

The Seating of the Divine Image Hallelujah, Updated 11-2020

We made the choice to journey here
And leave behind what we held so dear,
To do what had never been done before:
To end the darkness and the fear,
And usher in the light right here,
And from our lips we draw a Hallelujah
Hallelujah, Hallelujah, Hallelujah,
Halle lu jah

Well together we found that secret door
To open our minds and travel so far
For all who care for spirit as we do
Well it all begins with an open heart
The soul awakens and the veils do part
Living in love we sing out Hallelujah
Hallelujah, Hallelujah, Hallelujah,
Halle lu jah

We aligned within the Council of Light
In physical form we quelled the fight
We toiled, we prayed, and we stayed the course,
And around us we watched the whole world change
Embracing the truth nothing to rearrange
We're living in light now and sing out Hallelujah
Hallelujah, Hallelujah, Hallelujah,
Halle lu jah

And now we walk in 7D
Seeing the Christ in you and me
We live with the All in realms so vast
In a crucible lifting Mother Earth
Returning Heaven, living newly birthed
And knowing Source is within us, oh Hallelujah
Hallelujah, Hallelujah
Hallelujah, Halle lu
Halle lu jah, Halle lu jah
Source within me, Source within me, Source within you
Heaven returning
Halle lu
Hallelujah
