

John: Welcome everyone and we're certainly pleased that you could join us. This is, of course, Seating of the Divine, Level 2, Session #8, July 23, 2019. Tonight we will have a Community Call and we will start with a centering meditation from Archangel Gabriel.

The other part of the agenda for this evening has had to be changed because of a special event that took place, that involved us all, which we didn't know at the time, in Hawaii last week. Melainah will give us the details as to how we were all included and affected by this significant event. That event has many layers to it that we will know and find out. Over the next few years this whole thing will unfold.

It is important for us to realize that the Energetics that were set in motion affect our Group and our Conference. These Energetics provide another opening of an aspect of the 7th dimensional Time Lock. So that's obviously extremely significant.

Gabriel:

Greetings, it is I, Gabriel. I'm delighted to be here with you this evening. And I am also honored to bring us all together in our beautiful Crucible of Light, with all members of our Crucible.

So, if you would take a deep breath.....
Become very centered in the moment.....
breathing in Love..... exhaling Light.....
Very present in your Sacred Heart center.....

Now, since this evening has some very important and significant information that will be given to you this evening, it is appropriate that you, as the human counterpart of this Collective Group, send a grounding cord into your Earth Star.

Feel that connection with Mother Earth... and the Elementals.....

Now, take a deep breath.....

And, as you enter through your Earth Star,
begin to recognize your descent into the center of the Earth.....

The Telosians are present and greet you...

as you enter this first level of the Inner Earth Community.....

Next, we see the arrival of the Andarans, the Andara Collective.....

and the Lemurians are here en masse.....

Next the Ancient of Ancients.....

And close to the center, surrounding that Christed Matrix, are the Luminaries.....

Luminous Beings of Light.....

Feel that connection, for that Matrix is also within you, within your Sacred Heart.....

See the changes that have occurred within that Christed Matrix within this last year
and how luminous it glows.....
as it mimics the Luminaries, the luminous, luminous Light.....
And Mother Earth, herself, has been elevated and altered.....

And now, you contribute your Christed Energy.....
very anchored within the Earth and within these vast Communities.....

Also recognize the Unity of our Crucible and the many Star Beings
who are with us -- gathered, observing, participating,
adding their Light..... and their Wisdom.....

It is only fitting that we include all parts of the Communities
that are present and gathered in this very moment.....
Can you FEEL the Energetic explosion
that is taking place within the center of Mother Earth?
And the Light that continues to grow and expand.....

All of the Elementals are present and resonating with this great Light
that has been created.....
Next, we observe the Dragon Realm, the Fire Dragons,
who hold such a significant part within the Earth dynamics
and with the resurrection of a Christed Planet.....
The Earth goddesses are also present.....

Another deep breath.....
Remain in this state of being, state of consciousness,
And let us begin tonight's session.....
