

A: John's Intro:

Welcome back to our Seating of the Divine, Level 4, Session, 11, August 25, 2019. We are pleased that you have joined us today, as it will be a full session.

We will start today with a Centering Meditation from Archangel Gabriel, followed by Joan sharing some important information about the differences between the reptilian form and the Fire Dragons.

Melainah will then discuss the reptilian energy and how that affects the human Ascension. This discussion will cover from the Atlantean times to the present day. She will also discuss the protection of the Crucible, the Ring of Fire and the Four Archangels.

And, I will discuss how to be aware and protect yourselves from this dark influence.

Joan will then channel Lord Metatron, and he will follow up with an open discussion. The session will close with a meditation.

B--Joan: Discussion of the Fire Dragons

Some of you had great difficulty relating to the Fire Dragons when we first introduced them to you. So, in view of this and information that Metatron wants to put in play before the Conference, we thought that it would be appropriate to give some further background on these mystical creatures.

Who are these Fire Dragons?

The word "Dragon" comes from the ancient Greek word "draconta", meaning "to watch".

The Fire Dragons that we have recently become acquainted with are special Energetic Beings that have a specific function and purpose. This Collective Community is overseen by the Archangelic Realm and the Collective Consciousness that we perceive as Archangel Michael.

Two things that we must have more knowledge about are the fact that the Dragons are mystical, non-physical 5th/6th/and 7th Dimensional Beings of Light that have never taken on form. They were created to serve Humanity when a time sequence was set in play where they could serve us in our transformation.

B-Joan, cont'd: I just used the term mystical instead of magical for a reason. Magical often means to us an illusion. Mystical is Spiritual development. When an individual is known as a Mystic, they possess an intimate knowledge of a direct communion with The All That Is through their interior Journey through meditation, contemplation, and inner vision. Whether you realize this or not, we are all on a path of a Mystic.

The Fire Dragons are mystical Beings who serve us by removing dense dimensional energies that no longer serve us. They operate from 5th through 9th Dimensional frequencies.

Humans have tried to create various types of visuals through art and now graphic representations. Understand that these visuals are human creations that are trying to portray a non-physical Being. Often, these portrayals relate to some reptilian form. As a prime example, we have all seen the picture of Archangel Michael as a human in knightly armor slaying a dragon. This plants seeds of confusion. In truth, it is a depiction of a non-physical event with Michael, the protector of the Creative Energy of Source from being contaminated or influenced by a false belief system that is in opposition to our Divine nature. This illustration has been around for hundreds of years or more and comes from the dense 3D realm.

Fire Dragons are associated with the Elementals. They clear the subtleties in the 3rd and 4th dimensional realms that keep humans experiencing themselves in those dimensions of separation and fear.

As you move into dimensional consciousness that have more refined frequency ranges, then your visualization of the Dragon Energy changes. Your visuals take on less form. They may be colorful Energetics that are moving or spinning, but do not necessarily have a specific body type. They will have, however, an Energetic Signature that you will become familiar with, just as you have become familiar with certain Angelic Energies or Master Imprints.

The Reptilians, however, are a physical race of beings with a specific body type. Originally, they were created in Light but are now a fallen energy form. They are very adept beings in form, with the ability manipulate form itself. They are skillful and masterful in these manipulations. Melainah will talk further on this subject.

So, we are talking about two different beings. The Dragons are an Energetic that does not have a physical form. Their Energy can be ferocious when it is in opposition to darkness. They eliminate the darkness and transform it into Light, but always within the Energetics of the Element of Love. They are constantly in opposition to the reptilian energies. They set an Energetic Template that allows humans to see through the veils of deceit of any reptilian interference.

C-Melainah: Dragons versus reptilian energy

Let's all take a deep breath.....

This subject may push on or light up some of your ancient memory codes.

Should you find that happening, breathe through it and bring yourself back to neutral...

What is a Reptilian?

As Joan just shared, they are a fallen race with a specific body type.

They did originate in the Light.

You may be wondering why we are having a discussion about Reptilians at all.

It seems that because of the work we have been doing, including reconstructing our Light Bodies, we are now on the radar of some opposing factions who do not want this to happen. These opposing factions that have come to our attention at this time are mostly the reptilians.

We are discussing these things now with the intention that we will avoid any disruptions for our Conference.

The Reptilian influence is well and alive throughout our Planet today, just as it was in the end times of Atlantis. Some of you may have memories of encounters with them in Atlantis and in other Soul incarnations. I certainly have memories of them in Atlantis.

Here are some of the things I have learned about them through those experiences and memories:

1. They are master deceivers.
2. They are masters of form and can present in many different body types.
3. They can shapeshift.
4. They are chameleons and have the ability to present themselves as whatever they believe you wish them to be.
5. They are opportunistic.
6. They can be subtle in their influence. They are not always overt in their behaviors and actions. They can be very charming, engaging, and dynamic.

So, what can we do to minimize this influence?

1. The most important thing is to be aware.
2. Be discerning about what you engage in, what you allow yourself to absorb through your environment, such as what you read in books or on the internet or watch, or who you are listening to.

C-Melainah, cont'd -- What we can do to minimize their influence, cont'd:

3. Begin to pay attention to how some of these things may alter your energetic field. Be discerning about information that seems interesting. Take time to really look at it. As an example, some information may at first glance appear to be full of what you accept as truth. But if you reread it carefully, you may find that it is interwoven with anomalies in regard to who you are and what your origins are.
4. Question what you are feeling in your body. You know those times when something just doesn't feel right. Learn to trust your gut.
5. Be conscious of your triggers. Ask why you being triggered by a situation. Or ask why is that person triggering me.
6. Watch your ego, particularly in regard to being in control over or feeling better than. These forces are very adept at stroking your ego. In Atlantis and other ancient times, we called it being seduced by or being caught in the maya.
7. Be conscious of your emotions such as fear, anger, jealousy: emotions of the 3rd dimensional paradigm.
8. Be aware of 3rd dimensional thought forms such as passive/aggressive behaviors. These were viruses created in Atlantean times to be activated when disruptive behavior could be implemented to create distractions and divisions as we and the Planet are moving into higher frequencies of Light.
9. Be aware when you feel vulnerable, like when you are sad, emotionally upset, ill, stressed, or very tired.

The things on this short list are not limited to the reptilians. Be aware of any negative force, feeling, or thoughts that keep you in separation or believing you are not enough.

Set your intention and attention to be in present time with conscious awareness. Understand that we are the counterculture to the opposing forces.

John is going to give us more information about how to protect ourselves from this and any negative influence.

D-John: How we can prevent reptilian interference

Here are some ways we can prevent reptilian interference:

1. Humanity has a deep-seated familiarity with the 3D paradigm that was in play on Earth for thousands of years of our time. Humans go back to this paradigm often when they feel threatened in any way. They go back to the thoughts and emotions that are based in fear, unworthiness, and separation.

This is a protective mechanism based in survival.

A feeling of superiority is one of the first signs that you have gone into that familiarity of 3D.

2. Our Teachers of Light have continually laid the foundations for removing this influence by continually mentioning the ego.

The ego is the first place that reptilian interference often finds an opening. When threatened, you revert back to the old familiarity through fear or a desire for dominance, because you seek a way to survive and understand yourself as capable, superior, or aware. This is where Spiritual arrogance begins to enter and is a perfect ploy that is used by the reptilian energies.

The 3rd and 4th dimensional paradigm is only in play through habit.

You are never superior at a Soul level.

You are a unique Divine expression.

3. Be Aware

Stay conscious, especially when triggered by an individual or an event.

Be aware when you think continual thoughts that are not in alignment with what you have been taught.

Be aware when you are in opposition to the Teachings that you have been given.

4. Be aware of thoughts such as “I can’t; I am not worthy; I don’t get this information; I am not capable of using this energy and technology.”

5. Be aware when you fall into a group think.

This happens when you band together in groups of individuals that are of the same mind-set.

Also, be aware when you are influenced by others’ opinions that may not resonate with your Soul’s Wisdom.

This is when you fall into that group think and follow the pack.

You are not willing to be in opposition and don’t stand up for what you know or feel, for fear of not being accepted or liked.

D-John: How we can prevent reptilian interference, cont'd

6. Review the last session we had, where you were anchored in your individuality at a higher frequency through the 3rd Light Packet.

The 3rd Light Packet is as massive as is the 1st Light Packet relating to the Element of Love and Self-Love.

7. The 1st and 3rd Light Packets make a huge difference in the physiology of the body through the mental-emotional body.

This is the beginning of your Knowing of Self as a Christed Being in a body.

8. The 4th Strand was put in place to engage the Light Body a little more through the Higher Mind.

9. Take nothing personally. What do I mean by this?

Well, when you take what a person says as a personal affront, realize that this is their opinion and is based on their reality, not yours.

It is important that you always hold true to yourself. Hold firmly to your Divine roots.

10. Treat yourself with respect. When you do this, you will treat others as you would like to be treated – with kindness and compassion.

11. Don't neglect to shine your Light and help others to have a better day.

This can be accomplished by a simple smile, a "Hello, how are you?", "Isn't it a great day", and at least a thank you when it is called for.

12. Do not stress the body by trying to hold a high frequency range such as 7th Dimension. You are not ready yet for that refined frequency to take up residency at this time in the body.

You can begin to operate in the 5th/6th/7th dimensional frequency band width, because of the Light Templates that were retrieved. This is not demanding on the body. When you force a larger refined Energy into the body, the ego will respond with "Danger! Danger!", and some fear will be triggered which will cause disruption.

13. Set your field daily in the morning and evening, not necessarily for protection but to reinforce the integrity of the field as well as for the functionality and maintenance of the system in 5th Dimension.

14. Finally, use Michael's Shield often to help you persevere in your Ascension process.

All these things will make a huge difference in preventing the reptilian's ability to alter your role in the Ascension process at this time.

These teachings and Energetic Transmissions are not to be taken lightly.

E-Melainah: The Crucible

Thank you, John. That was great information.

We also want to remind you of the protection of our Crucible.

We have the environment of the Crucible itself, which contains many refined Energetics that assist us in holding the frequencies of the 5th/6th/and 7th Dimensions.

I don't know if you were aware that last year, just before the end of the Conference, the four Archangels, Michael, Gabriel, Uriel, and Raphael, took positions around our Crucible in that Diamond shape configuration and created an Energetic Field that has remained active. This is a very high frequency band.

We also have the Ring of Fire that was put in place last year in Hawaii surrounding our Crucible.

I will remind to consciously stand in the Ring of Fire and ask that anything that prevents you from operating to your highest intent be transformed by fire.

I encourage you to take advantage of the Ring of Fire anytime, not only when you are entering the Crucible.

Metatron has assured us that the Crucible is well protected and that the reptilians will not test these Archangels.

However, we as individuals must remain aware and use our discernment.

To further assist us, about 3-4 weeks ago, an Energetic Bubble was put in place for the entire group. This also applies to you as an individual as you move through your daily lives. It goes where you go.

This bubble serves as another protective layer. But its purpose was intended to help us hold the Energetics that have been given over the last few weeks in a more stable environment for you as the individual. This will remain in place until we gather in Mena, Arkansas.

Please join me in welcoming Metatron, who will speak with us.
And then we will open up the lines for questions and comments.
