

From Katie:

I'd like to share with you my excitement about the connection between our Group and the Big Island of Hawaii and our re-acquaintance with these beautiful Dragons.

Our first Crystal Conference in 2016 was birthed on the land and in the waters in and around Kona on the Big Island of Hawaii, when Joan, John, and Melainah started collaborating with Metatron on creating this conference while together on the Island.

On Sunday of our 2017 Conference, our Group made our Vows of Integrity to the White Fire Dragon. And only because of those vows were we allowed to access and assist in retrieving parts of the 7th Dimensional Light Template.

Our Group did not realize at that time the significance of this first introduction to the Realm of the Dragons.

We were then introduced again to the Realm of these Dragons through Melainah via the Dragon Oracle Cards from Diana Cooper in our February, 2018, Gathering on the Big Island of Hawaii.

Some of us were there physically, some of us energetically, but all of us received these Energetics via our Crucible.

We found out (to our surprise) that this Gathering was a necessary preparatory set of Energetics, distributed to all of us through our Crucible, for the upcoming June, 2018, Crystal Conference.

But again, the Group did not realize the significance the Dragons were about to play in our group, in our Crucible, and in the mission of this Group.

And my whole Being is shouting to the Stars that the connection between our Group and the Dragons and the Island(s) of Hawaii, especially the Big Island, is very, very important and indeed is an integral part of our Ascension work here on Earth.

Like, Melainah, I am also very connected to the Big Island and especially to Kona. I've been going there since 1993, and on my second visit, the Island grabbed me and said, "You're mine." It does this to a lot of the people who live there or who have to keep going back there. So, since that point, I have felt I am literally part of the Island and its amazing energies, courtesy of Pele. This is Pele's Island.

And I'm now in the process of closing out my Colorado life and making Kona my primary residence. So, I have a lot of experience with this living Being that is the Island and the many Nature Goddesses and Elementals of all sorts who live there. I'm telling you all this because part of my role is to BE and pass on to our Group and to others some of the Energetics that this Big Island really is. This Island and all of Hawaii is an extremely important place on Earth, especially during this Ascension process.

I'm aware of at least some of the ways the Big Island of Hawaii is a prime energy site:

- According to the Kryon work, and many other metaphysical teachers and channels, the Islands of Hawaii are the remains of Lemuria. According to Kryon, the existing islands are just the mountaintops of Lemuria and at a certain point in time, this land mass started slowly sinking, leaving only the current Hawaiian Islands above the water. Kryon points out that recent scientific evidence supports this hypothesis, as scientists have found another area on Earth where this kind of sinking definitely occurred.
- The Big Island of Hawaii, the most remote landmass on Earth, farthest away from other land, is at 19.5 degrees north latitude on Earth. Every planet we can see in the solar system has something unusual at 19.5 degrees north or south, including the Red Spot on Jupiter and the largest volcano in the solar system on Mars. When a star tetrahedron is placed inside a sphere, such as a planet, its edges touch the sphere at 19.5 degrees. It is a place where higher dimensions well up into the 3D world. And indeed, each island of Hawaii was once at this 19.5 degree point, before plate tectonics pushed it out of that location to the northwest. And each island in turn was formed by the upwelling of materials from Inner Earth to the surface via volcanoes. As you know, the volcano on the Big Island is very active. And the next volcano [Loihi] in line is already active, slightly off shore to the south of the Big Island, still under water, but growing.
- Like many places on Earth, the waters around these Islands are filled with high frequency whales and dolphins who consciously interact with the humans. In the Kona area, there is a group of humans known as Dolphinville who have created a community, a village, of dolphins and humans, consciously interacting and communicating with each other. I don't know of any other place doing this.
- And, just off the Kona coast, which is on the west side of the Island, is the Convergence Point, the place where all time, space, and dimensions come together. This Energy center has become a prominent part of our work in our Conferences and in our Crucible.

During our February, 2018, Gathering with Melainah, where we swam with the dolphins almost every day, we also visited this Convergence Point several times in Melainah's boat. And we had brief but immensely important channelings from Metatron, An Ra Ta, and the Ancient Ones at the Convergence Point. Metatron came into one of his beloved Humpback whales during the channeling from him, and this whale literally circled our boat during the channeling – we could see the whale doing this. And another time we were there, we all chanted into the water and then swam with the dolphins in the Convergence Point.

- By the way, shortly after our group left the Island, the massive months-long volcanic eruption on the Big Island began.

And, as I just mentioned, another very important event that happened on the Island during our February, 2018, pre-conference Gathering in Kona with Melainah and the Cetaceans was that Melainah shared with us the deck of cards called Dragon Oracle Cards. At the time, most of us didn't realize how significant these Dragon Cards were.

Now we see that those Dragon Energies were being seeded into us in February, 2018. And now we have caught on and we suddenly realize/remember the importance and the Majesty of these Dragons who serve the Archangels in service to us and all humans, to the Earth, and to all the Universes.

The connection between ourselves and these Dragons is so important that Master Kuthumi in our June 30 class spoke about this importance and Michael came and formally introduced us back into this connection with the Realm of the Dragons in that class.

And it's not by chance, of course, that in this same class we sealed away for eternity the limiting aspects of our physical Earth body lineages that had been held in the 1st and 2nd Strands of DNA, the physical Helix the scientists can see in the cells.

And this opened the way to an incredibly beneficial connection for us with the Dragons in our personal transformation process and for the Ascension of all on Earth.

At this point the Dragons have become unbelievably valuable in our Ascension process. And Group members will be talking about their experiences with these Dragons in this call tonight.

For me – Now, I can't believe I ever forgot about our Dragons!
They feel to me like they are part of my very Essence.

The fact that they came to our Group through the Big Island of Hawaii Energies is also very significant. There are all the reasons I talked about for how the Big Island is a magical Energy Site on Planet Earth. This is Lemuria. It's at the 19.5 degree latitude point. The Convergence Point is there and the Human/Cetacean conscious connection, including the village of Dolphinville. And the Elemental Presence is awesome.

These beautiful Dragons are Elementals, part of the Angelic Kingdom. The Elemental Forces on this Island are incredibly alive and conscious and amazing. The Elements/Elementals are so strong and present it's a WOW. The beauty is awesome. These are the Energetics and the connection that I am trying to pass on to you by talking about this. So, welcome to Hawaii, whether you have ever been there physically or not!

What an incredible place for the Fire Dragons to come to us! And now Melainah, who is on the Big Island, has something she would like to share with us this evening.
