

**[18:43] Melainah:** Aloha, Everyone!

I am delighted to be here, too. And thank you, Katie, for the wonderful, for all that great information. You have beautifully set the Energetics for the White Fire Dragon. I am also excited to be here as we begin the countdown to our Conference.

I'm not going to dally here, as they are ready.... but  
Before the White Fire Dragon comes forth, I would like to remind all of you of this from our 2017 Conference:

We have entered the Realm of the White Fire Dragon of Inner Earth.....  
The White Fire Dragon is a 12<sup>th</sup> Dimensional, powerful, beautiful, magnificent Being,  
who presents a balanced expression of the fully merged Divine,  
And has been the Guardian of the 7<sup>th</sup> Dimensional Time Lock,  
since it was placed at the Fall of Consciousness.....

Now with that, please join me in welcoming the White Fire Dragon.....

**12<sup>th</sup> Dimensional White Fire Dragon:**

Hello.

We are honored to have been invited to visit with you at this time.

We are also delighted to be coming to you from this beautiful place of the Convergence Point that is held in the waters and frequencies of Ancient Lemuria. Many of the Angelic Dragon Realm have been here since those ancient times. We, too, like to bask in the Energetics present here. So please, all of you, join me here -- now.

It has been two years since we met in the Realms of the Inner Earth at your 2<sup>nd</sup> Conference. Now, you are soon to gather for your 4<sup>th</sup> Conference!

Your Collective has accomplished so much over these past few years.  
As I look out over you now, I am amazed at how much you have changed, both individually and as a Collective. You are much brighter. And your energy fields have expanded immensely. You have done an excellent job.

So we have been asked to speak with you briefly about the Dragon Cards that you have been enjoying. These cards have been of great benefit in introducing the Angelic Dragon Realm to many who may not have been aware of our existence other than in folklore. There is now more awareness of how this Realm has been and can be in service to humanity. But, for your group in particular, these cards are a wonderful tool in getting to know the broader spectrum of the Dragon Realm.

And as a reminder, we are a multi-Dimensional Collective from the Angelic Realm. And as you are aware, we work closely with the Archangelics. We also work very closely with those you call the Earth goddesses, like Pele, like Lilinoi, and many others. We will speak more on this at a later time. So, we do want you to be aware of that connection.

So, as you are working with and getting to know many of the Dragons found in these cards and the book, we wish to clarify a couple of points.

Where the cards might define a particular Dragon to a certain Dimension, we would like to expand on that with a bit more information. First, no Dragon is limited to a certain Dimension. However, certain Dragons work more frequently in certain levels and frequency ranges, thereby giving them an expertise in maneuvering in that realm. They know the obstacles and pitfalls of that dimensional field and can be of great assistance to you in the way that best serves your Higher Good and your objectives.

The next very important point: You must ASK for our assistance, for we cannot go where we have not been invited.

When you ask, we are there to help YOU help you. We will work alongside of you. But we cannot do it for you. Together however, the possibilities are endless.

When you are working with or have found a particular Dragon that perhaps feels familiar, try this. Allow me to give you an example.

Let's say, you are working with one of the Blue Dragons. If you give your permission, that Dragon using the Sacred Ha (that is, the Sacred Breath) will breathe a Mist of Blue to surround you. This serves several purposes:

1. It allows the Blue Color Code to activate in your field.
2. It allows you and the Blue Dragon to develop a harmonic resonance, which in turn
3. will allow the Blue Dragon to come closer to you.
4. If you have been working on a certain situation with one of the Dragons, once that has been resolved or you move through different layers of the situation, you will need, from time to time, to shed that Mist of Color and allow a new one to be created.
5. So, the Color of the Mist will match the Color frequency of the particular Dragons you are working with.
6. Pay attention to how the frequencies and the different Colors make you feel.

So use these cards. Be playful as you are becoming familiar with them.

As we are moving closer to Conference time, I encourage you to work with the Dragons of your choice, with the intention of assisting you in resolving, or at the very least lessening, the charge on anything that remains that keeps you from being fully, stably, and consistently in the 5<sup>th</sup> Dimensional frequency. This will serve you well and will be of great benefit to you during the Conference.

There is already much excitement and preparation occurring in all the Realms for this September Gathering.

Now, before I step back, Dear Ones..... Take a Breath.....  
And receive this Invitation from me:

For all that you do and for the great Light Beings you ARE, I know that there have been some challenges for some of you over the last few years. We hope you can feel and are aware of the great Love and support for you from throughout the Cosmic Realms. But we can see that sometimes your body, your mind, your human Heart can feel overwhelmed and you become very tired. I have even heard some of you say that at times you feel all alone and that you don't believe you have a soft place to fall.

Beautiful Ones, when you are weary, I invite you to call on me.

I will be there instantly.

I will draw you close and enfold you in my wings, where you may stay and rest for as long as you need.

With Love and service, I will be your soft place to land, whenever you need me.

I AM the Galactic White Fire Dragon from the multi-Angelic Realms.

[29:50 The rest of the group conversation, which included many great experiences and ideas, can be found in the full recording of the Community Call.]
