

Metatron (through Joan):

Now that Yeshua, Mary Magdalene, and YOU, as the collective of Seating of the Divine, have created the beginning activations of a coherent and *active* Pink Diamond geometry, something wonderful happens: The base of the cube diamond is magnetized to conjoin with the Pink Diamond. It begins to be energetically potent and influenced by the Pink Diamond. So, this active Pink Diamond begins, through a magnetization, to conjoin the base of that cube diamond with the Pink Diamond. It begins to be energetically a potent influence on this cube diamond, through that active Pink Diamond.

This sets in play valuable base components that facilitate as well as provide the change of matter at a molecular level. It required an active geometric progression to be created.

YOU, Dear Ones, were a key co-creator in this, because you have already started the change in your Unified Field that will continue for the next several years. These changes will continue to be used and influence *many* Humans for years to come.....

I wish also to convey to you our gratitude for your co-creation with us in this auspicious time. I want you to know that not only are you a great masterful Being of Light, but you, through these Pillars and the spin, have become a vital Cosmic Pillar of Light that will continue to change the Milky Way Galaxy and impact the Universe in ways that you could not comprehend at this time.

Years ago you were told you were the Ones that will change matter at a molecular level. Well, that time has begun. You are the Ones who will be the forerunners of those who will begin to create form within form.....

In our next session, we will create an active Cubic function. This activation will facilitate the distorted cube to enable it to begin to magnetize Energetics from the original Cube, thus continually upgrading the way in which Humans create from a refined Crystalline Light that they hold within their physical bodies.

These are massive Energetics that had to be brought into form *very* slowly, so that the physical body or the brain was not damaged in the process.

We depend on your precision to help us achieve this.

So, do not spin your Pillar in Coherence with the Pink Diamond Configuration.

Clarification: Spin your individual Pillar of Light slowly, so that it matches the slow rotation of the Pink Diamond.

It's a slow rotation. It is not the same type of rotation that you create in the Triadic system. For now, it is a very slow rotation, so that this matter is changed forever, but changed with precision and changed very slowly, so as not to damage the body.

[5:50] Now, take a deep breath.....

Get centered now, in your Pillar of Light.....
You are balanced and coherent in this active Light.....

Notice how just as your Light Garment is imprinted
with the Sacred Fire Letters of the Name of the All That Is,
Notice that this Pillar of Light, your Personal Pillar,
is also imprinted with those Fire Letters.....

In this Pillar of Light all is balanced and coherent
and will establish within YOU the highest Light frequency and vibration
as the years go by.....
You will become the Divine Iteration in form,
creating form within form.....

You have done well, Beloveds!
And we are in gratitude to you for co-facilitating these massive Energetics
to begin to seat in your body and in the Earth.

With that, we will close this session.
And we look forward to co-creating with you on December 31,
to complete this massive activation.

Blessings, Dear Ones!
