

**Joan's Intro & Announcements:**

Good Evening, Everyone. Welcome to our Community Call.

Before we get started, I have a couple of announcements to make.

In our previous schedule, we had scheduled our Graduation session on the 8<sup>th</sup> of December, which is a Tuesday evening. And this past week Metatron asked me to change that to make that the Sunday before, which would be the 6<sup>th</sup> of December, so that everyone in our Community, if they could, could attend, because this is our final Seating of the Divine Session. Our Crucible will continue, but what that looks like at this moment we don't quite know.

The other thing I'd like to say is, on the 13<sup>th</sup>, which is the following Sunday, we have a Gridmasters call. And Andy and Pat will be facilitating that. We've made the decision, because of the situation in the world right now, we felt that even in our three months quiet time that we should continue our Gridmaster calls. So we will do that.

We have a volunteer for January. We'll need somebody for February and March, or any month after that that you feel called to volunteer.

OK, this is a community call. So, it's an open discussion on what has occurred this year, in Conference, or anything else you'd like to discuss that is relevant to our Teaching.

Also, Metatron is with us here, now, in the Collective of the Lords of Light. And he stands in the background for this community call, until a question needs to be clarified or answered. And then he will be present for you to ask your questions, because we haven't had a question and answer session per se since before the Conference.

So, in this discussion and question and answer, he would like people from our Community to comment or answer what they feel they know the answer to that question is. And then, if further clarification is needed, he will most certainly be here to clarify.

OK, whoever would like to start first.....

Just unmute yourself and we will have a discussion.

[The entire group discussion is available on the recording. The questions directed to Metatron are summarized. The answers Metatron gave are transcribed word for word.]

**[25:10] Question 1:** Pat asked for clarification on our Journey through the Void, led by Yeshua and Mariam. Wasn't there something in there about the Cosmic Womb, where our Soul was birthed? Was that part of the Void or was that part of the Quantum Field? Because when I've gone to the Quantum Field, and I can stay there only a few seconds or a moment, when I come back out, there's this thing that I'm hearing about the Womb. The Womb has been coming up in my thoughts a lot and once in a dream.

**[28:10] Metatron:**

It is I, Metatron.

I would like to congratulate you on this community call and on the discussion that has taken place thus far. You have taken full advantage of this session by voicing your experiences and commenting on each other's questions, which is very helpful when it comes from the group rather than one of us Teachers.

But, in this regard, I would like to clarify the Cosmic Womb. You can also associate that with the Void of the All That Is, at the moment your Soul was created, was created in that Cosmic Womb that is eternally fertile ground for unending experience in various realms, whether they be in form or non-form.

It is important for you to recognize, it is the same for your Spirit. Now let me clarify.

There is a difference between the Soul and the Spirit. The Spirit is Who you ARE the moment you were created by the Source of All That Is. This creation is more of a Collective creation. It has a Collective Consciousness. It is made or was created in the Image of the All That Is. It is a vast Collective Consciousness. So, you as Spirit are part of and one with the All That Is.

When that particular Iteration of Source desired to experiment in the various Realms and the various Realms of Creation, the Quantum Field being a part of that massive creative force. And you as an individual part of that Source wanted to have that experience in a more physical expression. Thus, your Spirit created a Soul to afford you that opportunity.

So there are many types of and pieces and parts of Souls that your massive Collective Spirit can create for various reasons and purposes.

So, when Yeshua and Mariam the Magdalene led you into this Cosmic Womb, it was for a specific purpose. And that purpose was to recover not your original blueprint of your Soul but your Prime Directive the moment that massive Collective Spirit of you was created – that Prime Directive that was given to that particular massive Spirit, the Collective Consciousness that is always in complete Unity with the All That Is.

So, does that help clarify some of that confusion?

**[32:44] Metatron, Question 1, cont'd:**

It's very difficult in 3<sup>rd</sup> dimensional languaging, and even in the denseness of the 5<sup>th</sup>, 6<sup>th</sup>, & 7<sup>th</sup> Dimensions, to begin to speak of things of this Source of All That Is, especially of Spirit.

There are various Spirits that have multiple expressions of the All That Is in specific Collective Consciousnesses. So, it's very difficult for you, operating in the denseness of dimensions, especially in matter, in the type of matter you exist in in a body that is so limiting. The neurology has come far since you have begun these Teachings. But it still is very limited in processing that type of thought.

But I think that you have a basic understanding of the massiveness of the All That Is and the massiveness of the part of that All That Is that you know as the Quantum Field, that has many, many universes. And within those universes are many galaxies, many star systems, many solar systems. It is a *massive* creative field. Some of it has form. Some of it has matter. And some of it does not. But all of these universes, all of these fields of Energy within the Quantum Field are composed of Energetic Consciousness that each one is within the other. So, it's just one massive.... It is kind of like your Unified Field, when you work with the Triadic system, how those Triads fold all together into one Unified Field. It is so within this Quantum Field.

So, with that, Dear Ones, I will let you continue with your discussion.

**[36:15] Question 2:** Joe, going back to Sharka's questions about the Imprints and the Light Packets and the Memory Codes and the Light Codes. But there is one more: the Holographic Projections. Would you be willing to explain that a little more.

**Metatron:** Well, Holographic Projections are used within the Quantum Field. And they hold.... These are huge projections, creative projections. And each one holds massive amounts of information. And even the smallest particle of that Holograph that gets delivered and embodied in a denser realm, such as the physical realm that you now find yourself in, has every part of the massive Whole. So, you may perceive it now as many different projections of thought and information.

But, in reality, just as within this Quantum Field that is one massive Unified Consciousness, so these Holographic Projections are used to stimulate knowledge and awareness, not from the rational mind but from that vaster Whole of the All That Is, so that eventually, as you absorb it and you learn the various pieces and parts, the particles or the waves of Light... A particle is different than a wave, but yet they function very similarly and they carry information. How much of that you are able to absorb and know depends on the amount of frequencies of Light that you carry, the condition of your Light Body, and the ability of your neurological system, your brain, to function such massive amounts of information.

**[39:23] Metatron, Question 2, cont'd:**

So it's given in your perceptions, small increments of these projections that carry All of it. But you can use what you are able to use in minute pieces and parts that still carry the Imprints or the All of it that, as you grow in your Consciousness, as your Light Body becomes more massive, then you draw more from those Holographic Projections, because they carry All of it.

**Joe:** So, maybe it's an entire concept, like maybe it's a Holographic Projection on how to create with the Element of Love or how to ascend into a Light Body.

**Metatron:** Right. All of that, yes. There are various massive informative....

In this instance, with this group, it is all about creating a more massive state of Consciousness that not only draws pieces and parts from these Holographic Projections on how to use the Light Body, how to add the Element of Love with precision to your creations. So it is dependent on your ability to grow your Consciousness, which at a Spirit level is massive, but is so limited in the human form in the denseness of the dimensions that you are now able to navigate in.

So, our suggestion is, don't worry about such things. You have done well! In the last five years, you have absorbed a massive amount of information from those Holographic Projections, when we first introduced you to them. If you will think back about when Holographic Projections were first mentioned to you and that all of the information and the Energetics required to use that information would be brought to you in Holographic Projections. And think about all the Teachings and all the applications of those Teachings that you have been able to integrate and use. And you've just begun!

**Joe:** So this is going to become more how our mode of communication is going to evolve with each other in the future?

**Metatron:** Of course! And, also it's part of this experience that you are just now beginning to have of this Quantum Field, because these projections are just informational files, if you will, envelopes of more to come. And it's given to you in these small increments so that you can make them usable in the dense reality of the human form and the Earth, itself.

And what you are doing is you are then helping those who come after you to have a much more expansive experience of this Realm, because you have traveled through it and used certain parts of those Holographs. And so, when they go to the Quantum Field, they access those Holographs through the experience that you've already had. And they don't have to go back to square one. It's there: do this, this, and this. That's why these young children that you are seeing are so quick with computers and technology, because those who came before drew that from those Holographs, from the Quantum Field, and used it. So the use of it is imprinted through YOU.

**[44:50] Joe, Question 2, cont'd:** I feel like I've been doing this for a while, because somebody starts to talk about something and I get it. And they want to sit here and explain it to me in detail and I'm like, "Stop, I get it, I get it!"

**Metatron:** Exactly! Yes! And that's why your education system is in such turmoil right now, because these children want to say the same thing: "Stop! I get it! Let's do something else."

So, you are providing a pathway in that Quantum Field in denser realities for those realities to be changed *instantaneously*, as they are accessed.

And that is why it is so important to continue these Gridmaster calls, because you can project into that Quantum Field the Element of Love and the usability of that as well as these Light Templates that you have learned about and establish an Equilibrium within the Quantum Field, within those Holographic Projections that others can... The things that you've had to struggle with for five years, they get in an instant. This is the service that you are providing for humanity, for the world, for the Earth.

**[46:51] Question 3:** I have a question based on that. And so, you said we project into the Quantum Field! I thought it was the other way around, that it's this vast ocean and there's a lot of movement and then there's nothingness. And that it comes to us. But it sounded more like a reversal of that.

**Metatron:** You contribute to it. Now, that means you can...

This is one thing why we did not bring this to you before recent times, because you CAN contribute distortion, chaos, war – which you have been doing – because the contribution comes from your state of Consciousness. So, now you are more capable of being.... It doesn't mean that you won't ever err from your distortion that you might still use unconsciously.

But you are part of that Quantum Field. This is part of Unity Consciousness. This is part of you being Spirit, part of All That Is. So you contribute as well as draw from.

**Question 3, cont'd:** Is this affecting and participating galactically or universally?

**Metatron:** Yes! You know that there is a Galaxy in close proximity to the Milky Way Galaxy, which is the one that you navigate in right now in this physical form. So that Galaxy has been contributing through the Quantum Field to the Milky Way Galaxy, because they hold pieces and parts of information that the Milky Way Galaxy in this sector of the universe, the fallen sector, needs desperately.

**[49:19] Metatron, Question 3, cont'd:**

So there are parts of the world that need YOU and YOUR Consciousness and YOUR contribution.....

**Metatron Closing Statement:**

Can you get your imagination, that fertile curiosity of yours, around what I am trying to convey to you about the massiveness of who you ARE at a Spirit level and how that communication is now taking place within you, between your Soul and your Spirit, and how you have access to the Quantum Field.

You're just learning about that. These are baby steps. You are toddlers in a room full of obstacles and learning to walk through the obstacles and denseness of the world and of the body and navigate into a beautiful Field of Unlimited Potential.....

So, I'm going to step back and I'm going to ask that, if there's any other discussion, that you please bring that forth and discuss it amongst yourselves first.

[The rest of the group discussion is on the recording, as is the part of the group discussion preceding Metatron's answers.]
