

Note: Questions are often summarized. Master Kuthumi's answers are word for word. Casual conversation is usually omitted. The full conversation is available in recording E.

Question 1 – Joe: I want to thank you for bringing that incredible gift on Tuesday. It was the strongest energetic I have received in this body to date. It was almost overwhelming the first couple of days: extreme tiredness, not being able to focus.

One of the gifts you said would spring from that is being able to access our Soul Wisdom. And I feel like I'm starting to communicate with that.

I'd like to ask about some of the other gifts of these Light Packets.

Self-Love might be the most valuable one, a new one for me, which I now realize many other people don't have.

Another gift from the Light Packet is drawing the likeness of our Christed Self through the 3rd Eye.

Would you comment on that or any of the other gifts? Should we just try to notice these gifts or focus on them?

Master Kuthumi: Certainly.

First of all, I'd like you to understand these were not gifts. These are part of you. These are activations to help you in your Ascension process. And YOU are responsible for not only receiving the Energetics that are now available to you because of the consciousness that you now hold – you've worked very hard to get here. All of you have.

So these aren't gifts. They weren't given..... Yes, they're given freely. They're transmitted freely. But you have worked very hard. You paid a lot of attention to where your anomalies were, what needed to be changed, what you needed to do to hold more Light. So, when you reach certain stages, more is given energetically as well as conceptually. But it's up to you to use them.

So, yes, the 3rd Eye was part of that complexity. And the function of that was dramatically changed, because you see things not from necessarily a visualization, but you know things. Or you understand what you are observing or what is transpiring in a relationship or in a conversation with another or whatever it may be. That 3rd Eye becomes open in a way that it hadn't been opened before.

And there was, because of a lot of functioning in the neurology of the body, there was a misunderstanding really as to its location. Yes, it's in the 2nd Triad. But it is not the same as your Pineal, which is in the center of your head. This is more focused in those frontal lobes of your brain, of the head, of the cranium. But the dynamic of that 3rd Eye you have yet to become aware of.

[4:56] And with you being able to start to communicate with your SoulSpirit, it engages that 3rd Eye through the Wisdom and Love that is now part of that SoulSpirit. It's part of YOU. It's part of your body. So, it is very easy for you to digest, to know about certain complex Light configurations or thoughts that stem from your OverSoul Consciousness, your Higher Mind.

So, that's one of the parts of these activations in the DNA, with the Light Packets. The Light Packets are massive configurations of Source Light Energy. They come from that Undifferentiated Light in ways that are differentiated specifically for application. And then YOU take that, as the individual creator, and you differentiate it depending on your individual need.

So, the other thing that you mentioned was Love -- Love, respect for yourself as a Being of Light. This was very important. It's one of the first activations that occurred. And when it occurred, it was placed in that 4th Strand of DNA, because that also held that Soul Wisdom. But now, the Soul Wisdom and that Love, the Element of Love, is also in the 3rd Strand that applies to your physicality.

So this uplifts and upgrades the physicality dramatically, because of the Energetics that are not only 5th Dimension but in relation to 5th/6th/7th Dimension. This changes the function and the availability of your Light Body.

So does that answer your question, Joe?

Joe: Yes, very clearly. Thank you so much.

[8:04] **Question 2 – Charlotte:** I've noticed in the last two weeks after we shut down the first two Strands that you're there in the 3rd Strand of DNA with all of it. And you could easily see the pieces of that heritage that you wanted to let go of. [MK: Yes] And, very easily see the pieces that you valued that were beneficial for you. [MK: Yes] And you were standing in that choice. As I cleared the ones I didn't want, I could see some of the ones that I had been using out of habit, and the should's I been resisting, kind of running upstream. That all went away. And it made it so much easier to let go of some of the habits, because you didn't need them.

Master Kuthumi: No! And, the other part of that is that some of those habits you created to survive your lineage, your body's lineage. You didn't need them. So it very dramatically changes old habits.

Charlotte: I could see the needs and the habits just falling way like falling off the cliff, and I could then choose what I wanted to keep. And then I had the feeling like moving to a new town and not knowing where anything is.

Question 2, cont'd. Master Kuthumi: Right, you have to get re-acquainted with your new body and your Light Body.

Charlotte: And what am I choosing. The other ones were responses, more of a defense. Now there is the choice of a response. [MK: Yes]

And then when we put that Light Packet into the 3rd Strand, that was like putting a spotlight on the meat and you got to see all that you are, nothing hidden. And then wrap your brain around that one and then function from there. [MK: Correct]
For me, that meant dropping my habits of hiding and cloaking my energy. [MK: Correct]
Those are the two things I can see changing.

With that much Light in that 3rd Strand, with DNA in every cell, it lit up every cell in my body, so that really changed the Light Body. [MK: Yes] Now it's trying to get into every day walk-around mode.

Master Kuthumi: Well, be kind to yourself.
Charlotte: It feels great! Different. [MK: Yes]

Master Kuthumi: It is so important to notice these little things. They're not little things, either! But you may have considered that little before. And it's BIG. And when you pay attention and you notice, this engages that Light Packet even more with the DNA Strand. So, it's in noticing how you feel.

Charlotte: With that 4th one having more connection to the Soul purpose, I can see more of that Wisdom and Knowledge showing up. And I can see it.

Master Kuthumi: Yes, and it directs you on your life path.
Charlotte: And then whatever Light is in that one, it's much more lit up. Before, it was like trying to read in the dark. [MK: Yes] So, with more Light there, it's easier to see.

Master Kuthumi: Yes, it made it very difficult to transcend that 3rd/4th dimension, because you were feeling your way through in the dark, because that 3rd Strand only... the Energetics of it only applied to your physical structure..... But that's all changed.

The Unity that comes from this event is tremendous.

Charlotte: Before I felt I had to move separately from iinter-dimensional to multi-dimensional to inter-galactic. Now I can do it all of it in the same point. [MK: Yes]
So I feel much more present. Before it's like I had to leave the room. Now I can sit in the room and watch TV, have a radio, have a conversation, without me feeling like I have to change so I don't have contact with these parts. [MK: Correct]

[15:26] **Question 3 – Kazuko:** You said we are changing the consciousness of humanity through various lineages. Each one of us in the Crucible has specific lineages. Do we affect the entire human population on the Earth? In the past and future? By changing ourselves?

Master Kuthumi: Well, you do to a point. You imprint a possibility into the collective consciousness of all humans. But here again, every individual has choice. But with that imprint, it makes it easier for them to take the steps that are required to raise their own consciousness, just as you have done. But you forged the pathway. So, instead of having to operate, and I'll use this as an example, on a dirt road with lots of rocks and crevices, it's a smooth highway, because once the individual starts to use certain tools that YOU've used and found helpful, they move very quickly on their own transformation.

But what happens – every individual in this group, in the Crucible, has various genetic lineage streams. So that's where the changes are made, because it is more tangible within each individual lineage, because some Beings will use certain lineages again and again and again, as they work through that wheel of birth and death, work through the karmic repercussions of that, and are able to move out of that, because of the changes YOU made as part of that lineage. It isn't relevant to time or space.

Those Souls that come into that particular lineage of the body do not have to go through certain difficulties, because that has been altered and changed. Patterns have been changed. And so they aren't having to re-negotiate those patterns, because it's already been done. So, it's not just the future. It's those in the lineage today and those who came way before you. When/if they come back in that cycle of reincarnation, and they use that particular lineage – OR, I might say, any other lineage of any member of this Crucible – it's of great benefit. So, that's why we have continually said to you, "You have to BE it. BE it."

Kazuko: Many of us have mixed genetic lineages, many heritages. That means that it affects all those lineages in my genes, in my heritages?

Master Kuthumi: Yes, of course! And within those heritages, these individuals incarnate for certain experiences. So, most individuals in this Crucible have mixed heritages, not just one. And that just relates to this 3rd dimension, because there are many cultures, there are many races. So it's in that mixture that has come through these various lineages that many of you do not even know are there. So it changes it all!

Kazuko: So it changes the entire humanity.

Master Kuthumi: Yes. Good question!
It doesn't alleviate self-responsibility of the individual life experience and the growth that was intended or the experience that was intended by a specific Soul.

[22:44] **Question 4 – Katie:** Is it pertinent to ask at this point where karma is or was stored? Is it related at all to the Strands?

Master Kuthumi: Yes, it is, because you are working with the human body.

Now, when you had another body type in another system, karma generally stays within certain lineages, whether it be human or it be another body type, when we're talking about DNA Strands. So, the karma that you're talking about relates to the human, to the human on Earth.

Katie: And would that be or have been in the 3rd Strand?

Master Kuthumi: It is within actually the first two helixes. So within four Strands actually.

Katie: But all of that in the first two Strands in the first helix, that has been sealed away. [MK: Correct] But, we've been told also that our karma has been cleared. So, for Lightworkers who have been told this, we would not be clearing that? We would just be clearing other anomalies that we have developed in the 3rd Strand?

Master Kuthumi: Correct. Now, just because that karma has been cleared does not mean that as long as you're in a physical form, navigating an Earthly experience... You can create karma again -- by your actions, especially if it's a grievous action that goes against humanity. That has karmic repercussions. Even though the karma before that was cleared.

It's the same thing with clearing an anomaly. You are very powerful creators. And you can change a DNA Strand through your thoughts and your emotions and your actions.

Katie: Does the Soul level ever create karma or anomalies, or is it just the 3rd Strand human personality-ego level?

Master Kuthumi: The Soul does not create karma.

Katie: OK, but it still gets stored to some degree in the 4th Strand? Or is it just in the first three Strands?

Master Kuthumi: The karma?

Katie: Yes

Master Kuthumi: Yes, the first three Strands.

[26:40] **Question 5 – Sharka:** After clearing the first two Strands of DNA (1st helix), I felt a lot of relief and I experienced the difference in my body. But then I experienced a very difficult anomaly, which I believe was from a past life. I did clear that anomaly. And now I feel like after a shock, but very sweet. [MK: Yes]. I'm very grateful that I was able to release it. I had been experiencing it all this lifetime, and I cleared it.

Today I drew a Fire Dragon card that was helping me with starting a new life by resting. So when you talked about rest today, I realized that I had to rest. And it made me feel better.

Master Kuthumi: The body has a hard time with this volume of Light Energy and frequencies. So it needs to rest. And in that sleep state, it is nurtured. So, it's not so much the Soul or the Spirit. It's the brain that keeps processing, habitually processing. That's one of those things we call habits. We try to figure things out. So you're constantly running the same thought over and over and over again. The same feeling.

So, when you rest, and your mind or your brain is in that rest state, then the Energetics can take over, the Light frequencies can take over. And when your body is rested, your mind, your brain is rested. And you can make different decisions.

Sharka: I would like clarification on the discussion we just had about the DNA. If we create in our DNA this lifetime, how does that fit in with DNA we had in different lifetimes?

Master Kuthumi: As it relates to this particular lineage and any lineage in humanity in a human body, it does affect those lineages also. As I said earlier, it imprints that lineage, because of what has occurred now.

[31:35] **Question 6 – Joanne:** This is an amazing conversation, bringing up the different pieces.

The way this really affected me was in the unification, similar to what Charlotte described. I had been feeling like I had one foot in both worlds, one in the 3rd dimension and one in the 5th, and feeling pulled by that. This process has extracted me from that and unified me.

I also had questions about karma. I'm feeling that, through the unification process, that I have a lot more awareness of when I'm doing something not in alignment, not in the unification. This creates a pathway for all of the ancestry Beings. I used to feel that my job was to process dark energies as well, like BE the Light and process the dark. But there's no processing any more.

[33:20] **Question 6**, cont'd – Joanne: The more that I stay in the unified Love, unified Light Presence, the magnetic pull of the 3rd dimension is no longer present. That's not being focused on. It's not ignoring or discounting. It's actually relationships, everything.

At some point through the incarnation process, 3rd dimensions actions will no longer be a choice. That will fall away. Is that accurate?

Master Kuthumi: That is accurate, because you no longer function in 3rd dimension – at all!

Joanne: It's a little bit of a shock to the system, but it's really glorious. A freedom.

Master Kuthumi: Yes! Freedom, exactly.

Joanne: How are the timelocks and what we are doing at the Conference part of this whole mix?

Master Kuthumi: Well, the timelocks kept you relegated in 3rd and possibly 4th dimension, because those timelocks were put on, put in place, during the final fall of consciousness. So, they were put in especially in that 5th/6th/7th Dimensions, so that those specific Light Templates that elevated the consciousness, that created Unity, that created an ability to Love, to Love yourself and not be continually in unworthiness, to have value for yourself [could be put in play].

So those timelocks restricted the Ascension process. But once they were unlocked and certain Light Templates were put in play, that's when the activation of these Light Packets was able to take place. And the changes in the DNA structure was available, because you had 5th/6th/7th Dimensional Light Templates that had been locked so that you stayed in the experience of 3rd dimension.

It was another one of those huge game changers, that, at the time we began with you unlocking those timelocks, that you didn't realize the vast repercussions of that in the Ascension process and in the transformation. Those Light Templates afforded the individuals and the Collective to move out of 3rd dimension once and for all!

Joanne: So, there's a closed system and then you open up more and more wholeness and communication. The change in the DNA – I feel like the potential is already there and these Light Packets go in and supercharge or activate the potential? Like fibrillating someone back to life almost. [MK: Exactly] And then adding that energy to that potential, like water to a seed, and it can bloom into the Energy the timelocks opened for us.

[37:53] **Question 6, cont'd – Master Kuthumi:** Correct.

So the other part of that, then, is that with these Light Packets engaged.... You know, for years there has been conversation about “The Light shines in the darkness and transforms the darkness.” In 3rd dimension, with those timelocks in play, that was almost impossible.

So, with the Light Packets functioning, the Light Templates opening, all of that changes. The Light IS shining in the darkness, IS transforming that darkness into Light.

So, we continue to work with you on that 5th/6th/7th Dimensional Light Templates. And the timelocks have been opened. But there are many.... that 5th/6th/7th Dimensional Light Templates are massive. So, you are continually working, with each Conference, in new aspects of those three Dimensional Light Templates.

So, in last Conference, you were unable to fully really comprehend that 7th Dimensional Light Template. And so, that's part of this Conference's work – to open another channel. Now that we've activated these Light Packets in certain Strands of DNA, you're capable of incorporating another Strand.

Joanne: Thank you. Now I can feel the inter-relationship of all of it.

Master Kuthumi: Correct, yes.

[40:32] **Question 7 – Jana:** Each person's little nugget of Wisdom looks like little pearls being strung into a beautiful string of Light that we're creating here.

Could you speak a little bit about spinning at this point? For me the spinning of the DNA Strands in the Matrix was revelatory. And I'm getting the feeling in my body that the vagus nerve is a big unifying mechanism that's helping the physical body to become unified. [MK: Correct] Is there a spinning aspect to that?

Master Kuthumi: No, it's just the function of the vagus nerve, which is to transmit and send certain energies into the digestive system, into various parts of the body. It's a key unifying mechanism, so it functions coherently. So it streams.

Jana: So it's not a spinning mechanism.

Master Kuthumi: No, it's an energy stream, you know, like a vein or artery carries the blood. It doesn't spin it. It just carries it where it's needed.

[42:39] **Question 7, cont'd** -- Jana: And how does that interface with the Light Packets now?

Master Kuthumi: The vagus nerve?

Jana: The way I see it perhaps needs some upgrading, because we have been groping in the dark with this 5th Dimensional Unity and Love, as we approach 5th Dimensional Consciousness while having been living, by default, from a 3rd dimensional perspective. And now the freedom that I hear people (and myself) speaking of is that life is simplified dramatically, or undramatically as the case may be, with this sort of organization and unification that we're experiencing with the sealing of the first two DNA Strands and the now the Light Packet in the 3rd Strand.

So, I've seen the spinning of the Triads and the chakras, which come into the physical through the glands of the endocrine system, which then, depending on the Light Quotient and the vibration range, will create the chemicals and the hormones that help the well-being of the physicality. Is that an accurate....

Master Kuthumi: Yeah, it's accurate. But you're talking about two...

The human body in 3rd dimension, that body function is fragmented. And there is very little communication within the system. That's why the body dies, because it cannot maintain adequate health, itself, in the body.

Now, with these Light Packets and the changes in the DNA structure, it alters the consciousness into that multi-dimensional function. And because you have begun to use the consciousness to lead the body, there now is a unification taking place in the fragmented function of the physical body, just as it changes and alters the mental-emotional body – the creative mechanism.

So, all of these fragmented pieces and parts of the physical body become unified in their function, because of the consciousness that has been achieved through these Light Packets and the DNA Strands, and in the chakra system – because the chakra system is your energetic force. The first seven relate to the body; and the rest are nonphysical.

But this unification piece is really, really important and has dramatically changed because of the Light Templates, the unlocking of the timelocks – all of the things that we have led through in the last four years of your time. So they all become unified in their specific functions.

[47:00] **Question 7, cont'd** -- Jana: Beautiful. So, when I see the vagus nerve and the communication highway, is that an assistance that we're offering to our physical bodies?

Master Kuthumi: Oh yes. It's a communication channel that is opened.

Jana: So, it's valid and has value in the process that we're now experiencing?

Master Kuthumi: Yes. Very much so.

Jana: It seems to be lit up like fireworks.

Master Kuthumi: Well, there's a lot going on in that body of yours!

Jana: Like sparks and swirls and colors. And so everything is coming together in concert.

Master Kuthumi: Yes, yes.....

Well, it seems like you're ready to close for this evening.
So we will proceed with that closing.

This has been a WONDERFUL conversation, Dear Ones, and we will do this again. It's needed. It's needed to unify the consciousness of the Crucible, of each and every individual that participates -- that Unity and that confidence and that trust in each individual. And then coming together in this grand, unified expression of your Christed Image.
