

Transcriber's Note: This is a summary of the points that came out of the group discussion. As always, the full Community Call is available on the recordings.

Heidi: I unexpectedly needed naps a couple of days after this event!

Joan: All of these energies went right into our Crucible.

Kelly: I've had a big shift since being introduced to all these Dragons in addition to my personal one. Charlotte helped me create an intention to sleep better, calling on the Dragons and going to the Emerald Green lake before sleep. And it worked! I've been sleeping great and waking up rested, very grounded, calling on the Dragons for everything.

Joan: Remember when our group first went to the Convergence Point in February, 2018. And Metatron spoke about connecting with the Ancient of Ancient Ones. But he also spoke about the Mother Energy. At that time we didn't see this recent event coming or how our 2018 visit was setting the foundation for this recent event, which brought it up another notch.

Diana: I'm sharing this because Melainah's intuition told her this E.T. was Andromedan. I had a very powerful experience at the 2018 Conference in my bedroom at night on Sunday after we finished the conference. I'm still not quite certain what took place. I asked who was there in my bedroom, and all I received was "The Council of Andromeda and beyond".

Part of this was witnessed by Charlotte and Marta. At the Conference, Charlotte took me outside and said this was for me – and the entire sky, with the clouds, made an upside down V. It blew me away. Then my husband and I went to Kona in July, 2018, after the Conference. When I first stepped into the water, it felt like something drained from me. Then while in Kona, we saw another extraordinary upside down V in the sky!

Joan: There are no words for a lot of things transpiring for us.

John: The Andromedans were the group of Beings who stepped forward when Atlantis was going under and accumulated, physically and etherically, a tremendous percentage of the Crystalline Energy that was available in Atlantis. They took this energy to different places and still are holding parts of this Energy. That's our Crystalline connection. And Mena, where we will hold the 2019 Crystal Conference on Talimena Ridge is going to be a Crystal Connection with two very large energetic Crystals that are there.

Joan: Right. The Andromedans held the Christ Consciousness for Earth, until we could hold it for ourselves. They play such a role for us and for the Earth and this whole Milky Way Galaxy.

Katie: When I was living in Kona earlier in 2018, I created a special bond with the smallest of the five Anchis, the one that is shaped just like the Big Island of Hawaii. I am thrilled that instead of going into the Convergence Point in the ocean, it's coming to the Conference with us. I already see the explosion of Light that it is creating at that Conference. I think it is really, really important for us to connect with that Anchi at the Conference. And I Love that this Anchi will be going into a special place on the land of Hawaii instead of into ocean to radiate its Energies.

Joan: Every step in everything is so precise in the way we are being guided. They orchestrate it based on how we do our human part. For instance, in the last Community Call, you reviewed the events that happened on Hawaii for this group and the significance of that Convergence Point.

Katie: Yeah – I was told a few weeks back to go to my computer and write that up! Each one of us is doing our parts.

Melainah: I think it's important that this beautiful E. T. Andromedan Being told us that they will be infusing these Stones with their technology on a continuing basis, to be redone every five years, as long as it is needed. I think it's important that we keep their Presence with us all the time. They are already keepers of the Etheric Crystal and the Blue Crystal. Each piece we learn allows them to come closer to us. They are watching over us and contributing to our transformation.

Joan: As we further activate our Light Body and can hold our 5D Light frequency as intended, their Presence will become more obvious to us.

John: Our Andromedan E.T. made a point of saying they are infusing their energies into these Stones only for Good. There will be no misuse of the energies as happened on Earth in Atlantis.

Kathleen: I'm blown away, too. All my Anchis are sitting here waiting to speak and say Whoo Hoo! They are so lit up! I've always felt the Anchis are Andromedan. And I feel the Andromedans were there at our Conference last year, too. I feel a strong alliance between the beautiful Andromedan Being Raphaelle introduced us to and the White Fire Dragon, to whom we made our vows. I see a Rainbow Bridge from Kona to Mena (Talimena Ridge Conference), healing the wounding. My Queen Anchi seems to be stretching west to Kona and East to Arkansas. I feel all of our Anchis are aligning with these five Anchi Stones, not just the 5th one Melainah is still holding, which is the 5th Element of Love. All the Anchis are encoded with this technology. I see more of the Blue Crystal of Knowledge being repaired because of all this and our upcoming Conference.

Joan: There's another Crystal in this area that was brought on line. It wasn't totally activated in 2009: the Green Crystal of Love connected to Mt. Magazine. That Etheric Crystal is in the bottom of Lake Ouachita. It has to be connected with the Blue Crystal at Talimena Ridge, because you cannot have Wisdom without the Element of Love. The Blue Crystal is all about Wisdom and Knowledge and it's very significant that those two Etheric Crystals be connected. This is probably one of the things we will be doing at the Conference.

Katie: There is also another very strong Rainbow connection between the Island of Hawaii and Mt. Shasta, both of which are connected to the Arkansas Crystals, all of which are connected to Glastonbury, England, which is in turn connected to other Sacred Sites on Earth. And Michael and Raphaelle Tamura carry a strong Mt. Shasta energetic connection. Another connection in addition to the MA energetic connection.

Mark: As some of you know, I am a Walk-In and I come from Andromeda. The entire Andromeda Galaxy is 15D and quite different from the Milky Way with all its various levels of consciousness. Because it is 15D, the Beings there operate at a far higher temperature, even higher than 12D. I really appreciate the fact that people are now recognizing and talking about the connection between Earth and Andromeda, because Andromedans are so helping Earth's Ascension.

Linley: My entire body is vibrating; my chest is vast; I am feeling an overwhelming sense of Love. At the Conference when I first held the Stones, I felt nothing. In Hawaii with Diana, I was asked to pray over the Stones. I went into a trance chanting from my other spiritual system and I was chanting to the primordial feminine aspect. Groups all over the Planet are stepping up and touching who we truly are and spreading it in such a way that people can understand it. Using Stones and Crystals is perfect for spreading this to more people, especially children, who grew up playing with rocks, crystals, and talked to all life seen and non-seen. I feel so full of gratitude.

Jody: What day did you put the Anchis into the Convergence Point? [Monday, July 15] Sandra Walters is talking about a very large ship in the Crystal Grid and that there is a great shifting in the Crystal Grid, in part due to Lightworkers going to physical locations and physically dropping Crystals. The recent California earthquake, which connects with Mt. Shasta and all the way to Lemuria/Hawaii, is part of this latest shift. A whole new global neural network of connection is being created on human levels and on physical Earth levels.

Katie: I just wanted to point out that July 15 was between the July 2 full solar eclipse and the July 16 partial lunar eclipse and on the cusp of the Days of the Lion's Gate July 26, max on August 8, continuing to August 13. [And our next meeting is August 9.]

Charmaine: While Jody was talking, I pulled a "random" Dragon Card and it was the Dusky Pink Dragon from Andromeda!
