

Greetings. It is I, Michael.

I am here as an Archangel, but I am also here as a Lord of Light.

And I am here to speak to you about a Realm of the Angelic kingdom. And that is the Fire Dragon. The Fire Dragons are a very significant tool. And that information and those energetics were only made available to humanity since 2017, through another beautiful channel, a message-giver from the Realms of Great Light.

In 2017, you Dear Ones, were in charge of opening certain Time Locks, with our assistance, that magnify the magnificence of a Christed Being.

Now, the Fire Dragons are part of the Angelic Realm. And they are overseen by we Archangels, specifically me as an Archangel who holds the integrity of that Source Energy and distributes it into all Realms of Creation. That is my charge that I take very seriously.

So not only have you been introduced to the Earth goddess Tara. There are many Earth goddesses that reside in this Realm, along with the Elementals which you are familiar with. You are not familiar with these. Many of you are, because you have made yourself available for that information. Some of you have not, because there was a lack of understanding of the position that they play and the role that is so important to you.

These beautiful Beings who assist us -- the Archangelic Realm cannot enter any dimensional frequency lower than the 5th Dimension. Now these beautiful Fire Dragons were created at the level of Source to assist the Angelics, to assist the Elemental community that are in charge of changing the environment of the Earth that better represents humans as Christed entities.

So when your consciousness slips, there's a chink in your armor. It doesn't matter the reason, but when it slips or you are tempted in any way to think ways in which are not representative of your beautiful Christed energy, these Fire Dragons come to your aid. And they operate in that 3rd and 4th dimension. But there are also great Fire Dragons that operate in Dimensional Realms up through the 9th Dimension. And they can help you navigate through these little mishaps that Kuthumi was talking about.

They can remove, with their Fire of Light, these lower negative forces, these lower negative energies from your field. But they must be invited, just as you had to invite the Elemental communities to help you change the environment of the Earth and raise the Earth. And you shared so lovingly with the Elemental communities, helping them to raise up into that 5th Dimensional expression, so that they could create the environment in Mother Earth that better represents human consciousness as Christed Beings.

[5:40] So too, these Fire Dragons are an integral part of this process and you must invite their intervention, and their protection, and their clearing. And you must acquaint yourself with their role that they play in this Ascension process. So for those of you who are not informed about the extensiveness of these beautiful Beings that assist the Angelic Realm, they assist we Archangels in ways that you cannot imagine.

But most importantly, when you call on us, and we respond and you can hear me speak to you, or you see my Light or my Presence within your field, it's only because you are in a beautiful state of consciousness of 5th Dimension, or above.

But in that slippage where you find such difficulty, then these Fire Dragons come to your aid, because they've been invited and you have begun to recognize their use. There are many. This is a vast Realm, as are the Archangels, as is the Angelic Realm, as is the Master Realm.

So I encourage you now to make yourself knowledgeable and utilize, whether they be a White Fire Dragon, a Fire Dragon that burns off the negativity within any level of your Field, or a beautiful Blue Fire Dragon. There are many, many that you personally will become very fond of, because they serve you as the individual, and they also serve the Collective of this Crucible.

So, it is only that we planted the seeds in 2018. It came into a more needed personal interaction from this community that we now present it to you very specifically. And we ask you to take advantage, and make yourself knowledgeable, and use this tool. This tool is not just a simple tool. If you like, it's a Power tool, a Light Power tool that has instantaneous results.

So that is all I have to say about that. And this beloved channel will give you information on where to find that information if you do not already know about it. We encourage you to utilize this. It is so important.

First thing is to close that door to the first Strands of your personal DNA, and seal it shut.

The second thing is to invoke this great Realm of Beings that are here, that were created at the level of Source to assist humanity and the reclamation of their Christed nature, and the reclamation of Earth through the Elemental communities into a great Planet of Light, of Christed Light, that it originated in.

So in the next Community calls, we ask you to discuss this amongst yourself, to grow it, and the usability of it.

Those of you who are familiar and have used it in the course of the last several months will take the lead here and help the other Beings in the Crucible to know what you know. And so these two Community calls will be very instrumental in you as the individual taking charge of your destiny, which is to be a Christed Being of Great Light.

So, I will turn this back over to Master Kuthumi.
