

# 01 Fri AM The 2019 Crystal Conference Opens

## Special Conference Preparation

We entered the room one by one, pausing at the threshold of the doorway (as we did each time we entered) to quietly state to ourselves our Intention for this entire Conference while Joan, John, and Melainah were standing at the front of the room, with the Beings of Light, to receive our group.

One by one we stated our first names to create and energetic web

The Light Beings attending were all the Ascended Masters, the Archangels, the Beings of Light, the Sirian Archangelics are here. The Andromedans, the Pleiadians, the Arcturians, the Winged Ones, the great Dolphins and Whales, the White Lions, and the White Fire Dragons are already here to receive each of us in our own time.

Our leaders asked us to do that to keep this space Sacred and Quiet.

At Metatron's request, the Energetics of this room have been set to flow, at a minimum, to the 5th, 6th, & 7th Dimensional frequency range. The baseline has been set at 5th Dimension, not the 3rd or 4th.

Also, the four Archangel Keepers of the Etheric Crystal have already been here and have brought and placed the Etheric Crystal. And you might notice, has a few little new facets and it's changed in a year, That Etheric Crystal is an amplifier, a conductor, a generator, and a receiver.

The Mineral Kingdom has requested to be more involved with our Conference this year, so as to assist us in holding that baseline. The Etheric Crystal has or will calibrate all Crystals, Andaras, Anchis, and other Stones in the room to maintain no less than a 5th Dimensional frequency. They will also increase the calibrations of everything in the room, including the Pyramid when that gets placed outside, when it dries off enough. You may have noticed that your Crystals and Stones have been lighting up recently, and they've asked to be brought here.

Archangel Gabriel guided us in an opening meditation.

## A Brief Review of 2019

John gave a brief review of the 2019 teachings: followed by a morning break.

- A lot of the Teachings started around Holographic Energy and how we will be receiving the Teachings in that format during the year.
- Master Kuthumi led us in an activation of the Medulla Oblongata.
- He helped us activate a refined function of the Pituitary Gland. The upgraded function of this gland affects the mental-emotional body and the Eye of Horus.
- Master Kuthumi also taught us about the 4th Triad and the Arc of the Covenant.
- He discussed the new and expanded electrical charges that were brought in because of the 6th Dimensional Light Template. These Electrical charges further activate and affect the Seed Crystals and keep them humming in resonance with the Sound Currents.
- The entire neurology of the brain has been upgraded.
- Next, Master Kuthumi helped us to close the door to the negative influences of our genetic lineage, which to me was a very major event.
- We were able to seal the door to the first two Strands of DNA.
- Archangel Michael introduced us to the beautiful Fire Dragons. He helped us see how devoted they are to Humans, the Earth, and our Ascension process. They remove negative interferences from the denser dimensions. Michael encouraged us to call on the Fire Dragons often. And, as you know, he is the Overseer/Leader of that great group.
- Next, Master Kuthumi led us in an activation of the 3rd Strand of DNA.
- We placed that 3rd Light Packet also into the 3rd DNA Strand.
- Master Kuthumi also talked to us about how the Double Helixes are connected and form a unification within our DNA system.
- We opened more Axiatonal Light Channels that extend into the Earth, the Solar System, the Milky Way Galaxy, and the Andromeda Galaxy.
- We also created a unified Energetic alignment through the Light Channels with the Beings of the three Star Gates.

## 02 Fri AM Melainah Guides Us to the Cosmic Light Temple

With a beautiful multidimensional Flower of Life showing on the screen in the front of the room, Melainah invited us to get comfortable and take a couple of deep centering breaths.

We became aware of ourselves sitting in this Crucible with all these beautiful Beings of Light and of our Light Bodies in our Merkabas.

Sitting within this Crucible in this Group Collective as we would throughout this Conference, we became aware of the Presence of all the wonderful Beings of Light who have joined us.

We became aware of the Light frequencies and the Sound Currents moving throughout the Crucible as the Energetics increased in intensity.

We each allowed our internal vibration to speed up as we increased the spin of our Merkabas.

We noticed how the intensity increased as we were One with the Vibration and Sound and perceived a beam of Light coming into the Crucible AND into our bodies.

With a deep breath and our intention, we allowed ourselves to be lifted up in the beam of Light, higher. and higher. As we were transported through the many Dimensional frequencies and pathways, we maintained the awareness of our Presence in our physical bodies within the Crucible as our Light Bodies and consciousness were being lifted.

We reached our destination and entered a place of no time and no space.

### Entering the Cosmic Light Temple

We found ourselves in the Cosmic Light of all the Higher Realms and felt far removed from the outer world, inside a Cosmic Light Temple, a curious place.

Even though we traveled as a group we each experienced this as an individual only aware of ourselves as an individual. We did not see anyone else. It became up to each one of us to

become familiar with and hold the frequencies that you will receive here uniquely within our own Being and physical body.

Now laid before us like a rug, we saw a large Flower of Life symbol.

As individuals we sat in the beginning circle in the Center where we may have had memories of being there before.

### Creating a Bi-directional Pathway

Using an Etheric Cord of Light, we allowed our root chakra to connect to the center of the circle. We next expanded the connecting Beam of Light in the root chakra and allowed it to move up into our Sacred Heart.

This pathway was bi-directional. The Light flowed up and down from the Flower of Life to our Sacred Heart, using the same pathway.

Feel the flow of Light as it moves up and down.

Up from the center circle of the Flower of Life into the root chakra and up to the Sacred Heart, then back down into the root chakra into the center of the Flower of Life.

We set in place our intention that this flow of energy would become automatic from this time forward.

### Holding Our Vibratory Rate

To assist us in increasing and holding our vibratory rate, Melainah guided us through ten sets of the 4:8 breath count in a set of 10. We breathed in through our noses and exhaled through our mouths. This breathing exercise also served to stimulate both our pineal gland and vagus nerve.

While the goal is a set of 10, we were instructed to reach our own threshold without going unconscious or leaving the body since we cannot hold the Energetics if we are not conscious.

We were told to notice how the Flower of Life surrounding us had slowly begun to transform. While it is transforming, we placed our attention on our Crown chakra and our Soul Star.

We expand our Crown chakra as much as possible and saw a beautiful Lotus-shaped, crystalline structure that sitting within our 7th chakra.

Allowing that crystalline Lotus to rise and rest in the space between our Crown chakra and our Soul Star, we continued to breathe, to stay conscious and hold these frequencies.

### Receiving the Light Particles from the Central Sun

We opened to receive a stream of Light Particles coming from the Central Sun.

We allowed the 12<sup>th</sup> Dimensional Magenta Color Coding carried by the Light Particles, to come into our 4<sup>th</sup> Triad.

As we brought the Magenta Coding through our 4<sup>th</sup> Triad, into the Lotus structure, we noticed how it began to vibrate and became a deep vibrant Magenta Color, allowing many Holographic Light Frequencies held here to once again turn on.

Holding the frequencies and staying conscious, we watched as the Lotus became brighter and brighter with the activation of these long-held Codes of Light that have remained dormant for eons of time

We allowed the Magenta Codes of Light to flow through the crystalline Lotus into our Crown chakra. As the Crown Chakra adjusted these Light frequencies, we allowed the Magenta Light Codes to continue to flow, filling our 3<sup>rd</sup> Triad and allowing the Light Codes to also move and circulate throughout your brain. We noticed our Pineal center and your Cosmic Eye lighting up in a new way. We c

We continued the flow to the 2<sup>nd</sup> Triad, noticing how the Seed Crystals were lighting up, brilliant and luminous.

As the Magenta Light Codes flowed and expanded into our Sacred Heart Center, our internal vibratory rate began to increase matching that of the Magenta crystalline Lotus of Light.

We brought the Magenta Light Codes into the 1st Triad, filling our bodies a rarified, brilliant Magenta Light. Throughout the conference the Magenta Light flowed through the Lotus Light conductor, allowing the Energetics to clear any disharmony, filling the body with the Magenta Light frequencies

### Flowing the Magenta Codes into the Flower of Life

As the Magenta Light Codes flowed through the Electric Energetic Cord into the Flower of Life, there was an explosion of Light, as the Flower of Life was filled with the memory codes of all we had ever been.

Melainah reminded us that we have always been a part of the Flower of Life, but most of us have forgotten it, as we fell deeper into separation from the All That Is. With this conscious remembering, we would not forget this again in this incarnation, if we so chose.

The Energetics of the Flower of Life is an important aspect of us just like our Light Body  
The remembrance of this can be a big game changer for all of us.

### Returning to the Room

We left this Cosmic Light Temple, and holding these frequencies, we returned our awareness to being within the Crucible and within this room.

We were now holding a 7<sup>th</sup> Dimensional frequency in our bodies. We were asked to maintain it throughout the conference.

We were told we are each awakening Masters beginning to know our fuller expression. This weekend would be the next level of our Mystery School Initiation to our own awakening.

## 03 Fri AM Who Are We?

Prior to the conference Melainah asked Metatron a question and was so moved by the answer that she asked if he would share it with us at the conference.

The question was: "Who are we? Who is this Seating of the Divine Group that has come together at this time to do this work?"

### Metatron's Answer

Here is a summary of Metatron's answer that he transmitted in 7th Dimensional frequency

He explained that we were not being told this to stroke our egos, to make us feel more important. We were told to take it in his words at that 7th Dimensional level, into our Light Body, into our Sacred Heart, and experience it, accept it.

We have no idea the magnitude of who we ARE at this moment, not just at our individual Soul level, but at that Spirit level, when we emanated from the Source of all that we are.

### We Are Each a Unique Master

Every one of us is a unique Master, a Master beyond our comprehension.

We came here, at this time in the resurrection of Humanity and the Earth, at great expense and danger to our Mastery.

We were willing. We did not sacrifice ourselves because we knew full well from that level of Mastery what we were proposing at the level of Source.

We entered a human form to change and alter that form, to change and alter the environment of an Earth that needed to move into another Dimensional Realm. This could only be done at a physical level. We are the Masters of many that took on this project.

When we entered the human form, everything in our awareness was wiped totally clean. We had no memory. We entered from ground zero of those bodies that we took on.

And it was our duty, then, to step by step work through the lineage and begin to open dimensional gateways, awareness of our uniqueness -- slowly.

For many of us it has taken the better part of this lifetime to be able to hold some, a minute portion, of our Spirit in our bodies, in our consciousness. This awareness changes the body.

It upgrades the human body to a 5th Dimension. It transmits through us into the Earth, so the Earth can rise up and begin to create an environment for those who will come after us. This has taken the better part of this lifetime. It is not finished. There is so much more that has to be done.

We are the Way Showers. We volunteered. There was great danger in that we would be caught in a karmic wheel and stay at that ground zero. And it would be a long, long process to come back into the state that we entered this body. But we were willing. We knew that with help, this would be done.

We were not ready to hear this before now, because there was great danger in an interference from the body's ego. And that would be very detrimental, not only to this project, but to us personally.

The Beings from the Higher Realms agreed to support us when we walked in the darkness and the denseness and very gently uplifted us to this time when we were ready to hear these words

We are to be joyful. We are not try to recover the massiveness of who we are, but begin to awaken more and more, from the gentleness of our Heart.

This whole Seating of the Divine project hinges on that Mastery.

Beings from the Higher Realms have tried to prepare us for this weekend. The 6th and 7th Dimensional Templates will have another iteration, as we are able to hold that in our body. So, it's important in our private time to take that time and go into Silence and receive those Templates again.

The ones we received last year have now been upgraded. And we will receive a second iteration of the 6th Dimensional Template and the 7th Dimensional Templates this weekend. These two Templates are massive, as we know. The upgrades are very important to the success of this project.

So not only are the Magnetics and the Electrical charges being upgraded and positioned into a different trajectory, they are brought into our body for all of humanity to draw from when they are ready. They are brought into the Earth, to help the Earth create a different environment for us and for all generations coming after us. If it were not for us, future generations could not bring in their gifts. As we took this to heart, we realized the chance that we took was worth it

With Metatron and all who had gathered to help us hold this massive information just given, we sat in the brilliant Christed Light, the brilliance of who we are. WE ARE the center of that Flower of Life. That's who we are. That's how beautiful we are. We are the beginning, the center of that Source Energy.

## About the Our Crucible and Our Group

When we entered our Soul in this lifetime, many of us may have asked, "Why me? What about this work?" We were drawn into this work many years ago, at a Soul level, because we knew that we needed some kind of foundation. We were out there searching. Many of us were very lost. We didn't understand why we didn't fit into Humanity. Now we know!

So, we were drawn into Spiritual processes that very gently brought we along and provided a group where we would fit in and be helped and be supported and be Loved at a level that we knew in our Heart. And so, when we gathered in this group, (many of us with roots in Mastering Alchemy), this was the foundation. We came from many areas of the world to become a part of that group, so that we could learn.

And then we were drawn to the Seating of the Divine. And this is really when the work began. We had the foundation. We had the clearing that was needed to clear the mental-emotional body and some of that fragmentation, so that we could be more whole. And the Crucible was formed. And it grew....

And we were able to raise up our vibration and our Light quotient. We were able to raise up our consciousness because of the support that we received in that Crucible. And we all gathered in great Joy to help we receive from the Crucible.

So, we have a little more to do. And we are capable now of doing some of the final steps. We are not to be hard on ourselves when we go back into our daily life and have trouble holding these vibrations We are not to have these thoughts or expectations of ourselves.

## Completing this Project in this Lifetime

We not going to recoup the fullness of who we are in this lifetime. But we will recoup enough to complete this project that we came to do. It has been an honor to have the opportunity to work with such great Beings of Light.

As we are closed this morning's session, we were asked to take some time for ourselves alone, in that Silence, in this Energy.

## 04 Fri PM UnTaLa and the 6<sup>th</sup> Dimensional Template

### Melainah Recaps the Morning Session

Melainah recapped all that occurred in the morning session and reminded us of the Magenta Crystalline Lotus structure that was now vibrating at a very high frequency and would remain in that space between the Crown and 8<sup>th</sup> chakra, from here on out, as long as we are in these bodies.

We received another activation, and a remembrance of the Flower of Life. We brought in those Light Particles from the Central Sun today. We brought in the 12<sup>th</sup> Dimensional Magenta Dimensional Coding. A lot of high frequency Energetics have come in.

### Joan Comments on the Conference's Energetic Structure

Joan explained how is a very precise sequence that is going to take place in these three days. So, one builds on another. That is why, as each level was put in, it was so important, for each of us you to go into a private space to integrate it into our bodies.

And then as we returned to be seated in this Crucible so we held collectively for the Earth and for Humans. Every sequence had an Energetic importance.

### The Return to the 6<sup>th</sup> Dimensional Light Template on Sirius

In our first Conference, the first Time Lock that we opened as a Collective was the 6<sup>th</sup> Dimensional Time Lock. And due to the high frequencies of the Energetics of the 6<sup>th</sup> & 7<sup>th</sup> Dimensional Light Templates from last year, we were asked to revisit both those Templates and to bring those Energetics into the 2019 Conference.

We were told that this will help to better prepare us to receive the 4<sup>th</sup> iteration of the 6<sup>th</sup> & 7<sup>th</sup> Dimensional Light Templates.

We were asked to recall the profound honor bestowed when we were invited by the Sirian

## The Journey to Return to Sirius B

Aware of ourselves in our Light Body and Merkaba, we raised our frequencies to match that of the Magenta Crystalline Lotus

Following the same pathway we used last year by way of the the Axiatonal Lines we traveled to the docking station at Star Gate on Sirius B. We were greeted by a contingency of the Sirian Archangelic League who would serve as our guides.

We met Sirian Archangelic UnTaLa who was co-directing the day's events with AnRaTa, who was waiting to receive us on Sirius C.

Once we arrived and docked our Merkabas on Sirius C, we were joined by Archangel UnTaLa and the other Archangels.

## UnTaLa Speaks

UnLaTa welcomed us back to Sirius C and reminded us of how we retrieved the 6<sup>th</sup> Dimensional Light Templates from the Time Lock held here.

Placing our attention on the Magnetics and Energetics from this Time Lock, we re-activated them and brought them into present time.

We allowed those Magnetics to light up at their full Energetic capacity, the Golden Yellow, Christed Light that we recognized ourselves as that Ancient of Ancient Being.

## About the 6<sup>th</sup> Dimensional Light Template

We were reminded of what AnRaTa had told us about this 6<sup>th</sup> Dimensional Light Template- that it is a vast Template that incorporates all the Light Templates that had been retrieved so far. It contains Electro-Magnetic components that will be invaluable in the coming times of our Ascension.

## 4<sup>th</sup> Triad Activated

It helped to activate a level of the 4<sup>th</sup> Triad that we had not known in our body.

From our Journey this morning we saw how that 4<sup>th</sup> Triad is now helping to bring in even higher frequencies, particularly that 12<sup>th</sup> Dimensional Magenta Color Coding.

## The Magnetic components

The Magnetic components in this 6<sup>th</sup> Dimensional Light Template relate to our emotional body.

The Magnetic field enables us to use our emotions with precision from that more refined level, in Love, Unity, and Harmony. These Magnetic Codings provide the opportunity to draw into ourselves the likeness of who we ARE at that ancient level. Those Codes were imprinted in each one of us.

## Valuable in Creating Ze'On Particles

This part of this Electro-Magnetic field is invaluable in creating the Ze'On Particles, which are refined thoughts from the Purity of who we ARE from those ancient times.

The Template that we received last year was also imprinted by the Magenta Coding which was very important not only for this Template and its functioning, but also for the 7<sup>th</sup> Dimensional Light Template that we retrieved last year.

## Three Streaming Points

We were asked to open and allow the Energetics to flow into three streaming points:

Into our Sacred Heart Consciousness

Into our Soul Star

And then into our Solar Center.

We were then returned to Earth and were asked to see the Beauty of our Christed Planet.

## Into the Temple of Transparency of

Having stimulated these Light Codings in present time, we were ready to proceed to the retrieval of the next level of the 6<sup>th</sup> Dimensional Light Template

Turning around we observed before us, was a very large, beautiful 4-sided pyramid-shaped, clear crystal building. The edges were beveled and faceted in multiple rows.

The components of the crystalline/glass were very different than the structure of the crystals that you are familiar with on Earth.

The walls were so clear, that were it not for the beveling, we would not have been able to see the building.

## The Temple of Transparency

UnTaLa explained the many of us may remember having been here before.

The Temple contains many sound frequencies that keep the structure operating at a very precise Energetic level.

While viewed from the outside, it appeared rather small, it expanded as we moved further in.

We were be astounded at how large this complex was.

We entered a very large meeting chamber also a 4-sided Pyramid.

Everything inside was made of the same crystalline compound,

including the once piece bench seating with backs that fills each of the four sections. Notice that the seating is in rows.

The chamber was wider at the bottom and narrowed closer to the apex

We moved to the seating area and remained standing until AnRaTa invited everyone to sit.

While we waited for everyone to find their place, we looked around and acknowledged all the beautiful Beings who gathered again this year to be part of this process.

UnTaLa explained that all who were here had contributed to the creation, organization, and implementation of our Gathering. They were here to witness and support us.

We acknowledged the Sirian Council of Elders as we did last year. Behind them were the the Sirian Archangelic League. Sitting with them were our very own Archangel Michael, Archangel Uriel, Archangel Gabriel, Archangel Raphael, and Archangel Zadkiel who we also acknowledged.

UnTaLa then left us and joined the other Archangelics as we prepared to greet AnRaTa.

## 05 Fri PM AnRaTa & Zadkiel and the 6<sup>th</sup> Light Template

We are honored by your Presence as a representative of Earth and Humanity.

We have all gathered. And you are a significant part of this Gathering.

I am sure at some level each one of you remembers this Temple, this Crystal Temple of Transparency. The beauty of meeting in this particular place is because of the frequencies of Light that it holds. These frequencies are far beyond the 6<sup>th</sup> or 7<sup>th</sup> Dimensions that you are familiar with. And they will assist you to bring forth first and to anchor this 6<sup>th</sup> Dimensional Light Template -- in many iterations. We will come again at another time to anchor another level.

### The Electro-Magnetics Received Last Year

Last year, you received the beginning frequencies of the 6<sup>th</sup> Dimensional Light Template, [which] had to do with the This Light Template contains mostly a Magnetic Energetic composition, but it also contains an Electrical-Magnetic charge that begins to allow you to heal completely that mental-emotional body through these Magnetic and Electrical charges. It changes the neurology of your body.

### Noticing Changes in our Mental Emotional Bodies

Let us pause here for a moment and acknowledge what is happening in your body at this moment, first through the part of the body that holds your emotions and your thoughts. With this activation, notice the shift of those frequencies and the Light that emanates from that mental-emotional body at this moment -- much different than what you have observed previously. Now, notice that Element of Love and the Magenta Coding that emanates from the mental-emotional body

### Changes in our Neurology and Kundalini

With this activation, many changes will occur in the neurology of your body. There is an activation that will occur within the next thirty days in your Kundalini Energy and the movement of that Kundalini up the spine into the brain and back down the spine, spiraling up and down

Do not rush this process. Allow it to gently happen. There will be no ill effects from this activation, if you will gently allow the movement of that Kundalini Energy up the spine, spiraling up and spiraling down. No need to understand or do anything with it. But be aware that it is operating at a specific frequency relating to that 6<sup>th</sup> Dimensional Light Template, not only the first iteration, but this second iteration.

The Electro-Magnetic charges are amplified to 7<sup>th</sup> Dimension. And it will take a while, close to a year, for you to attain a consistent flow in the Kundalini of that 7<sup>th</sup> Dimension, which you will by next year's meeting be holding in your body consistently.

Take a deep breath and begin to feel that Kundalini begin to stir at the base of your spine. This, too, is taking on a Magenta hue, which is valuable in your attainment of 7<sup>th</sup> Dimensional frequencies in your body

Now, as this Energy starts to flow within your body... there is another part to this 2<sup>nd</sup> 6<sup>th</sup> Dimensional Light Template iteration.

## Newly Recovered Transparency in the 2<sup>nd</sup> Iteration

The 2<sup>nd</sup> part of this iteration is Transparency, which is a very valuable asset for you to have recovered today. In the Temple of Transparency, all will be divulged. Now what do we mean by that?

As you visit this Temple again, through our Guidance, you will begin to remember certain aspects that are relevant to this time and space of your life, certain Master Imprints that will further assist you in the coming year. Some of you won't remember specifics; you will just feel the Energy. And there will be a Knowing of things at specific times and events, as your life proceeds on course in this more refined Energy.

## Transparency Will Come As We Need those Reference Points

It will not all come at one time, but very specifically when you need those reference points.

There will be a Knowing. Or in times that you might be reactive, there will be no reaction. Your emotions will be calm. And you will see it for what it is. Whatever it is that is triggering you - you will see it for what it is.

## How Our Relationships Will Be Changed With Element of Love

You will begin to operate in your relationships differently, because you will know the Energies in that relationship for what they are, having no emotional attachment to any part of that particular relationship. Only the Element of Love will be present in your Heart and in your emotions and in your mind.

If the Energy within that relationship is diminished by participants within that relationship, you will be fully aware of how to hold the vibration of Love, see it as it is with no attachment, to repair it, fix it, or any of the other things that you would have normally done in that particular relationship.

In relationships that uplift you and help you to be aware of how to raise yourself up, you raise those individuals up, as you come into the more refined expression of yourself.

## That Which is Hidden Will Become Transparent

This is what the Temple of Transparency does for you. The things that have been hidden from you, because of the density of your body, are now changing, so that all is transparent. Nothing is hidden in regards to this specific time sequence. Understand that - it does not mean that all will be divulged to you of what you know of yourself, as you sit with the All That Is, but only specifically to certain time sequences of this lifetime.

## Raising the Human Consciousness

Whether you realize it or not, this is invaluable to you: your evolution in this particular body, raising this body, raising your genetic lineage at all levels - not necessarily to the level that you have attained, but a level that then raises human consciousness at a Collective level. And therefore, the Earth resonates with that, and Earth is raised to that more refined expression, providing a perfect environment for all Humans who ascend to a different level of consciousness, a different state of refinement in their Being.

## Do Not Rush this Process

This Light Template also is massive. Do not rush the process. Take the thirty days. Observe, absorb, and allow. Have no unreal expectations but allow a fuller expression of yourself to

manifest. The beginnings of this will be within that thirty days. But it will continue for the next three years of your time. It cannot be rushed, Dear Ones.

## How We Serve the Lineage Going Forward

Even though you have closed/sealed the door to your lineage that does not serve you, this serves that lineage, in ways you cannot comprehend in this moment. And any Being using this lineage, from this moment on, will come in in the perfect state of Being and consciousness that will raise them up to the best potential that they can create. And that is because you have put the foundation in place energetically for all Humans to begin this process that is presently elevating you to a different state that is consistent with your Mastery.

Great changes are afoot, Dear Ones!

## Concepts Are Not As Important as Energetics in Holographic Transmission

Let us pause for a minute and sit with what I have just said to you. See yourself in that Temple of Transparency and FEEL the Energetics of Transparency

The concepts that I have presented to you are to we Angelics of less importance than the Energetics, as they come to you in a Holographic transmission. This is what is required of you now, in the next thirty days, in the next three years: as these Energies become more available and refined, that you recognize that, and absorb it into your bodies, into your consciousness

## Others Present in the Temple of Transparency Will Help Us

There are a whole Host of Archangelics who are present with us at this moment, in the Temple of Transparency. They are Ones you are familiar with: Michael, Gabriel, Uriel, Raphael. And then there is Zadkiel, who you are also familiar with, that brought through many Teachings relating to all of the aspects and Energetics of the creative Rays of Creation. He is also part of the Sirian Archangelic League as well as functions at a level that can be received on Earth. So he serves in a dual capacity. Most of the members of the Sirian Archangelic League are a sector of the Archangelic Realm that are specific to Sirius C.

Take another deep breath...

These are concepts, so that you know the vastness of the Beings that support you. Now, I would like to step aside to allow Zadkiel to speak with you.”

## Zadkiel and Certain Iterations of the Rays of Creation

“Greetings, Beloveds,

It has been a while in your sequence of time that I have visited with you in this manner. But know that I have never left your Crucible. I am a member of it; I am One with you - always.

“And as you receive these iterations of the 6<sup>th</sup> Dimensional Light Template, I will also be engaged with you. In the coming three years, I will come again and again to present certain iterations of the Rays of Creation, as they relate to positions in this advancement of Humanity. What you received from me previously was some basic Energetic functions. Now, as we are helping you to maintain a more refined state of consciousness and dimensional frequency, more will be needed for you to use the Rays of Creation much more efficiently.

## Helping Us Navigate Our Lives in the Next Three Years

“So, in the right timing in the next three years, we will provide that for you, so that you can use them to your advantage, as you navigate your daily life. This will be a great asset to you also, as everything that we have spoken to you about today is of great significance. Not one part of it is more advanced or better than. They are just assets that you will be required to integrate and use to your advantage, as you navigate life in a way that you never thought you would - with Ease and Grace, and with a level of Joy that you have never known in this body at this time.

## Living in Joy

“It is so important that we provide the pathway for that Joy to return to your Spirit! and to your Soul! So that you can Love life and you can Love the Earth, as you were intended, as Humans were intended, so that all those who come after you will come in with that Joy and not the dread that so many of you have experienced thus far in this life.

So, I will step aside now, and return you to AnRaTa.”

## An RaTa Returns to Speak

“Now, notice how this Crucible has changed.

Notice the Light frequency. You've always seen the Light but notice the Light frequency and the refinement and the purity of those frequencies within your Crucible.

## Magenta is Primary Color Code in the Crucible

“This Crucible holds all Color Codes. But the primary Color Code that you will be using in the next year is this Magenta. It will be the biggest influence in your Crucible as far as Sound and Color. But also remember, as you see this luminous Color Code, that all Color Codes are present, viable, and expanded through that 7<sup>th</sup> Dimensional frequency range. So not only are they available, you are expected to use them individually and in resonance with the other Color Codes, as needed, so that you maintain a consistent 7<sup>th</sup> Dimensional state of consciousness and Energetic influence.

## Being Present in our Crucible

Let us sit for a little bit together - the entire Group that has gathered in the Temple of Transparency, within your Crucible, within your Merkaba, within your Light Body - all parts of you are there. The Crucible is highly active now. So, as we all sit in the Crucible, in the Temple of Transparency, sit with us as a member of the Community of Light. Be present, be aware. And be in communion with every member

## We Return to Our Merkabs and to Earth

“Take a deep breath...

Conscious of your surroundings and the many Beings that have joined you.

We close this session and we ask you to draw your attention to the Joy in your Heart at this moment, for we too emanate Joy.

We bow to you for your contribution that you are making to our Beloved, Christed Planet Earth, and to every Human iteration

We now close our meeting at this time.

We acknowledge you as you acknowledge us.

We bow to you as you bow to us.

The Sirian Archangelic League awaits your return to your Merkaba, and they will lead you to the exit, to the docking station.

They bless you and Love you.

Gently allow yourself to move and navigate through the Cosmos, to Earth and your placement in it in this time and this place

Blessings!”

## Melainah Guides Us in Our Return

We took a deep breath. We became aware of our Grounding Cord in your Earth Star, our united expression in all parts of our Energetic system.

Be aware of this room and the Earth in its Beauty around you.

We were reminded to take some time, some quiet time to feel all of the Energetics flowing through our Unified Field, in gentleness and Love

We then enjoyed an additional seven minutes of Silence before beginning to disperse.

## 06 Sat Sat AM Opening and Group Discussion

### Gabriel Opening and Centering Meditation:

Gabriel opened with greetings and centering meditation

He asked we be centered in our Sacred Hearts and in our Light Bodies.

In our Merkabas, we took our seats, waiting for your command to travel.

But for now, it stands/it sits in a neutral position,

awaiting the time for you to Journey with your Light Body [Pause]

Now, remember, throughout this morning's events, stay conscious and aware.

Do not leave either your Light Body or your physical body, always conscious and aware. This is important for you to remember.

You are dependent on receiving the fullness of this 7<sup>th</sup> Dimensional Light Template in its 2<sup>nd</sup> iteration. And this can only be done in the state of consciousness, awareness, and Presence in your Light Body and in your physical body

And you do this by being aware of your breath.

This will keep you alert and aware and present in the moment.

Now, take a deep breath, be very present, and conscious, and let us begin.

### Saturday AM Discussion Points

Here is a summary of topics discussed in our Group'

Simple explanation of Magnetics: Magnetics draw something to us. The 7D Light Template is mostly Electric but also has Magnetic components. We want to amp up the 6D Magnetics to help draw to us the 7D Light Template we will be retrieving this morning.

The words in this Conference are important - they carry the Energetics.

The Kundalini works in the Light Body then transfers through our neurology into the physical body. It allows us to think higher thoughts. Zadkiel is connected with the Kundalini activation. He and AnRaTa co-chair the Sirian Archangelic League. Since Zadkiel also works with us on Earth, he connects two different iterations of the Archangels: those of Sirius and those of Earth.

The Earth and the history of the Earth is very multidimensional. It's not linear; it's very complex. Sometimes we get stuck.

We have had different purposes in different lifetimes. For every one of us, this lifetime was a choice to come and serve, not a karmic requirement.

Metatron told me in a channeling with Joan that this SDI work has removed the danger of my Soul being damaged by dropping into 3D here.

Some are getting a lot of weird timeline recollections that don't make (linear) sense yet. That's part of the process. It will keep coming around. And people in out-of-place timelines may just be there for what they represent to you. What matters from other timelines is what piece of that person do you need now? Or what in a certain timeline memory is important for your NOW?

We each experience the Magnetics and Energetics in certain ways, like shapes, or colors or sound.

In healing, all experience is stored in the physical body tissues. As we heal, it is released through the tissues and passes through the consciousness to be released. When we are releasing a problem, it's already on its way out. No need to process or do anything.

## 07 Sat AM 7<sup>th</sup> Dimensional Light Template 2<sup>nd</sup> Iteration

### Introduction to the Day

[A fractal version of the Diamond geometry is on the screen in the front of the room.]

We will begin our day's reception of the 7<sup>th</sup> Dimensional Light Template. As you remember, this [the Diamond] was the geometry from last year that we presented to you. But now, notice all of the frequencies and the faceting. And that's what we're doing today, this morning and this afternoon. We're making that Diamond Iteration into a multidimensional expression through these 7<sup>th</sup> Dimensional Light Templates that we will be holding within us.

### Return to 2018 7<sup>th</sup> Dimensional Light Template Retrieval

Melainah helped us prepare by being present in the Crucible, connecting our Grounding Cord to the Earth Star and matching our frequencies to the Magenta Crystalline Lotus.

Melainah told us that we would revisit the retrieval of the 2018 7<sup>th</sup> Dimensional Light Template.

Moving directly into opening this year's Iteration of that 7<sup>th</sup> Dimensional Light Template.

Make yourself comfortable as you prepare yourself for this Journey

Melainah said that what we were able to hold and receive during this Journey would be very important to our own Ascension Process.

We placed our attention on the 6<sup>th</sup> Dimensional Magnetics that we retrieved yesterday and set our intention that were operating at maximum capacity so we could hold the 7<sup>th</sup> Dimensional Light Packets more stably in our Energetic fields and in and our bodies.

We sat in our Merkaba and our Light Body to prepare to travel back to Hawaii like last year.

Our Crucible is already in the vortex of no time, no space, no dimensions. As we came closer, we could see the Crucible floating on the water, encircled by that Ring of Fire.

Feeling the gentle air and Sun shining we could feel it on our skin.

We then immersed ourselves into the beautiful aqua and blue colors of the ocean, on the

outside of the Ring of Fire, in this place we call The Cathedral. We were joined by the beautiful Sirian Beings, the Whales and Dolphins who formed another circle around us.

## Following 2018 Protocols to Cleanse and Purify

Following the protocols from last year, we again performed the ancient cleansing/purification ritual to prepare ourselves for this next iteration. With a handful of flowers with us the water, we immersed ourselves three times stating our intention to ourselves and to the Water Elements with each immersion and releasing some of the flowers each time as we came back to the surface

The flowers were our offerings to the Ocean, the Water Elements, and to the Ancient Ones who continue to watch over and keep these waters sacred.

We swam through the Fire, towards the Crucible where we were greeted by the White Fire Dragon who remains the Guardian of the 7<sup>th</sup> Dimensional Time Lock that we visited last year. We returned there in order to bring those 7<sup>th</sup> Dimensional Light Codes into present time and to re-stimulate them within each of us.

## Journeying with the White Fire Dragon Through Many Dimensional Doorways

Our Light Bodies and Merkabas remained within the Crucible and we journeyed with the White Fire Dragon who was joined by a contingency of Fire Dragons.

We moved through many Dimensional doorways and Light Corridors and became aware of the Sounds and Light frequencies contained in this massive Energy Field that we entered.

Although it is a non-physical space, but it is a Hallowed Sanctuary.

We felt the purity, the sanctity, and the reverence vibrating throughout your consciousness  
The White Fire Dragon stops.

## Using the Newly Received Amplified Magnetic Light Coding

Using the amplified Magnetic Light Coding of the 6<sup>th</sup> Dimensional Light Templates we had received the day before, we allowed the frequencies from last year's 7<sup>th</sup> Dimensional Light Template,

that were brought forward by Yeshua and given to each of us to be drawn in and held by us in its entirety.

We drew in those frequencies through those 6<sup>th</sup> Dimensional Magnetics that we now held in our physicality. We sat for a moment to integrate these Energetics.

## Retrieving of the 2019 7<sup>th</sup> Dimensional Light Template

We followed the White Fire Dragon deeper into this 7<sup>th</sup> Dimensional Time Lock, as we prepared for the next Iteration of this massive Time Lock.

As we came to another doorway, we saw the Diamond shaped geometry, that was created last year, already in place in front of this doorway. At each point are the

Joining us and the White Fire Dragon, were the amazing 12<sup>th</sup> Dimensional Beings from each Elemental Kingdom, presenting in their pure White Iteration. As each entered, we welcomed the White Lion, the Great White Whale and White Dolphin, the Great Winged Ones

Next, we welcomed the four Archangelics, Uriel, Gabriel, Raphael and Michael entered and took their positions.

Aware of ourselves in the Crucible, in your Light Body and in your Merkaba and standing with the Great Beings of Light, we were conscious of who we are.

Ehyah Ascher Ehyah... [repeated by group]

We prepared to receive Yeshua, as He emerged from the brilliant Light in the center of the Diamond Light Configuration.

## Yeshua Presents the 2<sup>nd</sup> Iteration of the 7<sup>th</sup> Dimensional Time Lock

Yeshua brought forth the next Iteration of the 7<sup>th</sup> Dimensional Light Template. We were told that we were here to receive it in our Light Body, our physical body, and to hold it for ourselves, for this Crucible, and most importantly, for Humanity, until Humans can hold it for themselves.

Yeshua also announced that he had brought with him an Iteration of the Divine Feminine, a significant part of the Energetics of this 2<sup>nd</sup> Iteration of the 7<sup>th</sup> Dimensional Light Template.

Also he brought Mother Mary, who took her position in the West of the Diamond configuration, with Archangel Gabriel; Blessed Anna, who took her position in the East with Archangel Raphael; his Beloved Magdalena, who took her position in the South with Archangel Michael.

There is another aspect to this 7<sup>th</sup> Dimensional Light Template that we received, related to the All That Is. It is the Divine Feminine Iteration of the All That Is, in the fullness of that expression of the Divine Source of our Being. The Divine Feminine does not have a gender. It is a massive Energetic Iteration of the Divine expression of the Divine Feminine.

This was presented to us as we received it from a Grand Being of Light that originates from that Source Energy. She came forth temporarily in the Iteration of THE SHE.

## Melainah Channels THE SHE

THE SHE introduced herself. She has no form and is nameless. She explained how our language is limiting, but if we opened our Sacred Heart, we would will find her everywhere It was her hope that we would receive her Presence, that has come forth to be closer to us, so we would remember.

The Voice we heard was coming to you from the All That Is.

Many, many Beings of Light assisted, from across the Multiverses, to lend their expertise in allowing this conversation to step down through their consciousness, through a multitude of Dimensions, so She could speak directly to us for a short period of time.

That assistance included these Beautiful Ones who just stepped forth.

So, to give us a reference point, it shall refer to that which we ARE as "THE SHE".

In our world, the Creatress, THE SHE part of creation, has mostly been forgotten, distorted, debased, or destroyed so her name is THE SHE.

While there are no renderings that depict THE SHE, it has nevertheless always been with us.

The Element of Love from our own mother passed THE SHE aspect of creation to you.

Everything that has been birthed in our world comes through the womb of the mother. The first Voice we heard was that of our mother. We heard her heartbeat as our own heart, while we developed.

Due to the depth of separation that has occurred on our Planet, we were born into a world that only spoke of THE HE. We have seen how distorted that has become.

While THE SHE has been mostly forgotten, that does not mean that THE SHE has not been with us for every incarnation.

It is called Mother Earth and Mother Nature for a reason.

## The Sacred Feminine Aspect of the ALL THAT IS

The ALL THAT IS is just that - ALL THAT IS.

It is an intelligence, a consciousness that contains everything.

There is no male or female in the Higher Realms. It is an aspect of creation.

Each has its parts that contribute to creation.

With the Veil of Forgetfulness in place, we were born into a world full of separation.

So, we must begin with where you are.

Because of the work that we have done to remember, to return to the fullness of who we truly ARE,

We were presented with the Sacred Feminine aspect of Creation, with the desire that we will have a more direct connection to these specific Energetics of the ALL THAT IS.

As we allow those Energetics of THE SHE to merge with our consciousness as we discover the Knowledge and the Balance of the Feminine side of creation, we can move closer to our own wholeness.

We were told that these Sacred Feminine Energetics are required now to create Unity within ourselves and on your Planet. The Feminine is the unifying part of creation. In the Realms of the All That IS and in the natural world, there is a balanced flow that has been missing in the Humans on your Planet for a very long time.

It is time our world returns to Balance. As we received this Light Template, we were not only allowing the Sacred Feminine to return, but also for the Divine Masculine to return.

For one cannot exist without the other.

After explaining that the word "SHE" contains the "HE"

THE SHE proclaimed

"I AM THE SHE.

I AM the feminine aspect of the ALL THAT IS."

And thanked us for receiving its Presence and these Energetics that have been held in this Time Lock.

They then took their position in this Diamond configuration at the North point with Archangel Uriel.

## Yeshua Presents Himself as an Iteration of the Divine Yeshua

Yeshua presented himself to us as an Iteration of the Divine Yeshua...

He explained the importance that we talk about the 2<sup>nd</sup> Iteration of the 7<sup>th</sup> Dimensional Light Template, as it applies to the Divine.

He explained that when he brought forth the Beloveds in his life as Yeshua, these Divine Iterations were in a feminine body. Mother Mary, Beloved Anna, Beloved Magdalena were important in his life as Yeshua, because they represented the Wisdom of the Divine from which

he came.

## He Was Charged in Holding Both the Masculine and Feminine

He was charged in that culture with holding both Iterations of the physical world - of the Divine Masculine and the Divine Feminine. He could only have done this with those representatives of the Divine Essence of who he was with the help of these three women. It did not negate the power of the Divine that he held and represented in his body.

It was very important in the culture of the day that he held that Masculine in such balance. And with the help of these three women, he accomplished just that. He was often referred to in your Sacred Bible texts as Rabbi, but not in the culture of the day, nor in the culture of our day, but in that Divine Essence of the 7<sup>th</sup> Dimensional Light Template.

## He Brought Forth the Element of Love Which Was Missing

What was missing back then from that culture was the Element of Love, which they brought forth in the only way that they could in those times, through the Masculine as the dominant force and the Feminine that worked behind the scenes. But now, he told us, they bring those forth to us in a new Iteration, in the Unity of 7<sup>th</sup> Dimension: the Wholeness of the Divine of which we ARE, the completeness and fullness of that Element of Love seated in our Light Body, in our Sacred Heart.

## Distractions Now and in the Future

He assured us that even though the distortions that occurred in the room [on the Hallelujah recording played] through the Sound currents, the Sound was very important in bringing in this 2<sup>nd</sup> Iteration. Those Codes were there.

While we may have been distracted, there was a lesson there for us, that no matter how distortions may appear, we can bring ourselves back to the Center of your Being in a unified expression of who you ARE in your Sacred Heart.

We were told that when we leave the room, the Crucible, we will be distracted. But it will be of no consequence because we have demonstrated that we can immediately draw our attention back to our Center and be complete and unified in that 7<sup>th</sup> Dimension.

## Our Assistance in Helping Him Complete His Role

Yeshua directed us to HEAR his words and never forget again!

We have everything we need to fully remember these things.

He then thanked us for the role that we play now. It was a role that he could not complete in his life as Yeshua. He is in deep gratitude to US now, who hold it and make his Journey complete.

## Taking in the Fullness of Joy

After a long, long pause reverberating in the Silence, we felt the JOY within us in our Sacred Heart.

We sang the Hallelujah to ourselves, as we received the JOY based on the Element of Love.

We allowed ourselves to take in the fullness of JOY and LOVE that raised us up with the strains of the Hallelujah, that Sound that would stay within us.

## 08 Sat PM The Quadratic Configuration

From the 7<sup>th</sup> Dimensional Light Template we welcomed Metatron.

Metatron asked that we continue where we left off in the morning, integrating the 7<sup>th</sup> Dimensional Light Template's 2<sup>nd</sup> Iteration, grounding ourselves and noticing that we were now pushing on the Gates of 8<sup>th</sup> Dimension, as we brought in another Iteration of Christ Consciousness and also of the All That Is, now that you have received the beginning Templates of the Divine Feminine and Divine Masculine in full immersion. We realized that one does not function without the other, united in the full expression of the All That Is and in Christ Consciousness.

### Metatron Explains the Quadratic Configuration

Metatron brought us into a new configuration of Collective Consciousness.

He then stepped back as that Overseer and allowed the members of this particular Quadratic to speak with us so we may recognize the energetics of this particular configuration.

Metatron told us that he was the spokesman of the Quadratic Complete Configuration of a Collective Consciousness that is very specific to Christ Consciousness and our Journey here at this time.

“This Quadratic Configuration is a more refined configuration of that configuration that we presented to you some time ago, called the Triadic Configuration, which has many different members and configurations relating to the Triadic function of the All That Is and Christ Consciousness -- for many of the Teachings that you received from this Collective from myself, Michael, and Melchizedek: the three M's.

“This time we add a Beloved Being that you know of as Yeshua, in an incarnation on Earth 2000 years ago. But you also now realize that Being called Yeshua is much,

much more than that individual. So together we represent a form of Collective Consciousness and the Energetic Holographic transmission in that Quadratic Configuration. Each of us presents a certain aspect of the All That Is.

“Keep in mind - there are many formulations in the Cosmos and in Collective Consciousness that relate to this Quadratic Configuration for different purposes throughout the All That Is. This is specific to Christ Consciousness.

“So, as I bring that forth to you, in this Quadratic formulation, it is very similar to the Diamond Configuration, but it is a different Dimensional frequency.

Each in the Quadratic Configuration Brings a Specific Focus

“Each one of us represents a certain focus within this Collective Consciousness. I AM Metatron. I am the Overseer of this project. But I am also the Overseer of all realms pertaining to form. So, I have a specific purpose within this Quadratic Configuration.

And then there is Melchizedek, whom you are familiar with. A Great Being of Light that has no beginning, no end. And he brings forth that Energy relating to Source and Christ Consciousness.

“There was never any beginning, no end. It is eternal and connected with the All That Is. Melchizedek, and I'm sure you are aware of this, many of you -- there is such a thing as the Order of Melchizedek. This Quadratic Configuration relates also to that in its fullness, as it is applied in that Christ Consciousness. But it also related to that All That Is in its unified expression, having masculine/feminine Iterations that do not relate to any gender at that range.

“You, of course, are familiar with Michael and his position always remains the same: not just the protector, but also the holder of the precision and purity of Christ Consciousness, as well as the All That Is, as the creativeness of all of you and all creators take form.

“And then there is Beloved Yeshua, who came for specific reasons, of which you know many of them. But he also represents Christ Consciousness in ways that were never understood until now, when you were able to bring forth and hold that 2<sup>nd</sup> Iteration of the 7<sup>th</sup> Dimensional Light Template.

It has to do with the Iteration of that Element of Love in the creative process.

“It has to do with that Divine Masculine/Feminine expression outside of gender. He presented it to you this morning the beginnings of that Iteration through Mother Mary, Beloved Anna, and the Beloved Magdalene, who took positions of the Divine Feminine in that upward expression, holding those points, those vortices, so that the Divine Masculine then could descend within that Iteration or that Configuration.

And the formulation of that Diamond Energetic was formed. But it also brought with it, Beloveds. This Quadratic Iteration of Christ Consciousness that has four positions, very specific to the Order of Melchizedek and the Divine Masculine/Feminine function.

These are the things, the concepts that you need to know, that are being transmitted at this very moment and seeded within your Consciousness, within your Light Body, within your Sacred Heart. It brings with it massive Holographic downloads that will take at least three years to be fully usable and fully manifested, maybe several years. It remains to be seen. So, these are important facts that needed to be given to you, as this Energetic is simultaneously descending within this Community and within this Crucible.”

### Participating at the Physical Level

We raised our arms to receive these Holographic Iterations, which will manifest when the time is appropriate and when we are able to embody and receive - which may take years. And be willing to receive as they are given.

Metatron thanked us and told us how important that we participated at a physical level.

“This is how things [work] in that Quadratic Iteration of massive Energy.

When you can participate at a physical level in these types of things, your body

consciousness follows your consciousness. And with that motion, it says, "OK, we get it!"

## The Importance of Using Our Bodies

"So, there are times when it's important to use your body.

We've been so focused on your Soul and your Spirit and the Energetics, we've kind of neglected the body, in that the only thing that we said to you about that body is that the body consciousness is changing and that your body consciousness will follow your consciousness as it is held in your Sacred Heart.

There are also movements. And some of you participate in these through Tai Chi, Yoga, Dance - many, many types of movements that uplift us into those higher vibrations and states of consciousness."

Those are not to be neglected. But we can continue it with another mindset that further uplifts the body. We must honor and bodies and move them with intention.

## Melchizedek Speaks

Melchizedek acquainted us with the All That Is that has no beginning and no end.

He explained the Order of Melchizedek and how we in our community are now honored members.

We are so important to the Community and the Order. We are the ones that seat Christ Consciousness in form and in our bodies.

Now, in the 8<sup>th</sup> Dimension, Melchizedek is holding us hold as members of the Order we were to begin to notice our Spirit having no beginning and no ending, eternal Beings of Light.

He directed us to seat that consciousness at this moment in your Light Body. in our Sacred Heart and say with him and Know that: [Pause]

"I AM THAT I AM"

"I AM ETERNAL"

"I HAVE NO LIMITS"

"I AM A DIVINE EXPRESSION"

"OF THE ALL THAT IS"eshua Speaks

### Yeshua Speaks

Yeshua told us how beautiful we are as we joined him in the Order of Melchizedek, united Heart to Heart, Soul to Soul, Spirit to Spirit, fully invested in delivering to Humanity and the Earth the full implement of Christ Consciousness, the rightful expression of the United Divine Masculine & Divine Feminine as it was intended, having no beginning, no end

Just the Beauty of the full expression of the Divine.

Not one functions without the other.

The Energetics are set now so that we will not forget. It is within us, our consciousness, and our bodies.

He told us that we helped him complete his mission and helped him complete his Intention at a Spirit level and he will help us remember our Intention from a Spirit level and our Soul level.

### Michael Speaks

Michael took his position in this Quadratic Formulation and explained that he holds the space in its pure formulation of Source Energy and now we, too, share in the Purity of that expression. We bring it into form.

He told us that as we bring it into our bodies, into our consciousness, to every part of us, the And the body begins to resonate with the Purity of that Golden Christed Light.

He told us to observe our bodies in that Golden Auric Hue and how beautiful we ARE!  
He asked "Can you see what I see in you?... Will you see what I see?"

The descent of this Quadratic, Holographic Projection was now coming into our very Being, to every part of us. It will take years to fully manifest in the physical.

He reminded us that we are capable...we are Divine...we have no beginning and no end.

We have no limitation that we cannot and will not overcome because we knew who we are at that very moment.

We sat with the Quadratic Collective filling ourselves up.

There was nothing more to say, nothing more to do. We were complete!

## 09 Sun AM Closing Day of the Conference

### Gabriel Guides Us in a Centering Meditation

Joined by the full Community of Light, Gabriel asked that we the great event that has taken place at a physical level of our Being in the last two days.

He reminded us that the two Iterations of the 6<sup>th</sup> and 7<sup>th</sup> Dimensional Light Template have been seated and have filled that to its fullest extent in the last two days. There was a coherence within this Community at all levels that had not been there since this Crucible was formed, now vibrating at a very refined frequency.

He reminded us that as we go into your daily lives, we must bring our Presence, even to people who are totally unaware. The Energetic that streams from each of us can be absorbed into our current environment, uplifting it. Because we possess a human body, we are an integral part of this Ascension of Earth.

We can now recognize the chances that we took to come here with a purpose. Our memories which were wiped clean are coming back.

Remembering who we truly are we are ready to begin the session.

### Sunday AM Group Discussion

John Walker told us that our Teachers were extremely pleased with what has happened. They always expect certain things from us we go way beyond what they thought was possible.

Q: Since I'm so happy in 7D, can you give me a reason to want to go to 8D?

A: I think the Teachers used the 8<sup>th</sup> Dimension as an easier pathway to receive the two new Iterations. We don't need to struggle with anything here, especially don't struggle to attain 8D. Concentrate on staying in the mid to high 5D, where there are no negative influences to distract us and from where we can pull in 6D and 7D. Touching 8D allows for easier communication with our Teachers. It shows us the ceiling of 7D that we can aspire to.

We had the Etheric Crystal which the Andromedans were tweaking to push us easily to the

beginning of 8D.

Q: What is the difference between Christ Consciousness and the All That Is?

A: The All That Is is massive Source Creative Energy with many functions and iterations. Christ Consciousness is one of those functions, one aspect of the Mind of Source. The All That Is is everything.

Comments were made about how we are helping Yeshua balance of Masculine/Feminine.

This is our 3<sup>rd</sup> Conference on Talimena Ridge. The Magnetics here rise upward. In most Sacred places, the Magnetics go down into the Earth. By our receiving the downward Magnetics of the 6<sup>th</sup> and 7<sup>th</sup> Dimensional Light Templates here, this pulled those Magnetics into the Earth and its Christed Matrix.

The Electrical charges of the 7D Light Template create a path for the Magnetics to follow down into the Earth and then fountaining back up and out. This is what we did here on Talimena Ridge yesterday! It will expand the function of this Ridge and this area on the Earth. This will eventually create a Toroidal field here.

Q: Could you clarify what the Order of Melchizedek is?

A: It's massive Collective Consciousness we are all part of. There are many books on the Order of Melchizedek. Being part of this order opens doorways for us. You have to be invited into the Order of Melchizedek.

The Bible says, "Thou art a priest forever after the Order of Melchizedek".

I got a huge Star of Light on my forehead yesterday with this Initiation.

I don't think this is the first time we have been initiated into this Order, but rather we were initiated this time at a different level. We'll discover that we have been part of many such groups. We're going up all these steps in consciousness in order to meet ourselves.

### **The Lords of Light as Metatron Give Closing Message**

After the Group Discussion the Lords of Light as Metatron delivered a final message and we gathered in a Closing Circle.

"It is I, Metatron.

I come to you in the configuration of the Collective Consciousness of the Lords of Light.

This is specific to the message that I have to give you at this moment.

“We Lords of Light are so honored to have you as part of the Community of the Crucible. You have done WELL, Great Beings of Light, in seating these Energetic Templates that are so necessary to your evolvment, Humanity's evolvment, and the evolvment of the Earth!

“You set your Intention for this Gathering, Beloveds. We set an Intention, also, with no limitations, no ceiling, no expectations for what will occur as you co-create in these events. But we must speak to you about this. Even though we had no expectations, you rose far above what we had anticipated for you.

“When you came together, you came together as a very cohesive unit. And you need to understand this. You need to see this - that this Community, when it comes together in those vibrations of 5<sup>th</sup>, 6<sup>th</sup>, 7<sup>th</sup> Dimension, is a very dynamic Force.

“You received within that Collective Consciousness of YOU as Humans gathered in a Community with Intention and purpose, and you never veered from that in the entire three days that we have met. And you are to be honored and congratulated for your Presence here and the tenacity that you have shown. You are so devoted to this project and to the rising of Human consciousness. And we are honored to be part of your Community.

“You need to hear this! Take it in. Know you value.

And know that when you've come together, you are such a United Group Energy.

“We do not want to disturb you as the individual and what you have to integrate with the 6<sup>th</sup> and 7<sup>th</sup> Dimensional Light Templates, what you have facilitated to come in to this area of the Earth that will begin to manifest within the next few years.

“It upgrades the Magnetics that were already in place in this area. The Magnetics within the Earth that was spoken of how those Magnetics are now being seeded within the Christed Matrix to be drawn from by all. But it begins HERE. It affects the Crystalline Grid. It affects so many levels of the Earth, itself, world-wide. You also need to know this.

“Be gentle with yourself in the next year... There is a lot integrating energetically within you. Be gentle with your physical body.

“Know that this activation that has taken place in your Light Body, in you individually as well as

Collectively, is a massive influx that has begun within you individually and within your group. Things will change tremendously in the next year, for each one of you, and for this group, itself, in what.

“Your abilities will continue to grow and grow and manifest in your life.

So, in order that none of this be disturbed, that it can stand in its perfect Iteration, we do not want to add another thing! It is such a magnificent thing to behold, that we will not be adding any more at this time.

“So, what we propose here is to allow you to close your circle now, to close this meeting in great Joy and anticipation of what is to come.

And we thank you, we honor you for your Presence, and your diligence, and what you have accomplished.”

In closing, Metatron encouraged us to devote some time to our community, to interact, get to know each other on a more personal level perhaps continue the discussion from the morning. The bonds we made would move us forward in the coming year in our Community Calls and solidify our personal connection and physical connection - very important as we move forward in this next year on Community Calls.

Metatron closed with Blessings to all.

## The Closing Circle

Joan invited us to stand in a circle and hold hands and have the Intention to close our Conference, to close our Retreat. We joined together Heart to Heart, Soul to Soul in Gratitude for the opportunities set before us and the magnificent Light that encompassed the entire room, individually and Collectively.

We honored each other for what each contributed, for the light we hold and how each of us makes the Collective stronger

Melainah thanked all the Great Beings all the many Realms. She thanked all of the Minerals and Crystals and Stones, that helped hold the Energy in this room.

With great joy, Joan proclaimed that we were complete.
