

John: Welcome, everybody to the 2020 Winter Solstice Gathering, December 21, 2020. Welcome to this really important Gathering to be of service in the auspicious alignment of Saturn and Jupiter Convergence which will begin the opening of the Aquarian Age. We have been preparing for this service that we can provide at this time. We will be able to set the foundations of the beginning of a massive alteration in consciousness of our Planet and of all Humans.

Our service was made possible through all our recent Initiations.

We are called into service at this time, because we hold within our human bodies specific Iterations of Christ Consciousness. We also hold specific foundational Energetic Templates. These Templates are the corrective processes that are needed as we proceed into this New Era.

We are going from the Piscean Age to the New Aquarian Age.

Tonight's flow of events are as follows:

First Joan has some comments, which will be followed by Joe Jett's Opening Meditation.

Next Jana Stewart will talk about this Winter Solstice alignment,

followed by John Carroll's discussion of the Order of Melchizedek, etc.

Then Melainah will speak about our Light Scroll and

Metatron will then be present to guide us and lead us in specific activations.

Metatron will also lead us in a closing meditation.

We will gather again on Thursday, December 31 – write that down! -- at 7:00pm CST to complete our service at the close of the Piscean Age.

Without further ado -- Here's Joan!:

Well, I don't really need to tell you what an auspicious day this is.

I think everybody is fully aware of that.

I just wanted to thank Jana and Joe and John Carroll for pushing me to get this underway. About a month ago Jana contacted me and said, "Let's do a Winter Solstice call". And I said, "Well, I really can't commit to that at this time". And about a week later Joe Jett called and said the same thing. And I thought the same thing: "I can't commit to that at this time". And after that, Metatron started talking to me: "You should do this Solstice. It will be OK. Everything is going to be fine". I was concerned with John's procedures and things going on in our life. And he assured me that that wasn't the case. Then Jana called again and I thought, "We've got to do this!"

Joan, cont'd: So, we got together and we organized it, not realizing the massiveness that we have been asked to do in this service project. And as this session proceeds, you too will be amazed, awestruck, really.

As reluctant as I was, when we got into this, the Energetics were so massive and so powerful – Melainah and I talked several times. And she said, “Oh my Heavens! This is like an extension of our Light Conference”. And truly it is.

So, we'll get started and Joe will do our Centering Meditation.

John: “Heere's Joe!”
