down, you see the Dolphins are there
and have formed a large circle on the outside of the Ring of Fire.....

So, let's enter the Water.....

Take a few deep breaths...

and swim down to about ten feet above the white sandy bottom.....

Have no concern about breathing, because you are in your Light Body.....

Now, feel yourself floating in this liquid, Crystalline water,
which is filled with Light Codes.....

And once we have swum down, you see
hovering right above the surface, a couple feet above the surface of the ocean floor,
directly underneath the Dolphins, is a huge ring of Whales.....

Before we arrived, the Dolphins had been using their sonar
with their whistles & their clicks.

And the Whale were singing an ancient song, which is not something they ordinarily do..

NOW – All is Silent..... It is sooooo quiet under here, so peaceful.....

When you are in their space, nothing else exists.

You get to be One with the Element of Water

As you remain suspended underwater,

Observe as the Dolphins and Whales in unison begin to swim around the circle.....

Their motion creates a Vortex of Energy around us.....

But you feel the movement of the water just as a very gentle swirl.....

[4:22] And as they continue to swim in that circle, the Whales begin to exhale.....

And as they exhale, they're blowing Bubbles.

They're actually beginning to create a Wall of Bubbles all the way around us.....

This is something amazing to watch.....

Inside this Bubble Wall, we are undetectable.

And it creates the effect of a chamber.....

Once that Bubble Wall is complete, the Dolphins and the Whales both stop.....

Remain very still and Listen..... ..

It begins as a faint, intermittent, distant hum.....

Lean into the Sound.....

When the Sound pauses, open your Sacred Heart,
and with the full expression of your Light Body that you now possess,
allow YOUR personal Harmonic Tone that you retrieved yesterday
to reply to the Hum.....

Stop transmitting now and wait for a response.....

Now that the response has been received, emit your Harmonic Tone again.....

We are creating a resonance between our individual tones
and the one emitting from deep beneath the ocean floor.....

So continue to transmit.... Pause... and wait to receive.....

Do this for several more times, so we can complete the circuit..... [Pause]

With the circuit complete and functioning, the sound now remains constant.

So begin now to draw that Tone into YOUR Sacred Heart.....

As you are doing this, the hum changes slowly
into a beautiful, very soft, almost Angelic-like Tone.....

Enjoy floating in this rarified, refined frequency for another moment or so..... [Pause]

So, please thank these beautiful Sirian Beings, the Dolphins and the Whales,
for assisting us once again..... the Kohola and the Nai'a.....

As much as we would like to stay here with them,
It is time to return to the surface.... and gather in our Crucible.

And, when all have gathered, we will talk about what just occurred.....

[12:17] Take a deep breath.....

Be aware of yourself in our Crucible...

You are still floating in these Energies at the Convergence Point.....

Now, a very, very, very long time ago, the ancient Lemurians, before they departed what was then known as the Earth Realm, left for us an amazing gift. This gift has long been forgotten in the annals of time and had been erased from the memory of humans since the fall.

What they left for us is a beautiful, Aquamarine Grand Crystal.....

What you did began an activation of this amazing Crystal.....

This Crystal is known as the Crystal of Tranquility and Beauty.....

So, sit in this Beauty and the frequencies of Tranquility for a few moments.....

[Pause]

Say let us say goodbye to Hawaii, now, for this year.....

 And to all the Grand Beings that hold this place safe
 and keep it pristine and Sacred.....

So, we will return together in our Crucible, back to our own Sacred Spaces.....
