

Greetings, It is I, Metatron.

I come in the Collective Consciousness of the Lords of Light. And I come to the forefront to facilitate this session, putting in place specific energetics, energetic concepts that will be fully expanded upon in your Conference. These preliminary energetics are extremely important placements that we will facilitate, as you have prepared yourself well, Beloveds, during this past year.

So, now, take a deep breath....

[Importance of the Breath to stay conscious and alert]

To begin with, we would like to talk about the importance of that breath. As Archangel Gabriel urged you to stay very conscious and aware during this session, I also reiterate that. Yes, you are capable of holding that 5th Dimensional state of energy. But, as the energies begin to rise, through these various processes that we will be guiding you through this evening, many of you have a tendency to go unconscious.

So it is with the breath that we help you to stay alert and very conscious in this process.

Do not be concerned if you momentarily lapse into sleep or unconsciousness. It will only require that you re-listen, not read the transcripts but listen to the recording, because the recording will carry certain Sound Templates that are very necessary in these energetic processes.

So, the breath not only helps the oxygen remain stable in the body, where the physical body has an alertness, a wakefulness, but it is also helpful to the prana of the Light Body, so the Light Body begins to receive and be activated at another level.

So, often throughout this discourse, we will encourage you to take a deep breath, to breathe....

So, when we ask you this, take a long in-breath and an equally long out-breath, so that alertness is maintained. Needless to say, the Energetics will not only be stabilized in 5th Dimension, but often they will also incorporate 6th and 7th Dimensional frequencies.

So that said, take on of those deep breaths at this very moment.....

[Reminder about the axiatonal lines in the physical body and the need to stay alert]

Now, the first thing that we want to draw your attention to are the axiatonal lines, the axiatonal Light Channels. We have done a lot of work with your community in this regard, activating those channels in your physical body. You were told that they lie above the meridian system and that through certain spin points they are connected into that meridian system and into the energetics of the physical body.

[5:55] Now this is not an exercise for the rational mind. But we will give adequate information so that the rational mind is completely satisfied.

Your part in this is to stay alert and conscious of the energetics and how they play out in your system, both in your physical body, as well as your Light Body, and all of the energetics that are part of those two bodies.

So, let us first tell you about this new activation of another series of axiatonal Light Channels. These Light Channels now relate to a much broader spectrum.

[1. Activation of Axiatonal Light Channels into the Earth]

We begin with the channels that are now being activated into the Earth itself. Now, this is made possible by the activations that have taken place when you learned to use your Earth Soul Star and dock it into the Soul Star of the Earth and draw from the Energies of the Inner Earth Communities. Whether you realized it or not, this was made possible through the Axiatonal Earth pathways or Light Channels.

Now these Light Channels are also part of the ley line structures. Just as the meridian system has been part of your physical body's energetic system, the ley lines of the Earth are also part of the Earth's energetic system. And these Axiatonal Light Channels lie above but in close proximity to the Earth's ley lines. And they are connected into the ley lines through the axial spin points in various locations throughout the Earth.

This is a very important activation.

Take a deep breath..... Remain conscious and alert.....

And Notice what has just happened through your Earth Star docking into the Earth's Earth Star. And how these Axiatonal Light Channels are lit up within the Earth's energetic system.....

Another deep breath.....

Just Notice the Energetics and notice that beautiful series of Light Channels.....

Another deep breath..... Present in the moment..... Alert.....

[10:37] [2. Activation of the Axiatonal Light Channels into the Solar System]

Now that this has been activated into the Earth, itself, there is a further activation of those Light Channels, the Axiatonal Light Channels. And that activation extends out into the Solar System. Each and every planet is connected through the Axiatonal Light Channels.....

A deep breath..... conscious..... alert.....

Notice how those Light Channels light up within the entire Solar System, very much like I just described to you what happened when they were ignited in the Earth energetic system.....

So the entire Solar System, each planet individually, as well as collectively, are now united by these Axiatonal Light Channels.....

A deep breath..... refreshing the physical body's alertness..... and increasing the prana within the Light Body.....

Notice the energetics that are taking place at this moment, in a very unified sequence. Observe.....

[13:15] [3. Activation of the Axiatonal Light Channels into the entire Milky Way Galaxy]

Now, let us continue this activation. The next activation is a galactic activation. So the Axiatonal Lines are extended into the entire Milky Way Galaxy, where all Star Systems and Planets become united within that galactic system, through the Axiatonal Light Channels.....

A deep breath..... alert..... conscious.....

The body is alert and very conscious, very aware, energetically and conceptually.....

Another deep breath.....

And the Light Body's prana is refreshed and alert.

Notice the entire physical and Light Body Energetics – at this very moment.....

[15:20] [4. Activation of the Axiatonal Light Channels into the Andromeda Galaxy]

Another deep breath..... and one more activation of the Axiatonal Light Channels.....

That activation is outside of the Milky Way Galaxy but in close proximity.

We will now connect in, through the Light Channels, the Axiatonal Light Channels, to the Andromeda Galaxy..... This is the beginning entry into that Galaxy.

A deep breath..... alert..... and present.....

[16:15] [4. Andromeda Galaxy, cont'd]

This was a necessity so that more direct communication can take place between the Milky Way Galaxy and the Andromeda Galaxy. Those transmissions flow much quicker through these Axiatonal Light Channels. They are of a much different frequency than the Milky Way Galaxy. And this makes them, through these Light Channels, have a compatibility and an equilibrium that is necessary.....

FEEL that Unification taking place at this very moment... through these Axiatonal Light Channels.....

They are now extensively positioned. They enhance conceptually and energetically a new Unification that is now activated, united with your physical body as well as your Light Body, enhancing the further activation of the Merkaba Vehicle of Light.....

Another deep breath.....

And another..... breathing in and exhaling.....

calm..... alert..... and very conscious.....

in the 5th Dimension, now drawing in frequencies of the 6th and 7th Dimension.....

A deep breath.....

Another deep breath.....

[19:40] [5. Information, concepts, energetics and further activation of the Light Body]

And now we begin another aspect of information, concepts, energetics in regards to the Light Body. As you are well aware of, your Light Body is not fully activated, so that the stableness of that 5th Dimension is unified. There is still work to do in this area. But it will be much enhanced through these Axiatonal Line activations, incorporating the Earth, the Galaxy, and the Andromeda Galaxy.

Now, in previous activations, we have always taken you into the Sacred Heart Center, the consciousness of the Sacred Heart. In that consciousness of the Sacred Heart, we placed your Soul Star, the Higher Mind that is part of Universal Mind, and many other aspects, always going back to the Sacred Heart Center, where the Element of Love, that consciousness resides.

Another deep breath.....

Be in the consciousness of your Sacred Heart... alert...

and very aware of the refinement of that Sacred Heart Center.....

A deep breath..... the body is alert... the physical body is alert, present...

The Light Body is aware, alert, and that consciousness is very active at this very moment...

[23:03] [5. Light Body Activation, cont'd]

Pay attention!

FEEL... the energies of your Sacred Heart, which is the foundation, an energetic foundation of your Light Body. It is not part of the physical body, never has been. We have never discussed this with you, because we wanted to acclimatize you to the consciousness of the Sacred Heart. The Sacred Heart dwells in the Light Body. It is the energetic foundation of the function of the Light Body.

A deep breath... alert.. and conscious.....

In this awareness, FEEL a different energetic that has come online at this moment in the Light Body. FEEL the difference in the energetics of your Light Body.....

A deep breath... And again, another deep breath...

FEEL the prana as this activation takes place in the Light Body....

Now, one other thing that we want to convey to you in regards to the Light Body at this time. These Axiatonal Light Channels that we just activated to incorporate the Energetics of the Earth, the ley lines of the Earth, also has a great bearing on the Crystalline Grids of the Earth. We extended the activation of the Axiatonal Light Channels into the Galaxy, the Milky Way Galaxy. And we extended it into the beginning entry point of the Andromeda Galaxy.

Take note of this! These Axiatonal Light Channels are all part of the complexity of the energetics of your Light Body, that are now beginning a sequence of new activations.

A deep breath... conscious... alert... and very present.....

FEEL the Unification taking place not only on all levels of your energetic system... but the system where the environment of your physicality is created in the Earth.....

How those channels unify you with all parts of the Milky Way Galaxy.....

How they unify you with the entry points of the Andromeda Galaxy...

How they unify you completely in the Light Body.....

And they begin a new activation of your Merkaba Vehicle.....

The Merkaba Vehicle has operated in neutral gear since it was first activated.

Now, with these activations, that Merkaba Vehicle is functioning at a new energetic level, enhancing the function of the Light Body, and the Light Body enhancing the functioning of a fuller spectrum of the Merkaba Vehicle of Light. You can liken it to an automobile in 1st gear.....

[29:49] [5. Light Body Activation, cont'd]

All of this is satisfying your rational mind.

Nothing to think about, only BE conscious, aware, and know that a great unification has just occurred within your entire system as a Divine Being of Light.....

Take a deep breath.....

Notice the brilliance of your Light, Beloveds,
in a way that you have never seen that radiance before.....

Absorb it... Acknowledge it... Be present in it.....

It will give you great power to stabilize that 5th Dimension within your physicality.....

That stabilization is so important to your Ascension process, so that you can always maintain that 5th Dimensional state of consciousness.

With these activations, this is a HUGE step up.....

Now, let us take a moment here... and be very consciously aware.

We have given you a tremendous amount of energetic activations and sequences,
that has just occurred.

We have encouraged you to stay conscious and alert at all levels of you.....

Breathing, consciously breathing....

Now, Let us sit together in Unification, each one of you, individually, united collectively in your Crucible of Light with all sectors that have been connected now, unified, through the Axiational activations and Light Channels.

FEEL that in your Crucible, Beloveds.

FEEL the difference in the energetics of that Crucible.....

Stay alert and stay conscious, because these energetics are very stabilized in 5th Dimension, the first time you've really felt what stabilized 5th Dimensional Energy feels like.....

So, I want you to sit with me and with the entire complexity of all of the unified members of our Crucible.....

and acknowledge your unity, acknowledge the stabilized vibration of 5th Dimension.....

Sit for a moment or two with me, now..... in this stabilized Consciousness.....

Breathing in and breathing out... Breathing in and breathing out.....

Aware... alert... conscious.....

Another deep breath.....

[35:49] [6. Activation of the Three Star Gates and the Beings within those Star Gates]

Now, Beloveds, we have one more Unification to activate. And that is the Unification of the three Star Gates and the Beings within those Star Gates, unified through your energetic system, unified in the Crucible, and the value of drawing in that Unification, just like you did draw in the Unification of the Inner Earth Communities. This is equally as valuable.

So, be alert and conscious.....

as we travel together through those Axiatonal Pathways..... with your Soul Star engaged... your Light Body engaged... and your Merkaba Vehicle engaged...

[6a. Arcturian Star Gates]

Travel that Light Channel, that Axiatonal Light Channel, into the Arcturian Star Gates...

Ask permission to dock your Merkaba Vehicle..... And it will be granted.

Take a moment.....

Now, Notice the Beings in this beautiful Star Gate, very human-like in many aspects, but a little different than you are. They, too, have stabilized their Consciousness and their Light Bodies in 5th Dimension. But many operate at that 5th, 6th, 7th Dimensional, sometimes 8th Dimensional level in stability.

Many of these Beings – there are of a varied complexities of the human body. There are many types of human hybrids in this Star Gate. They are one of the Star Systems that have most recently ascended both physically and energetically into a stabilized version of 5th Dimension. And, as I have said before, they have also reached stabilized states of 6th, 7th, and 8th Dimension, depending on the individual Being.

But they are important assets to humans on Earth. And they will continually transmit their achievement in form in a stabilized 5th Dimensional state of the human form. And they will transmit those valuable energetics continually, as they have in the past. But you were unable to fully incorporate them, because these Axiatonal Light Channels were not activated -- Now they are.

So, as these beautiful Beings, Divine Beings of Light, continue to transmit this stability and their pathway into a 5th Dimensional state physically and energetically, it will be a much different transmission and receptive point through your Light Body into your physical body's consciousness. It will be a great asset to you.

So, Receive now from these beautiful Light Beings of Arcturus...

as they transmit that 5th Dimensional stability... at a physical and energetic level...

Receive it in gratitude..... Give thanks for all of their assistance.....

A deep breath..... Now, undock your Merkaba Light Vehicle from this Star Gate.

And, as you bid them farewell, know that you are forever united as Divine Beings of Light....

[43:23] [6. Activation of the three Star Gates, cont'd]

[6b. Pleiadian Star Gates]

A deep breath... and let us continue our Journey into the Pleiades.

There are many Star Gates here... But, as we enter this system, let us enter in the Star Gate of Alcyone [pronounced with 3 syllables], where a section of the Solar Sun resides. Travel now in your Light Vehicle, your Merkaba Vehicle, and dock into Alcyone... Ask permission to dock... It will be granted...

Take a deep breath...

Be alert and aware, and very conscious, as you dock into that Star Gate of Alcyone...

This is where the physical aspect of the Solar Energy resides... that Central Sun that relates to the human Earth Being of Light -- the energetics of the Central Sun at that physical level. These great Beings, the Pleiadians, are very devoted to Earth humans. And they have imprinted your DNA since the fall of consciousness, to help you recover the fullness of who you are as a Light Being.

So, now, in this docking -- through an activated Axiatonal Light Channel -- you will continually draw from that Star Gate further aspects of your physicality as it relates to your Christ Consciousness. It will elevate the Christ Consciousness at that physical body level and bring it into a unification with the original state of the human Earthly body. The activation of this Axiatonal Pathway and the docking that has now occurred provides a channel of transmission that will accelerate the human body's consciousness, enabling it to stabilize in that 5th Dimension.

Take a deep breath here... be very conscious in this moment... and what has just occurred... Be in gratitude... and give great thanks to the Pleiadian Consortium, as you become more united with this Star Gate system...

And now, undock your Merkaba Vehicle from this Star Gate, again extending your gratitude, as you are unified completely with this Consortium, in your Crucible -- They are part of your Crucible.

Now, take a deep breath... be very conscious in the moment...

Be very centered in your Light Body...

Be aware of the new activation that has occurred in these last two activations of the Merkaba Light Vehicle -- how well it went from Star Gate to Star Gate, with a fully engaged 5th Dimensional Light Body.

Sit in this consciousness... Breathe it in.... Be very conscious...

And take a moment here to rest in these extensive energetics.....

[50:16] [6. Activation of the three Star Gates, cont'd]

[6c. Sirian Star Gate]

Now, one more stop, Beloveds.....

Direct your Merkaba Vehicle to dock in the Sirius Star System, in Sirius B. You have docked there before. And the Sirians are awaiting your arrival.

Ask permission to dock your Merkaba Vehicle in that Sirius B Stargate...

And of course it is granted... And you are greeted with much joy.

Be aware that this activation of the Axiatonal Light Channels enhances your unified Presence with the Sirian Star System. And they are in great joy and receive you in open arms, united with you in the Crucible in ways that you have never felt when you docked into Sirius B in last Conference.

This Unification of the three Star Gates brings a whole new level of consciousness into the Crucible, into each individual member of the Crucible, uniting forever all present at this very moment: the Arcturians, the Pleadians, the Sirians, and the humans – Earth Beings, united in the Element of Love and in Light – great, magnified Light.....

[53:25] [6d. Back to Earth]

Take a deep breath... be very conscious in this moment...

Direct your Merkaba Vehicle to come back to Earth.....

And dock... in the Earth.. at this very moment...

Dock into your Earth Star...

very grounded, but very expanded through the consciousness of your Sacred Heart within your Light Body.

Notice the difference at this very moment in your Energetics...

There is no interference and the Light that you contain is luminous and brilliant.

The consciousness, the Unification of all parts of your system in all parts of the Galaxy, have been achieved in this session.

The Unification that is held within your Crucible of Light is extensive...

This session has been extensive and layered, but oh Beloved Beings, soooo necessary that all of these things be in place and activated and functioning as you enter the Conference. We have taken great care in bringing you to this very conscious moment.....

[56:16] Now, take another deep breath..... be alert, conscious...
And FEEL your vibration and frequency of Light.....

A beautiful, whole new energetic system coming into place.....

Now, before we close this session, I want you to be very aware of the Unified Presence that you have access to within the Galactic system, within your Crucible, within YOU, within your Light Body, and within your physicality.....

There is no doubt at this moment that you are anything but Christed Light.....
FEEL that in your Crucible, where you support each other in that highest frequency of Source Energy.....

Now, we urge you to re-listen to tonight's recording on more than one occasion and receive again the Energetics, brought through the Sound Currents, that will provide not just Sound that the physical ear doesn't hear but will also provide Colors, magnificent Light Colors that are part of this whole complexity.

So, re-listen and acquaint yourself with every part of this newly initiated Light system.....

And we thank you for your participation.

And, with that, Beloveds, we are ecstatic at what you have just accomplished.....

So, we will close this session and allow you to absorb, integrate, and become familiar with the new activated levels of yourself.....

Blessings, Beloveds, Blessings!
