

Gridmasters 10-18-2020: Return to Prime Directive of the Planet

Joan Intro: Well, hello everyone, this is Joan.

And my co-hosts today are Joe Jett and Kathleen McGarry.

So, just to begin with before we get started and I turn this over to Joe and Kathleen, I have one announcement to make. I will post the audio on the Gridmasters' page of your private page today. The video part will be posted sometime tomorrow. It's usually a day later, because my webmaster has to compress the file and upload it.

And then next Sunday at the same time, we will have our post-Conference call with Melainah.

Joe and Kathleen lead the group sharing the reading of Kuthumi's Prayer.

[See separate document with Kuthumi's Prayer]

Joe Centering Meditation:

Take deep breaths.....

Be in your Sacred Heart.....

Aware of your ground to your Earth Star.....

Notice how your Triads are all merged, operating as one vast Unified Field of Light...

Breathe in Love..... Breathe out Light.....

Breathe in Light..... and Breathe out Love.....

Breathe in Love..... and Breathe out Light.....

From the Love that you are,

give the gentle command for your Merkaba to activate to its fullest dimension...

Then one by one, in our Merkabas, let's file into our beautiful luminous Crucible.....

Acknowledge the Presence of the many Great Beings of Light who are part of our Crucible:

The 12th Dimensional Elemental Kingdom,

The Winged Ones, The Dolphins and Whales, The White Fire Dragon, The White Lion,

The Lords of Light, the Archangels,

The Syrian Archangelic League of Light, The Pleiadian Consortium, The Arcturians,

and The Andromedans, and many, many others.....

[6:15] **Joe Intro:** So, as we listen to today's message with our ears, it is also coming through the Light. And we receive it through our Luminous Light Bodies, our mental-emotional bodies, and *all* of our subtle bodies, from where it then seeps into our physical bodies and into our cells and into our organs, into our blood.

The purpose of our Gridmasters' calls is to transmit the Element of Love, Unity Consciousness, and Stability to Humanity and the Earth, including the Inner Earth Community and the Elementals.

We are now asked to do this often, daily even, perhaps in our morning meditation, or at some point during the day when you can get quiet. So it's not limited to our monthly Gridmaster calls only, but a continuous flow.

This will be of tremendous benefit to Humanity, to the Earth, and to ourselves. We agreed in 2016 to hold the 5th Dimensional Consciousness stably in our bodies. We are now capable of doing this, and we are called upon to do this. So foster this vibration in yourselves, and it will transmit and radiate around the clock, and rapidly accelerate your Ascension and the Ascension of the entire Planet.

[8:02] **Kathleen report on call with Metatron:**

Metatron spoke to us in preparation for this call yesterday and he will join us shortly. He wanted to acknowledge the wonderful work we have done as a group and to state that the Ascended Masters and Archangelics have been quite pleased and even surprised by how much we have done in these last five years.

That said, there is much to do to anchor what we did at the Light Conference. And that is why we are here today.

Metatron must have used the word Stability at least five times during the course of our call yesterday. He said the 5th Dimensional Template of stability and Love is the most important Energetic we can hold on the Planet at this time, during this time of great upheaval and change.

He would like us to transmit this daily from our Hearts to the Planet and her inhabitants.

[9:03] **Kathleen report on call with Metatron, cont'd:**

Metatron would like us to also include here the Element of Love, Unity, and Stability within the 5th, 6th, & 7th Dimensional Templates, which are now part of the Quantum Field that he introduced us to and anchored in the 5th Light Packet in the 8th Strand of our DNA and our Soul Star.

Stability, especially from this 5th Dimensional Template, will be our mission for the next coming year. We will be transmitting these Templates with all their included Sound and Light Codes from within the Light Body and our physical body in the DNA Light Packets. He said to transmit from the Heart, which accesses the physicality and the purity of our human intentions. They are contained within us and are part of us, so it takes no special effort -- Just be who you are, sending Love to our beloved Planet and all living Beings here.

Metatron said that the 12th Dimensional Elemental Imprints we received on the 2nd day in the afternoon were so important and massive that we may have thought of them as an afterthought during the Light Conference. But it was not. In fact, it was an *extremely* important component of the weekend. It was a gift to the Earth.

And the Earth needs this imprint desperately in these times of change, because it will provide the actual Prime Directive of the original 12th Dimensional Template.

As it was created and positioned in that 12th Dimension through the Elementals of the Earth, it will now allow the Inner Earth Communities to operate at this dimensional sequence for the first time since the fall and to begin to change things at the deep level of the Inner Earth. It is anchoring the 12th Dimensional Christed Matrix through the Element of Love and Stability.

We will share more as we move through this transmission.

But I am now honored to introduce Metatron, who will give us a special message related to our work today.
