

**Joan:** Well, Hello Everyone, this is Joan.

**John:** And this is John, having a good time. So that's the best thing.

Hopefully the New Year will bring us all kinds of new and exciting, wonderful things along with this Age of Aquarius we've been waiting for.

Tonight, we're finishing up, going into Part Two of our Cosmic Pillar of Light Installation that we started a couple of weeks ago.

And of course, it's December 31, 2020.

And this is Part Two of our Winter Solstice Service Project.

Tonight, we'll start with an opening meditation led by Archangel Gabriel.

Next, Metatron will speak to us and clarify the Energetics that we are working with. He will talk about our personal activations that prepared us for this service project.

Melainah next, with the assistance of Mary Magdalene, will then facilitate the creation of a massive Holographic Singular Pillar of Unity and Love Consciousness.

Finally, Lord Metatron will explain more about the importance of the second phase of the Solstice Service Project. He will then lead us through this activation. Once this phase is completed, he will close the ceremony with a closing meditation.

So, that's our fun agenda for this evening.

Let's all take a deep breath and welcome in our good friend, Archangel Gabriel.
