

Greetings, Beloveds, It is I, Metatron.

I come as a Lord of Light, but I also am here as the Overseer of the Ascension of all physical realms of Earth and other planetary systems that are now in the process of transformation.

We would like to explore, this evening, more of the 7th Dimensional Light Template and that 2nd Iteration, which Yeshua will discuss with you.

But before that occurs, I would like to bring your attention to Gabriel's meditation and the transmission that you just created in regards to the Divine. In the last few years, you as a group of beautiful humans, Christed humans on Planet Earth, have been very devoted to exploring what is required of you as that Divine Image that you were created in at the very beginning, when your Spirit was created, before any form existed. And then a Soul was created, so that beautiful Spirit that was created in great Love and the perfect Image of the Divine.

Take a deep breath and FEEL what that feels like at a Spirit level in your body.....

The Perfect Divine Image.....

Now begin to FEEL what that might feel like in a 5th, 6th, 7th Dimensional physical human form.....

Notice, at that moment when that Divine Presence descended into your body, and every cell resonated with the Image of the All That Is,

there was no conscious reference whatsoever to the gender of the body, the human body that you now inhabit.

It's only when I draw your attention that that body possibly has a gender, either male or female.

This body type was created at the fall, so that you could experience 3rd dimension.

There was no unity whatsoever in this body function.

All that has changed.

You have spent many years accomplishing this state of consciousness.

From time to time that consciousness will vary and you'll be brought into a 3rd dimensional reality in your day to day life. But this state of consciousness of the Divine Essence of the human body, the Christed human, is easily brought back into the consciousness through intention and through breath.....

[6:06]

It is through the 2nd Iteration of the 6th and 7th Dimensional Light Templates that this state of consciousness is available. There is a stability through the human body, as you create that human form in a 5th Dimensional state, with stability. This comes from and through the Sacred Heart Consciousness of your Light Body. And when you place your attention of yourself as a conscious Christed Being of Light, completely seated in the Image of the All That Is, in your Light Body, recognize that there is no gender relationship in that state of consciousness.

There is creativity. There is a creative Mind that directs Energy, that directs your thoughts and your emotions, creating a momentum to manifest in an unlimited way. You are beginning to see this, Beloveds.

So, the Light Body is now in very close proximity to your human body, to your Etheric Body, where the human body draws that Energy into it and is very gradually transforming into a radiant 5th Dimensional human body -- radiant 5th Dimensional body. That consciousness in the body is becoming very stable. The more times that you visit your Presence in your Light Body, it magnifies that Divine Energy and allows it to enter into the actual physical form, transforming it into a 5th Dimensional Vehicle of Light.

And that Essence of the Divine is never divided. The aspects of the Divine Feminine and the Divine Masculine that you have worked with previously are becoming united in that 5th Dimensional body, in the Energies of the human body.

The Presence of the 5th, 6th, 7th Dimensional 2nd Iterations of the Light Templates are bringing about a direct change in the consciousness of your body, as I have spoken to you this evening, directing you to place your attention there.

There is a Unity within that body that is being created by YOU, as you place your attention on BEING a Light Body, having access to specific Light Templates, utilizing them in your creation, altering the electro-magnetic field of the body itself, raising it into a different frequency range, and utilizing the massive creativity that can be manifested in form through your mental-emotional body, through your own physical body.

These are the changes that we wish for you to recognize. So, when you write in your journal, write to yourself about your Light Body, about your consciousness on that specific day. Write to yourself a note – how it FEELS to be functioning in your Light Body. How you are able to transmit, just as you transmitted that perfect Divine Image into Dubai... that you transmitted into your physical body.

[12:43]

And as you hold that state of consciousness of perfect unified expression of the Divine, something wonderful happens. Your body consciousness begins to change, because it is following your consciousness. So, the more that you write about it, the more you can be certain about it, the more of that Essence gets placed within the body complex. And there is a stability of 5th Dimension that very slowly is now taking place.....

You still will have to contend with the outside world, Beloveds, and the collective consciousness of the unawakened that you interact with on a regular basis. Hold firm to what you know about you. Do not be influenced by outside circumstances that still prevail in fallen states of consciousness.

You CAN and WILL make a difference, as you hold this Divine Essence and the memory of yourself as a Divine Being of Light in a Light Body. This will change the collective consciousness of all humans. This process will be slow. But you have the courage and the tenacity to stay strong and firm. For when you create that stability in your human body, in that 5th Dimension, it is readily available for others to see. They may not understand what they see, but you are capable of presenting that Image that they, at some juncture, will follow.

Now, take a deep breath, and remain in your Light Body, in that beautiful Light Body. And welcome Master Yeshua.....
