

01 Fri AM 2018 Crystal Conference Opening Remarks

Gabriel Remarks

Gabriel opened reminding us that the four Archangels Gabriel, Archangel Michael, Archangel Uriel, and Archangel Raphael remained stationed in each direction of the Lake Portal, the entry vortices to enter the first layer of the Crystalline Grid, to clear it from all of the anomalies of 3rd dimension.

Our group has been carrying these templates within our bodies and have been using them in your daily lives. We have enabled the Four to us to keep those channels clear, playing a vital role in clearing of the Crystalline Grid!

This grid has grown tremendously and does not need to be further cleared.

So, we are anticipating that within the next few years that top layer will be cleared and vibrating at a 4th and 5th Dimensional level.

The bottom layer was the original Crystalline Grid of the Earth in the Golden Age. And the purity of that, that flows through the second level and then to the third level, we cannot start streaming those energies until all those first and second layers are cleared.

Gabriel helped us get centered and prepared to activate two more Light Templates in this Conference.

The Requirement to Hold This Work Close to Ourselves

Melainah reminded us the to date we've retrieved seven Light Templates in the last two years which we have brought into our bodies, into the Grid, the Earth and the Inner Earth.

Joan Discusses the Two Light Templates We Will Receive Here

Joan said that the two Light Templates to be received in this 2018 conference are more potent energetically than all the seven combined that we have done. We are the vessel, the Chalice to receive these.

When the Streaming comes, they will be deposited in our Crucible first. And the Streaming will occur from different directions, but that will help us stream it into our bodies. And eventually, within that three months, it becomes an autonomic flow that continually flows through our bodies, that we don't have to/it's self-regulating. That is why it is so important to hold that in your personal space, your personal discovery, because what you need at any given time is specific to you.

To quote our teachers:

What you will experience this weekend is the closest to the Initiations you went through in the ancient Mystery Schools you have received in a body since that time.

02 Fri AM Remembering the February Gathering in Hawaii

Melainah recounted the experiences members from our group had in Hawaii in February. To that group (and all in the Crucible whether present or not) Metatron stated that the vortex in Hawaii is the most sacred of places on your planet, where all space-time converges, where you will start to experience that there are no limitations in your ability: You have no restrictions of time, space, or dimension.

And our ability to receive and hold the energetics was amplified by the Presence of the Whales and the Dolphins. And we will continue to build on this flow throughout our three days together.

When in Hawaii, the Group, all in the Collective whether they were physically there or not, also received through the frequencies of the Whales and Dolphins, with the Sirian Archangelic League, a vibrational sequencing that began a number of activations in each of us.

Release of DNA Structures and Light Codes

One of the sequences began a release of Codes in the DNA structures and Light Packets to allow more changes in the neurology of the physical body as well as another layer of clearing in the mental-emotional bodies followed up by the Easter call and the May 8 class call.

Light Codes and Our Soul Lineage

Also in Hawaii, an opening occurred which allowed us to receive a Light Code regarding our Soul lineage. And we will have more understanding and accessibility to this Coding after the Light Templates to be retrieved in the conference have an opportunity to integrate and can be held stably within the body without wobbles.

AnRaTa visits through the Whales of Sirius

AnRaTa, from the Sirian Archangelic League, visited us one day through the bodies of our Beloved Whales of Sirius and gave the directive:

“From this moment forward, you must carry that Knowledge of your Spirit, the Lineage of who you ARE at a Spirit level.

You must carry this forth for the remainder of your time on this Planet Earth.....”

Creation of the Ring of Fire

One morning the group toned into the waters and were told by the Ancient Ones that that a Unified Field of energy, of sound energy and in and on the current of this sound energy, within the depths of this environment, we received another version of the Heart of the Mother.

The energetic stream of energy followed everywhere on the waters and became the Ring of Fire which now permanently encircles our Crucible.

Elementals Now Able to Share Energetics

Metatron explained that the Elemental Community could now share in these energetics being brought forth through the Human and the beginning breakdown of the limitations of time-space, will enable the Elementals to begin to create from that format, continuing to raise up not only the Human but the Planet itself.

Metatron explained that this energetic Ring of Fire and Water is needed for a continual Stream between that Crucible, between the individuals within the Crucible, and the Elemental Community, uniting the Heart of Gaia and the Sacred Heart.

03 Fri AM the Lords of Light- Moving Forward

The Precision of the Conference

Joan reminded us of the precision that has gone into this conference: our conference calls, the streams of teaching, opening energetic vortices in Hawaii, and the Easter call and the Spring Equinox. So, if you look back since January how precisely everything got laid out. And it leads us to this very moment here. So that point is especially important for you to keep in mind that the precision of the orchestration of what we will be doing this weekend is just spot on.

Invitation

Joan announced that when we open the 6th Dimensional Time Lock and retrieve the 6th Dimensional Light Template, we have invited by the Sirian Archangelic League and the League that oversees that Portal to enter that Portal and be part of seating at the table. We will be invited to be part of Lord Melchizedek's Group

Holographic Projections from the Andromedan Galaxy

The Collective Consciousness of Lords of Light gave us a preview of the energetics that that we will be engaged in as long as we are embodied in a body on Planet Earth.

These energetics are holographic projections of Light that stream from the Andromeda Galaxy. The Lords of Light explained the importance of the Andromedan Galaxy and its history and fall and why the Earth was created to help restore Andromeda's original beauty.

The Lords of Light explained the Golden Era on Earth, how it influenced Andromeda, how the Earth declined and now Andromeda's desire to help return the Earth to its original beauty.

The Blue Crystal of Knowledge

The Blue Crystal of Knowledge was present in the Golden Era and held the Knowledge of All That Is, in the perfection of the All That Is. It was in transit at the final cataclysm, to be brought to another section of the Earth, and it was fragmented into a jillion-jillion bits and pieces.

The perfection of that Blue Crystal of Knowledge has been safely kept in Andromeda. And those Streamings are now available particularly potent in this particular energy field of the Earth for the conference and moving forward for many years.

We needed to have this information, so that we know why, and the Beauty of the gift that we have been given very precisely as we move along. And this Streaming will be engaged at a very potent level, as the conference opens the 6th Dimensional Light Template

The Etheric Crystal

So, there's another part that you were aware of, an Etheric Crystal that was given from the Andromeda at the very first Crystal Conference. And that it was/also resides in the Lake Portal, which is a very important entry point into clearing all of the grids in the Earth.

It's a very powerful Etheric Crystal that was gifted from the Andromeda Galaxy, because they know what it is to be where you are now. And it's imprinted with those reference points, so you can raise up in the perfection of who you are.

04 & 05 Fri AM Mineral Awakening and Anchi Crystals

Crystals Responding to Changing Frequencies

The Group discussed different experience with crystal. Some of the crystals now being retrieved are from a deeper layer as new frequencies are coming to the Earth

We are getting acquainted with a lot of different minerals. The mineral kingdom is responding. The Elementals are responding, through the mineral kingdom right now. Some are changing color.

All the minerals, all the Elements on the Planet are now operating at a higher frequency.

Anchi Crystals

Kathleen brought the Anchi Crystals to our attention. This is a very special stone, because it's from the Ancient of Ancients, from the most ancient mineral that we have on this Planet and that it holds the Heart of the Mother. They carried the Codes of our Lineage, our pure, pure Lineage.

After lunch Friday, we gathered in a big circle on the lawn near our Copper Pyramid. In Silence, we each received from the Anchi Crystals our unique, individual Codes from the Ancient of Ancients of what each of us really IS, Ancient Lineage Codes – Codes to awaken our remembrance that we ARE the Ancient of Ancients.

Anchi Crystal Ceremony Outdoors

After lunch Friday, we gathered in a big circle on the lawn near our Copper Pyramid, raised our hands out to the side, palms up.

In Silence, we each received from the Anchi Crystals our unique, individual Codes from the Ancient of Ancients of what each of us really IS, Ancient Lineage Codes – Codes to awaken our remembrance that we ARE the Ancient of Ancients.

The actual transmission went on for a good part of an hour, as we stood there in Silence, simply

receiving the transmission designed for each of us individually.

06 Fri PM An Ra Ta - the 6th Dimensional Light Template

Melainah Introduces the Collective

Be aware of yourself as part of the Collective held within the Crucible....

So, among the many who are here in the Crucible with us to help hold the frequencies, who will be assisting us today, are

The Sirians...

The Arcturians...

The Pleiadians...

The Andromedans...

The Luminaries are here...

As well as the Andarians...

All the Ascended Masters...

All the Archangels...

All the Lords of Light...

The 12th Dimensional Beings from each of the Elemental Kingdoms...

The Lemurians...

The Whales and the Dolphins,

who have been such a big part of our Journey over these last few years...

And all the others who have been working with us....

Remembering Opening Previous Time Locks

The first Time Lock was opened when Joan and John visited with me in Hawaii, in February of 2016.

Our 2016 Crystal Conference our mission was to open the 2nd & 3rd Time Locks.

The 1st Time Lock we opened as a Collective was the 6th Dimensional Lock.

At this 2018 Conference we prepared to open and receive the third 6th Dimensional Light Template

Arriving at the Sirian Star Gate

Melainah prepared us for the vibrational journey in our Merkaba to dock at the Sirian Stargate where we had been specially invited by the Sirian Archangelic League and the Sirian High Council of Elders.

We followed our Greeters into an enormous Great Hall, a massive circular room, bathed in Golden Light. Beings from all over the Universe were present. Once the Council of Elders were seated we were greeted by An Ra Ta.

An Ra Ta Speaks About the 6th Dimensional Light Template

An Ra Ta explained that this meeting has transpired at an etheric level in our Light Bodies but will be imprinted in our physical body's consciousness.

An Ra Ta spoke about the retrieval of this 6th Dimensional Light Template, a vast Template, larger than any we had retrieved thus far. It cannot be held in our physicality totally and completely for three years.

A portion of that autonomic Streaming of this Light Template would continue in our bodies—a portion of it within three months and a much larger portion within one year.

Each one of us, individually, was called forth by this Council to hold it within us, individually, very specifically and uniquely.

The 6th Dimensional Light Template

This Light Template incorporates all of the Light Templates we have retrieved thus far, but it is a massive, massive Light Template. It has electro-magnetic components that will be invaluable in the coming times of our Ascension.

It has electric charges within it that will enable us to create very precisely Ze'On Particles.

It will activate a level of the 4th Triad in ways that we have not known in this body. It has magnetic components that relate to our bodies, to a specific part – our emotional body – that is a very important part of our creative mechanism as humans.

It changes dramatically -- within us, for humanity, for planet Earth. The magnetics change the way in which we create. Not only do we create precisely Ze'On Particles, but the mechanism, of this magnetic field that runs through the 10th Ray of Creation where like draws like.

More About the Magnetic Field and Thoughts

This magnetic field that we received comes first before the thought. It enables us to use our emotions with precision from that more refined level, in Love, Unity, and Harmony. From that field of energy, we manifest.

We are more able to draw to yourself, with this Magnetic Coding, the likeness of who we ARE at that ancient level. Those Codes that have been imprinted in each one of us and are becoming activated will show us who we ARE and always have been. Our emotions will be so refined, the Element of Love so tangible. Thought will come automatically, instantly..... and how that thought is used, in precision.

Thoughts are also a part of this electro-magnetic field will be invaluable in creating the Ze'On Particles, which are refined thoughts from the Purity of who you ARE from ancient times.

You will, in the next three years, be able to alter and adjust the electro-magnetic field of your body, which is around and within your body. You can amplify it, or, if the physical body is having discomfort, you will adjust it accordingly, because the physical body is most important in your vehicle now. It is being adjusted in that electro-magnetic field. And as this Template comes online and streams into your physicality, the well-being of that physicality is the primary concern.

So, right now, we help you adjust that. But as this Template is integrated, you will make your own adjustments as needed.

There is one more thing you need to know about this Template. And that is that it also is imprinted by the Magenta Coding that you have learned about some time ago. And now it becomes a very valuable Coding, not only for this 6th Dimensional Light Template and its full functioning, but also the 7th Dimensional Light Template that you will be retrieving tomorrow.

So that's all we wish to say about this at this time other than to be very aware of that Coding within you, that you have activated some time ago, and how expansive that Coding is. It's an invaluable Coding. As you know, it contains all Color Codes and amplifies and uplifts to the original intention of Creation and usability of all Color Codes at that more refined frequency.

Light Template Held in Sirius C

An Ra Ta explained the Light Template is not held here on Sirius B, but in the complexity of Sirius C.

We re-entered our Merkaba Vehicles and were escorted to Sirius C by the Sirian Archangelic League.

We stood at the doorway of a massive vault.

We are told that the Light of this Template is like nothing we have ever witnessed. It is a Golden, Golden Yellow, and Christed Light. We will recognize it instantly, in that Ancient of Ancient Being that we ARE.

We then received the light and allowed it flow into our Sacred Heart Consciousness, most importantly, into our Soul Star and the awakened Solar Center.

There are three streaming points through which we received this Light Template.....

We were told that this vault would remain open until the full reception of this Light Template can be integrated into each individual body and that the Archangelic League would remain with it to make sure that the Streaming is precise and continual until it is completely integrated into the human form.

Returning to Earth

The Greeters escorted us back into the Sirius B docking station, where we entered our Merkaba Vehicles to return to Earth.

As we came closer to Earth, to the beautiful planetary vision of Earth in its original Christed state, we entered through this field and allowed the ancient memory, to see the Beauty of a Christed Planet and our beauty as a Christed Being of Light.

We compressed and densified into our present bodies, Light Bodies still engaged, Merkabas

spinning at 100% Light.

Stay in Charge of Our Bodies

An Ra Ta reminded us that our attention point is followed by our body's consciousness to be the leaders that we are to be in charge of our bodies.

He told us to direct it in ways in which it will be upgraded continually for the next three years, to sit in the brilliance of our Light Body and transmit to our physicality its original beautiful example of a Human Christed Being.

He told us further to initiate your body into Christ Consciousness at a level the body has not known for a long time. To be gentle. To adjust the frequencies, the magnetics and electrical components so there is no disturbance within the body.

Departing Instructions

Before departing, he further instructed us to remain in the space as long as we desired.

When we leave the energy of this room, remain silent to help orchestrate the Streaming in a very precise way, and individual way.

Take it in and discover for yourself all of the intricacies and vastness of this Light Template.

An Ra Ta told us that the Streaming would continue in each one of us throughout the night and when we met again, Yeshua would come forth to bring us the 7th Light Template.

07 Sat AM Day's Overview and Group Discussion

Joan Previews the Day

Joan told us that the Element of Love is in the body- it's not "out there."

The 7th Light Template alters the configuration of the body, the physical body. So, we are in the body, but we are in the body in a whole different state of consciousness,

Yeshua has told us that in his Presence today, even though he's not in the physical body, this is the Second Iteration that he came to Earth to set for humanity.

Gabriel guided us in opening meditation and the streaming the energies to prepare us for receiving and integrating the 7th Light Template.

Group Discussion

Some of the topics and questions discussed were:

--If we do not remember hearing something did we still get it? Yes.

--Yesterday was basically like a foundational piece. And that had to be in place to hold the vastness of what today's Template is about. That Template is massive and will take time to integrate it. And we're just streaming parts of that. Well, that Template is so massive it does not even have a geometry. And so, we're always going to be receiving more and more of it. And you won't know necessarily consciously what it is you are receiving, but it is definitely becoming a part of you. And then as we go forward and the teachings go forward, it will come online, and then you'll know more and more what it's about.

--The importance of grounding .

The 6th Dimensional Template has components of the Dimensions. It's vast and beyond the rational mind to comprehend.

--A suggestion from Jody taught by Metatron was to first to absorb, then to know, then comprehend

--Joan related what Master Kuthumi has said many times, "It's not so much in the learning; it is in the experience. And through the experience, you know."

--Are there activities we should be doing to help us integrate all of this? Joan reiterated what An Ra Ta told us to hold these experiences privately within you.

--Joan: My take on it is things are surfacing now, if you pay attention. A lot of the mineral kingdoms are drawing your attention to them. And they're touchstones. They're physical touchstones of a non-physical event that is happening within you. And so, like Melainah said, there's only one Stream of Source Energy, and it takes on many different iterations, many different densities, textures.

But if you can think of it in that way, that they're physical representations of a non-physical event that draws your attention to that event within you and helps you remember it... And so that's the way I view the surfacing of those crystals, those Ancient, Ancient crystals – to awaken those Memory Codes within you that you ARE the Ancient of Ancients. And it was a very profound experience as you received it out there in the Light!

08 Sat AM Retrieving the 7D Light Template with Yeshua

Preparation

Melainah guided us with preparation for a profound journey with deep breathing, setting our grounding cords, and being in our Sacred Hearts

We visualized our Crucible being sent ahead of us floating in Hawaiian waters in the vortex of no time-no space, surrounded by the Ring of Fire.

We formed a circle around the Ring of Fire and the Whales and Dolphins formed a ring around us.

To prepare ourselves for the day, we followed ancient cleansing/purification ritual. Immersing ourselves in the water three times, we stated our intentions of to ourselves and the Water Elements what we want to release and what we want to receive.

Next we swam through the Ring of Fire toward the Crucible. Entering the Crucible, we were greeted by the White Fire Dragon, who had prepared this Crucible with the frequencies needed for our Journey.

Returning to the 7th Dimensional Time Lock

We presented ourselves to the White Fire Dragon, the guardian of the 7th Dimensional Time Lock that we opened last year.

We opened another dimensional doorway that is that is held in a very different frequency band of this massive time lock.

With our individual consciousness we traveled with the White Fire Dragon through many Dimensional doorways through a non-physical hallowed sanctuary where there is no time or space.

12th Dimensional Beings from the Elemental Kingdoms

We acknowledged 12th Dimensional Beings from each Elemental Kingdom who joined in a Diamond shape around the sealed door. They all presented in a pure White color:
the Lion from the Element of Earth positioned above the door,
the Great Whale and Dolphin from the Element of Water positioned to the left of the door,
the Great Winged Ones from the Element of Air positioned to the right of the door
and the White Fire Dragon positioned below the sealed door.

The Four Archangelics Who Guard the Etheric Crystal and Lake Portal

We welcomed and acknowledged the four Archangelics as they entered this space and took a position next to the Great Elemental Beings:

Archangel Uriel at the North with the White Lion Earth, representing the Element of Earth.
Archangel Uriel holds the Wisdom of Source and helps individuals create through the Wisdom

of their SoulSpirit.

Archangel Gabriel at the West with the Whale and the Dolphin, representing the Element of Water. Archangel Gabriel inspires us through the massive Light of Source and transmits messages from the refined Creative Realm.

Archangel Raphael at the East with the Great Winged Ones, representing the Element of Air. Archangel Raphael holds and transmits the Healing Light of Source in the Divine Love. He helps us Love and accept ourselves.

Archangel Michael at the South next to the White Fire Dragon, representing the Element of Fire. Archangel Michael holds the purity and the integrity of the creative energies of Source. He protects, guides, and directs individuals to courageously live their life and to discover a closer relationship with the Source of their Being.

I will ask you all now to please Stand -- physically.....

We were aware and conscious of who we were and repeated
Ehyah Escher Ehyah...
I AM THAT I AM.....

...

The 7th Dimensional Light Template Reopened

With our Collective Mind, with the highest of intentions, with our Sacred Heart wide open, and from a place of Grace, we asked Archangel Michael to break the seal and open this doorway.

As the door opened, we observed the four Archangelics enter the doorway to retrieve this Template and beheld the brilliant elongated Diamond with an Archangel at each point. And Yeshua emerging from its center.

Yeshua Delivers the Light Template and the Template of Love

Yeshua came forth in the Beauty of this Light Template, in his Second Iteration to deliver to you this Light Template and the Template of Love, radiating the Magenta Codes. This Light is infused by the Magenta Coding.

Each of us as individuals received this Code individually in this Diamond Code.
We each received this Template that will be with us in this life and through eternity.

We stood with Yeshua, joined Heart to Heart, in the middle of the Diamond, this Magenta Diamond. We were joined in our Sacred Hearts, Heart to Heart, Soul to Soul, expressing our Divine Individuality, being our uniqueness in the Realm of Source, never again to be divided, unified in the Element of Love.

Imprinted with this Code we were told to hold it in its Divine Integrity from this moment forward to embody it. And as we walk the Earth, to transmit it in its full and complete expression.

With the Magenta Code within us we were told to feel it flowing through our every part, every cell. It is altering our physicality, uplifting it, bringing it into a 5th Dimensional state of consciousness that will never again waiver. It is imprinted at the cellular level of you,

individually and collectively.....

We sat and rested as we watched and listened to incredibly beautiful Hallelujah Music Video showing the Beauty of our Earth.

Yeshua Closes the Morning with Another Transmission

“You have received much more than the 7th Dimensional Light Template. You are united with the Source of your Being. Your Hearts, your Sacred Hearts, are forever opened in a way that you had never known in this embodiment. Be in the Silence what you have received, not just in your consciousness, but in your body.

“Be in the Silence of that. When we come back this afternoon, Beloveds, I have so much to tell you, that I have been waiting to tell you. So rest, Beloveds, in the Love that you ARE. Allow yourself the Love that you deserve.”

09 Sat PM Saturday PM Yeshua Message

Melainah Prepares Us to Welcome Yeshua

Melainah led us in a centering exercise with deep breathing and instructions to be aware of our connection to our Earth Star and Soul Star...to feel the expansion of our Sacred Heart, the Streaming of that 6th Dimensional Light Template, coursing through your body, through your Soul Star, into your Sacred Heart, through all your chakras.

We instructed to be aware of that 7th Dimensional Light Template and how that felt in our bodies, to feel the presence of those four Archangelics in the room.

Melainah shared the a few days ago, Yeshua revealed that he has left his Light Body. He has moved beyond that. The four Archangelics are here to help him, to help hold the space, so he can come and visit closely with us. We welcomed Yeshua.

Yeshua Explains the Magenta Coding

Yeshua provided more detail about the significance of what we had received,

He explained that although we have known about the Magenta Codes, nothing specific had been said about their importance at this juncture of our transformational process. The Magenta Codes carry all Color Codes. But what makes them different is the way in which they act or perform in the physical realm.

Magenta is the 8th Color of the Spectrum

On the Color spectrum, the color of the rainbow, there are seven colors. This is the eighth color. And this Magenta Code is not linear. The rainbow is linear. The Magenta Code operates in a circular manner. And in that circularity, it brings the body into Unity

with 5th Dimension. The Magenta Code flows through your entire cellular system of the body, bringing unification into the body, through the cellular system – a very powerful Code.

Magenta as a Great Unifier of Body/Mind/Spirit

All of its uses not given until our consciousness can receive it in full. It does not enter the body in a significant way to make the alterations in the body consciousness as well as our consciousness. So, it has great value in this unification piece, bringing body/mind/Spirit together in one unified expression that begins at that 5th Dimensional level, in a very circular level, where there is no beginning, no end.

If we can only realize it, there are no restrictions in our creative ability, starting in that 5th Dimension.

7th Dimensional Light Code Brings Element of Love to Manifest in 5th Dimension

And that's what this 7th Dimensional Light Code is all about, because it brings in the Element of Love. And the Element of Love must be present in your ability to manifest in the 5th Dimension in a precise way, as a reflection of who you are at that Spirit level.

In the 3rd dimension, you use elemental energies: water, fire, earth, air. Not all of those often are present at one time, as you create. In the 5th Dimension, all are unified, along with the 5th Element of Love. This Magenta Code helps you seat that Element within your body as well as your consciousness, so when you manifest, you manifest in precision.

Magenta Code Continually Streams in Our Cells, Sacred Heart and Soul Star

Now let's talk about the Magenta Color and how far reaching that is. It's in your cellular system. It's in your Sacred Heart. It's in your Soul Star, where all the memories of you are at a Soul level and at a Spirit level. And it transmits through the body continually, streaming that Magenta Coding through the body, through your consciousness.

The Significance of the Elongated Diamond Shape

Now, you when you received this 7th Dimensional Template, you received it in a very specific geometric progression. It was an elongated Triangle, a Diamond shape, Diamond shaped. And when I asked you to receive, notice the way I hold my arms. Notice that.

There is an energetic line that runs through that Diamond. It is Magenta in color, carrying the Color Code. It runs here, through the Sacred Heart at the shoulder level, not the physical heart level.

When we retrieved the 7th Dimensional Light Codes we met in the center of the Sacred Heart where all is unified. At this shoulder level we realize the unification of who we are

as Divine Spirt and are continually ascending through this center.

(This is **not** the extension at the physical heart as depicted as the archaic event of crucifixion.)

The Magenta Diamond is dimensional with facets that will take at least three months to start streaming. And then there is this massive spin that takes place and all of the lines converge in one huge Magenta Spinning Force – around you and within you. It ignites every part of you!

Yeshua strongly expressed the significance of the 2018 Conference in that the 6th Dimensional Light Code stabilizes and brings equilibrium and balance to the entire system, It begins to enable you to manage the electro-magnetic field of the body, around the body, and contribute to a balanced electro-magnetic field in Christ Consciousness of the Earth.

Both Light Templates operate together. And they support each other. They support us in being all that we ARE, all that we have ever been, from the very moment we were created through the Mind of the Source of your Being. (Not the same as the physical birth of these bodies.)

The Importance of Holding This Within in the Next Three Months

So, this whole series of events in two days changed you significantly. It will take you at least a year to really fully realize the impact. Yeshua asked that we hold this within us to

honor ourselves in the next three months.

Yeshua assured us we will have no doubt going forward. Will recognize that the 5th Element and the Power of that Element, is not to be superior, but to be who you ARE, to be the Love that you are and transmit that.

Yeshua asked us not to stream these energies into the Earth for at least three months

and we would be guided and told “Now is the time to start streaming into Mother Earth, into the Earth Star, into the Sacred Heart of Mother Earth, into the Christed Matrix.”

The Significance of Unity and the Purity of the Fire Element

Yeshua explained that when he walked the Earth was to begin to plant the seeds for Christ Consciousness, to plant the seeds that there is value in the human, each human has value. Very difficult for people to understand that.

This Second Iteration that I have come into your Crucible to deliver this 7th Dimensional Template is the next iteration. It is to seat the Element of Love on the Earth. To seat it again, because it has been missing since the fall of consciousness.

We talked about the flame around the Crucible, the magnificent flame, the Fire energy. Notice that flame now. It is White! Purity.

The Fire Element is Purity; it's the cleansing that you have provided in your Crucible. The Purity of this Crucible and the Element of Love. The pure expression of that through your body, right here [Sacred Heart]

How We Have Nurtured the Christed Matrix

In 2011, I came to many of you and told you that I was to return the Christed Matrix to the Earth, to the center of the Earth and the Heart of Mother Earth. And I also returned it to every human, whether they were awake or not, in their Sacred Heart. You took that into your Sacred Heart. And even though it wasn't fully activated, you have continually nurtured it, so it brings us to where we are today, where that Sacred Heart and that Christ Consciousness and that Matrix are pulsing because of this Element of Love and the Magenta Codes, pulsing continually in your body, each one of you, in its own unique expression.

What is Yet to Come

This is how dynamic these two Light Templates are. They are multi-dimensional, not just 5th/6th/7th Dimensional – way beyond that. And it won't be long, as you embody these Codes, as you embody these Templates, that you will touch into those refined Dimensional sequences. That is yet to come. But you are up to the task. You have stood up. You have done what is necessary to bring you to where you are today.

10 Sat AM Jean Luc Image and Group Discussion

Jean Luc New Image

Joan and Melainah share a new Jean Luc image, a beautiful representative of what we're working with now in that Diamond shape and the Magenta Coding and the Element of Love as it expands in your consciousness, bringing all the Elements together.

They suggested that we can only hold the basic geometric forms. Once they are seated and integrated and the as that spin comes into place, the facets will evolve into further

geometries.

Joan said that she loved how the Divine Feminine comes through. Both Joan and Melainah also thought that this is a great representation of our Earth Star and the Earth's Soul Star right here that she's anchored into. Also there is the the Dolphin, the Element of Water, the sacred geometries.

Joan said that she hope we noticed how we are such a coherent group because of the Presence of this Crucible. We are beginning to realize some of our mastery.

Group Discussion

Group discussion included the following topics:

How Yeshua explained how he no longer needs his Light Body, how it was his time to begin an Ascension process outside of any restriction. He is One with the All That Is. Now we humans are stepping into that to bring the Christ Consciousness and hold it on the planet. We are the next iteration of the All That Is.

He also said that everyone of us was a part of that Essene community, present at the time to help him hold 5th Dimension. And now we need to take that in at a new level!

These two Light Templates – you will be discovering things you could have never dreamed of!

And it's only in that Silence that you will discover that for yourself.

Yeshua can't tell you that, any of the Archangels can't tell you that, you have to experience it to know it.

There was more discussion of the cross and its multi-dimensional potential. Joan emphasized how the Archangels want us to concentrate on is that very basic Diamond, very basic, with the Archangels in place and the center in your Heart. It is around you, starting at your Soul Star, in your auric field, and within you.

The group discussed how they are aware of the cross in many signals all around us.

There was a discussion about how the Color Magenta Color Coding starts in the Sacred Heart and radiates in all directions. The Soul Star is that color.

Joan reminded us to keep looping it through our bodies (like a toroidal field) but not to stream it into the Earth for the next three months.

Joan encouraged us to explore for ourselves what this all means and not to get too caught up in our rational minds.

12 Sun AM Archangel Gabriel Opens with Joyous Message

Following John's jokes met with up uproarious laughter Archangel Gabriel opened with this joyous message.

Gabriel asked us to remember this moment of Joy and Laughter. It SO important, because these Magenta Codes, this Template of Light, the Template of Love, the Element of Love cannot fully be received outside of Joy, because you will doubt you are worthy to have such Joy.

Having humor in ALL aspects of our lives will change you.

A good belly laugh is helpful to keeping the chi, the Solar Light that you are, moving in the body, changing the body, altering the body to that more refined frequency.

Sometimes when these more refined frequencies bombard the body, we become very serious.

And you become very contemplative: "Am I capable?" "Am I good enough?"

Always come back to the Joy of life. That is vital to the vitality of the body to keep the body in that vital energetic flow, in health and well-being. Without the Joy for life, for what you are experiencing, what you came here to experience, the vitality drains. And eventually you lose your vehicle.

13 Sun AM Lords of Light Set the Streaming Process

Melainah's Comments and Centering:

Melania's comments reminded us to open our Sacred Hearts now pulsating with the Magenta Code pulsing through our bodies, all of our Being. There is no separation between those Templates, that Magenta Code, that 5th Element, and us. We are it.

The Streaming Process Concepts

Joan asked that we receive the Lords of Light, because they were present, even though she was reading from previous messages received and also channeling them for the sake of precision.

Purpose of the Streaming Process

The Streaming Process will improve our ability to direct various attention points and energetics in multiple dimensions, in multiple directions, and for many multiple purposes.

The Lords of Light are initiating us into that process of streaming energy, not just Light energy but dimensional frequencies.

Streaming Inward and Outward

We activated that Solar Center and began streaming from the Soul Star into the Solar Plexus and then into the Solar Center where the sovereignty is gained.

Sovereignty is gained at the physical level to direct various energetic components, both inwardly and outwardly. These energy channels for streaming can be used to stream energies with the energetic system, the body, but also outwardly transmitting to the Earth, the Elemental Community and into various dimensional sequences.

The Lords of Light implemented the Streaming Process on this day. They installed a Light Template specific to this process. This Light Template is part of the 6th and 7th Dimensional Light Template that we have just received. It is a mechanism that is built into each one of you, because it has electro-magnetic currents.

It has a unifying expression within the body. This unified expression is Love and Unity, which is part of that beautiful geometry that you received yesterday – the Diamond, the Magenta Coding. The not only carries Light frequencies, it carries Sound frequencies, it carries Color Codings, to be made usable in various parts of the body and parts of the energetics, and then transmitted out to receive more merged Streaming coming into the body through the Dimensions.

It will be continually added to and expanded upon. These are only basic techniques. Previous retrievals of Light Templates will be woven in the Light Templates received in this conference. We have to start with what you already have as a result of previous retrievals of Light Templates.

The process of development is

1. Streaming energies within you to improve the vitality of the body
2. Drawing from the 5th, 6th, and 7th Dimensions to bring that energy into the body, into the Solar Center in the body, and then distribute it within the body,
3. Recognizing how these Dimensional sequences and those more refined levels streaming from Andromeda are helpful.

The Streaming Process and the Blue Crystal of Knowledge

This streaming energy relates to the Etheric Crystal, and most importantly at this time to the Blue Crystal of Knowledge.

Although that Blue Crystal remains in the Etheric in Andromeda, there are remnants of that physical Crystal deep within the third layer, the bottom layer of the Crystalline Grid. There are splintered shards of that Blue Crystal that will start to come online just like so

much of the mineral kingdom is coming into your space now.

Those shards will start to activate, because we are holding these Light Templates in our bodies and getting the higher frequencies streaming from Andromeda.

They are coming through the Etheric Crystal, which is the stepping down mechanism of that 2nd Ray of Creation. We receive the purity and the integrity of the Blue Crystal of Knowledge transmitted into the Etheric Crystal. It makes it more palatable in the physical, for you to receive it into your body.

Because we have bodies, we are activation the influx from the Earth. We have this Streaming coming from the center of the Earth, through our bodies. We have it coming etherically through that Soul Star into the Solar Center of our body, where it is whirling and affecting change in the body. The Solar Center starts to grow. It's not just a small, little center. It encircles the entire body and radiates.

Andromeda Galaxy's Service to the Earth

The Andromeda Galaxy is of service to the Earth at this time. It has held all of these etheric energies in its precise integrity in which it functioned in the Golden Era of Earth, for billions of years of our timeframe. They are capable holographically of projecting this now into the area of the Earth.

But they are also capable of projecting it through this Streaming mechanism that we will now engage in our bodies, in our energetic fields, into our consciousness, at that more refined level. All of that Streaming from that Andromeda, the integrity, the purity, will come through our Soul Star. And those projections into the Soul Star will be held there until we are capable of drawing them with intention into the body, into the Solar Plexus, into the Solar Chambers, and then engaging and streaming all parts of ourselves and distributing those into the Earth.

The Benefit to Us Personally

Since this Conference was all about personal transformation, the Collective explained the benefit to us personally. The Streaming mechanism allows us to hold in the consciousness of our Solar Star minute portions of the Blue Crystal of Knowledge.

Three Processes Explained

Lords of Light: “ It will be three processes. So, first on how you will receive the Streaming, recognizing that it is coming from the Andromeda Galaxy, through the Blue Crystal that is held there etherically, and then through the Etheric Crystal that you have access to at the site of the Lake Portal. And you already have connection to that Etheric Crystal. You worked with it for the last three years. And you have been unconsciously streaming from it. Now we bring that to your conscious awareness.

“You have, over the last two years, begun to have trust or a relationship with the Andromeda Galaxy. For some of you that wasn’t an easy task, because you remembered when Andromeda operated at a much different frequency. And we have talked to you earlier in this Conference about that, so we won’t belabor that, because that is no longer the case. And Earth will soon follow suit, through Beings such as yourself.

“There is a piece that we want to integrate into your energetic system through the Streaming mechanism, and when I have finished the basic concepts, we will lead you in that Streaming, to start integrating that into the body.

“And this piece is to draw through the Blue Crystal of Knowledge, through the Etheric, into the Solar Plexus, and into the Solar Center. The Solar Plexus and the Solar Center of the body relates to Power through Knowledge, through the Element of Love -- far different than what you have ever experienced. It is through Unity Consciousness and through the Template of Love and the significance and importance of these last two Templates that were retrieved. And then again, nothing to do at this juncture but to know that it’s in play, through your body and into the Earth, operating from the Earth, up

through the channels of your body, from the Earth, from those Shards, physical Shards of the Blue Crystal.”

Lords of Light Deliver the Streaming Process

Each day upon waking create a new grounding cord so that we stay grounded in the physical and feel the energy flowing from the Earth through the shards up into your body, into the Solar Center here

Feel that Streaming from the Andromeda, the Blue Crystal of Knowledge in the Etheric, from the Etheric Crystal down to the Solar Center of your body, through the Soul Star down through the body merging in the Sacred Heart Consciousness. Hold that complexity of your Unified Field, all of your chakras resonating with that energy.

Feel that Streaming again as it enters the Soul Star and immediately streams from the Soul Star into your Crown chakra, down through the Pineal, 3rd Eye, through the Throat chakra, into the Sacred Heart Consciousness, into your Heart Chakra...

Feel the Love, the Unity, the Power through Knowledge to the Solar Plexus, the Will and Power merged with that Knowledge, Integrity, Love, Unity Consciousness, breathe that streaming into your Solar Center of your body. Your body consciousness begins to receive it...

Direct the Streaming down into your Sacral Center, into your root center, altering the way in which you create your physical life experience.

Now, direct it down through the legs into the bottom of the feet, through your grounding cord and into the center of the Earth

The Earth receives, the Elementals receive.

FEEL the vibration coming from deep, deep within the Earth, that beautiful 3rd layer of

Crystals of the Golden Age, as those Shards of the Blue Crystal are awakened and begin to vibrate very slowly. Those very slight vibrations, they rise up to the center of the Earth, where they are gladly received into the Soul Center of Earth

You are completely unified in this Streaming of energy...

Sit in this Love energy and do nothing but receive.

Automatic Functioning Now Engaged

This Streaming has an autonomic function, each of us receiving exactly in the increments and the preciseness that is needed. We have nothing to do but receive.

After directing our attention back into our body and being very present, we noticed how the Streaming continued in our bodies. It does not stop when we direct our attention elsewhere.

We must function in daily life in a whole different, vital way. It's no longer appropriate to leave the body. We have sovereignty in our bodies and need to direct your attention where it is needed.

15 Sun PM Final Message on the Crystalline Grid

Melainah open the session with a centering meditation.

The Collective Consciousness of the Lords of Light deliver a closing message.

What is Happening to Earth's Crystalline Grid

We are told that we have facilitated much within this grid in the last three years Individually and Collectively we have offered our Love, our Grace, and our attention to some minute details through our bodies, intentions, focus and your attention. We have offered the Love we hold in our Hearts for Mother Earth and for the Elemental Kingdoms, for the minerals within the Earth, above the Earth -- the plants, the flowers, the air – all of it.

The Division and Re-unification of the Crystalline Grid

After the fall of consciousness and as the Earth began to awaken in a 3rd dimensional frequency range, there was a division between the northern and the southern hemisphere that remained within the Crystalline Grid for a very long time into the present time. That grid, through our interface and the interface of many, all over the world, has been united. **The southern and the northern hemisphere of the Crystalline Grid is now united.**

All the crystals around the world, around your Earth, are resonating in unification, uniting all parts of the Crystalline Grid. We are contributing to the solidification of the Grid with the Unity we hold in our bodies.

Pay attention to the different vibrations, different frequencies of many of the crystals we possess. Pay attention to the changes that are occurring, within your locations where you live, where you walk, and how that is changing and expanding as well as you are.

Gathering to Close the Conference in Gratitude

We gathered in a large circle in our beautiful conference room, filled with members of our Crucible and so many of our mineral friends. We closed with a gratitude circle, where each participant physically present shared what they were most grateful for.
