

Greetings, Beloveds, It is I, Yeshua.

I am honored to be here with you this evening to continue a conversation that we had at Conference in regards to the 2<sup>nd</sup> Iteration of the 7<sup>th</sup> Dimensional Light Template.

Much has occurred for many of you, Dear Ones, as you navigated your day to day life, having reference points that you gained from that 6<sup>th</sup> Dimensional 2<sup>nd</sup> Iteration of the Light Template in regards to transparency. Nothing will be hidden. All of the discrepancies that still remain in your thoughts and emotions will surface. You will be tempted by outside influences of society, of other humans who are still operating in 3<sup>rd</sup> and 4<sup>th</sup> dimensions. It's important that you hold fast to what you know about yourself as Divine and the transformation that is occurring within the human body – YOUR human body.

I draw your attention to the Element of Love and the importance of that Element, the importance of the Element as it applies to YOU. In order to continue on this Journey into Light Body, into higher Dimensional states of consciousness, you must use that Element of Love not only to create and manifest but to Love yourself.

We always direct you into your Sacred Heart Center. But now, Dear Ones, I direct you into your Heart Chakra.

Fill it with that 7<sup>th</sup> Dimensional Light Template, the Energies of that Light Template.

LOVE what Source created in YOU, in your body.....

This is so important... that you receive this Light Template for YOU.....

So there is a graciousness that is recognized in your very human Essence.....

It is through that 2<sup>nd</sup> Iteration of the 7<sup>th</sup> Dimensional Light Template that a stability is created in your consciousness, but most importantly, in your body, to hold that Essence.

So, let me invite you to see that beautiful Magenta Geometry of an elongated Diamond shape. And the exquisite series of Dimensional frequencies and facets that are now present through the Color Codes, the Sound Codes, and the massive Energetics that stimulate that state of consciousness.

As I entered your Conference, I entered from the Center of that Diamond Geometry, the beautiful Magenta, so luminously backlighting my Presence. SEE this for yourself at this very moment.

And I offer my hand to you. Take it. Come forward with me into the Center of that beautiful luminous Magenta Diamond.....

[6:08]

You are surrounded by 12<sup>th</sup> Dimensional Energetics of Earth, Fire, Water, Air....  
You are surrounded by the Archangelics: Gabriel, Michael, Uriel, Raphael...  
You are surrounded by the Essence that was brought forth through the Divine Feminine.

You are also in the Presence of the Divine SHE Energy: SHE-HE in a unified expression of the Divine... No gender relationship here, just pure Divine Essence... that is incorporated in your human body... in your Light Body...

See the luminosity of that Light Body. Also notice, as you stand with me in the Center of this beautiful Diamond Geometry with me, as I present myself to you in a Light Body. Notice there is no differential, no differentiation between my Light Body and your Light Body. Both are equally radiant and luminous, because we are reflecting the Element of Love from the Center of our Being. We are creating a reality for all humans to witness and embody. And we joyfully transmit this luminous Magenta Light.....

It alters substantially the electro-magnetics of the human body and of Earth, itself....  
Your mental-emotional body is beginning to stabilize in the Energetics of the influence that your Light Body and the 2<sup>nd</sup> Iteration of the 7<sup>th</sup> Dimensional Light Template is helping you to create.

There's no doubt you are a complete Unity...  
This is a comfortable space for you.  
You are confident in what you are capable of creating in this moment.....

Do not vary from this state of Being.....  
Draw from the Energies of the Temple of Transparency, so that any influence coming from the collective consciousness can be seen immediately for what it is.....  
Use this influence that is brought through the 2<sup>nd</sup> Iteration of the 6<sup>th</sup> Dimensional Light Template, this influence of transparency – so nothing is hidden from you.

That 3<sup>rd</sup> Eye of you, that beautiful 3<sup>rd</sup> Eye, facilitates clear seeing through that Divine Eye. And it sits in a very auspicious place in your head, so that it influences your thoughts and it influences your ability to process all Divine memory codes. A unification and a stability is being created in this moment by YOU, individually and Collectively.....

Sit for a moment with me, so that you can draw upon this very moment often in the coming days.....

[13:12]

We are joined Heart to Heart, Soul to Soul, because we both have similar purposes in our life expression -- through the Element of Love, through the 2<sup>nd</sup> Iterations of the Light Templates: our Light Bodies beaming out that beautiful, radiant Divine Image in perfection, unified always from this moment forward.

Draw on this Image in that beautiful Magenta Light often.....

So that, when you are tempted by day to day occurrences, that you will see through that 3<sup>rd</sup> Eye and the transparency that is available to you now clearly.

And you will always know that you are Divine.....

In this state of consciousness, in this Presence, in this very moment.....

you will set the Template to recall instantly what you just created with me...

And you recognize your Beauty as that Divine Image.....

And it will never dissipate from this moment on.....

[Significant Pause]

We will now close this session,

so that you can remain in this beautiful state of consciousness,

in this beautiful state of Being, in a physical human 5<sup>th</sup> Dimensional body.....

Blessings, Dear Ones, Blessings!
